Part 3: Assessment

In this module, students are required to transform and build on their “passive” knowledge of the English Language and the principles of second language acquisition, so that they can eventually become “teachers” of the English Language (EFL) themselves. Theories and strategies for the teaching of EFL in a real 1-1 classroom context will be engaged with actively. This will involve both education (theory of education and theory of practice) and practice itself (training i.e. strategies, activities and techniques) for active use in the classroom.

To this end,

TB1 involves significant work on language awareness, specifically in the area of the lexico-grammar and lessonplanning. EFL course books will also be analysed and reviewed and teaching techniques will be explored and demonstrated by participants. At the end of TB1, students will be tested on their understanding of the lexicogrammar, ways in which they would deal with student errors and the planning of a lesson that incorporates aspects of the above. (a portfolio of tasks 30%).

TB2 involves work on phonology for EFL, classroom management, the four skills, vocabulary and monitored development of diagnostic test writing and classroom teaching, in preparation for the 1-1 lesson with a non-native participant. Significant time will be apportioned to reflection and analysis of own performance in terms of both the theory and the practice. Students will be required to work with a non-native participant, chosen by themselves, in a series of steps leading to a final, taught 1-1 lesson. A Language Learner Profile that incorporates all of the theoretical and behavioural themes from the year, as well as the results of the student’s own practice, will form the basis of the final coursework. (Coursework to be handed in at the end of TB2, 70%).
