

## MODULE SPECIFICATION

Part 1: Information			
Module Title	Professional Experience Stage 2 - Architecture		
Module Code	UBLMCN-10-M	Level	Level 7
For implementation from	2018-19		
UWE Credit Rating	10	ECTS Credit Rating	5
Faculty	Faculty of Environment & Technology	Field	Architecture and the Built Environment
Department	FET Dept of Architecture & Built Environ		
Module type:	Professional Practice		
Pre-requisites	None		
Excluded Combinations	None		
Co- requisites	None		
Module Entry requirements	None		

Part 2: Description
<p><b>Overview:</b> Pre-requisites: students must have BArch or equivalent prescribed Part 2 qualification in architecture</p> <p><b>Educational Aims:</b> This module aims to provide an academic context for graduates of prescribed Part 2 programmes in architecture who are working towards admission to the Register of Architects and are undertaking the second period or final period of professional experience prior to entering a Part 3 examination.</p> <p>The module provides an opportunity for students to develop a critical perspective on their work in practice.</p> <p><b>Outline Syllabus:</b> The syllabus for the module consists of the completion of a period (normally one year) of professional experience and recording and critically reflecting upon that experience using the Royal Institute of British Architects (RIBA) Professional Experience and Development Record (PEDR) in accordance with the RIBA requirements and guidance for Stage 2 post Part 2 students.</p> <p>The module is available to those who are intending to enter UWE's Part 2 programme (BArch) who are either:</p> <p>(1) graduates of UWE's BArch programme that is prescribed by the Architects Registration Board (ARB) and validated by the Royal Institute of British Architects (RIBA) as a Part 2 qualification in</p>

## STUDENT AND ACADEMIC SERVICES

architecture

or

(2) hold another Part 2 qualification in architecture prescribed by the ARB

and

(3) are registered on the RIBA's professional education and development programme.

The RIBA PEDR scheme requires those working towards registration to undertake and record a minimum of 24 months professional experience (it is usually more). At least 12 months of this experience must be undertaken after successfully completing a Part 2 programme. Most of the experience should be under the supervision of a registered Architect acting as Employment Mentor and checked by the Professional Studies Advisor at the Higher Education Institute (HEI) where they took Part 2 or where they intend to enrol on a Part 3 programme.

The syllabus is in line with the traditional route to becoming an architect i.e. completing a two part course in architecture at an approved school of architecture and 24 months of practical training experience followed by a Part 3 examination and registration as an architect. The RIBA Professional Experience and Development Record (PEDR) is a requirement for the RIBA Examination in Professional Practice and Management (Part 3), the final examination of an architectural student's training. A person on successful completion of the required practical training experience and Parts 1, 2 and 3 is eligible to apply for registration with the ARB to use the title 'Architect'. They may in addition opt to apply for full chartered membership of the RIBA in order to be able to use the title 'Chartered Architect'.

The PEDR is an electronic record of a student's professional experience, development and competency in the practice of architecture.

The purpose of the PEDR is to ensure that students passing Part 3 have gained the required professional experience in appropriate workplaces. The PEDR provides evidence of practical training experience working on a range of work stages covering a range of tasks and activities of sufficient complexity to demonstrate that by completion of the minimum term of 24 months of experience they have the competency to discharge the duties and responsibilities of a Registered Architect. It is also a tool for students to demonstrate compliance with the professional experience regulations and to reflect on what they have learnt during their professional experience.

The record sheets are completed at 3-monthly intervals by the student, commented on, checked and signed by their Office Employment Mentor and sent to their Professional Studies Advisor (PSA) for feedback and signing. (Further information can be found in the RIBA's Requirements)

To complete the record, graduates must normally be registered at a school of architecture on a course, (Part 1, Part 2 or 3), leading to a qualification recognised by the RIBA. The completed Professional Experience and Development Record is submitted by the graduate as part of the Examination in Professional Practice and Management, (Part 3), to the Examination Centre.

**Teaching and Learning Methods:** Introductory lecture in semester preceding commencement of the module to existing UWE students.

Module website induction information for graduates from other institutions.

Module website information updates and exchange.

Recording, analysing and reflecting upon profession experience.

Feedback, advice and comment from Employment Mentor and Professional Studies Advisor.

Reflection and action on feedback and comments.

Part 3: Assessment			
See Outline Syllabus			
First Sit Components	Final Assessment	Element weighting	Description
Professional Practice Report - Component A	✓	100 %	Professional experience record
Resit Components	Final Assessment	Element weighting	Description
Professional Practice Report - Component A	✓	100 %	Professional experience record

Part 4: Teaching and Learning Methods																																									
Learning Outcomes	<p>On successful completion of this module students will achieve the following learning outcomes:</p> <table border="1"> <thead> <tr> <th>Module Learning Outcomes</th> <th>Reference</th> </tr> </thead> <tbody> <tr> <td>Demonstrate compliance with the RIBA PEDR requirements</td> <td>MO1</td> </tr> <tr> <td>Identify and review their role(s) and responsibilities within the context of their employer's organisation</td> <td>MO2</td> </tr> <tr> <td>Critically evaluate her or his experience in practice</td> <td>MO3</td> </tr> <tr> <td>Critically review relevant technical and management decisions and actions in specific situations related to professional related activities</td> <td>MO4</td> </tr> <tr> <td>Examine and critically evaluate the development of his or her professional skills and explain how such skills might be enhanced</td> <td>MO5</td> </tr> <tr> <td>Demonstrate an understanding of roles of and interactions between interested parties involved in the design and construction process</td> <td>MO6</td> </tr> <tr> <td>Demonstrate an understanding of the client/user perspective and ability to communicate effectively with the client/user, consultant and project team</td> <td>MO7</td> </tr> <tr> <td>Demonstrate an understanding of professional conduct and professionalism within the context of architectural or other related practice</td> <td>MO8</td> </tr> <tr> <td>Demonstrate an adequate knowledge of the construction industry, its national and international economic context and the role of the architectural profession relative to the industry</td> <td>MO9</td> </tr> <tr> <td>Demonstrate an adequate understanding of the office structure and workings</td> <td>MO10</td> </tr> <tr> <td>Demonstrate an understanding of the work stages related to architectural practice</td> <td>MO11</td> </tr> <tr> <td>Demonstrate an understanding of tasks and activities within work stages A-L and other relevant tasks</td> <td>MO12</td> </tr> <tr> <td>Demonstrate an ability to carry out tasks and activities across work stages A-L</td> <td>MO13</td> </tr> <tr> <td>Demonstrate an understanding of technical standards and sources of information</td> <td>MO14</td> </tr> <tr> <td>Demonstrate an understanding of project planning and management</td> <td>MO15</td> </tr> <tr> <td>Demonstrate an understanding of the range of building procurement, tender types and codes of practice</td> <td>MO16</td> </tr> <tr> <td>Demonstrate an understanding of the requirements of continuing professional development (CPD) and maintain a record of CPD undertaken in accordance with RIBA requirements</td> <td>MO17</td> </tr> <tr> <td>Demonstrate an adequate knowledge of site organisation, procedures and communications in relation to the specific responsibilities of the building team</td> <td>MO18</td> </tr> <tr> <td>Demonstrate an ability to assess and organise quality control</td> <td>MO19</td> </tr> </tbody> </table>	Module Learning Outcomes	Reference	Demonstrate compliance with the RIBA PEDR requirements	MO1	Identify and review their role(s) and responsibilities within the context of their employer's organisation	MO2	Critically evaluate her or his experience in practice	MO3	Critically review relevant technical and management decisions and actions in specific situations related to professional related activities	MO4	Examine and critically evaluate the development of his or her professional skills and explain how such skills might be enhanced	MO5	Demonstrate an understanding of roles of and interactions between interested parties involved in the design and construction process	MO6	Demonstrate an understanding of the client/user perspective and ability to communicate effectively with the client/user, consultant and project team	MO7	Demonstrate an understanding of professional conduct and professionalism within the context of architectural or other related practice	MO8	Demonstrate an adequate knowledge of the construction industry, its national and international economic context and the role of the architectural profession relative to the industry	MO9	Demonstrate an adequate understanding of the office structure and workings	MO10	Demonstrate an understanding of the work stages related to architectural practice	MO11	Demonstrate an understanding of tasks and activities within work stages A-L and other relevant tasks	MO12	Demonstrate an ability to carry out tasks and activities across work stages A-L	MO13	Demonstrate an understanding of technical standards and sources of information	MO14	Demonstrate an understanding of project planning and management	MO15	Demonstrate an understanding of the range of building procurement, tender types and codes of practice	MO16	Demonstrate an understanding of the requirements of continuing professional development (CPD) and maintain a record of CPD undertaken in accordance with RIBA requirements	MO17	Demonstrate an adequate knowledge of site organisation, procedures and communications in relation to the specific responsibilities of the building team	MO18	Demonstrate an ability to assess and organise quality control	MO19
Module Learning Outcomes	Reference																																								
Demonstrate compliance with the RIBA PEDR requirements	MO1																																								
Identify and review their role(s) and responsibilities within the context of their employer's organisation	MO2																																								
Critically evaluate her or his experience in practice	MO3																																								
Critically review relevant technical and management decisions and actions in specific situations related to professional related activities	MO4																																								
Examine and critically evaluate the development of his or her professional skills and explain how such skills might be enhanced	MO5																																								
Demonstrate an understanding of roles of and interactions between interested parties involved in the design and construction process	MO6																																								
Demonstrate an understanding of the client/user perspective and ability to communicate effectively with the client/user, consultant and project team	MO7																																								
Demonstrate an understanding of professional conduct and professionalism within the context of architectural or other related practice	MO8																																								
Demonstrate an adequate knowledge of the construction industry, its national and international economic context and the role of the architectural profession relative to the industry	MO9																																								
Demonstrate an adequate understanding of the office structure and workings	MO10																																								
Demonstrate an understanding of the work stages related to architectural practice	MO11																																								
Demonstrate an understanding of tasks and activities within work stages A-L and other relevant tasks	MO12																																								
Demonstrate an ability to carry out tasks and activities across work stages A-L	MO13																																								
Demonstrate an understanding of technical standards and sources of information	MO14																																								
Demonstrate an understanding of project planning and management	MO15																																								
Demonstrate an understanding of the range of building procurement, tender types and codes of practice	MO16																																								
Demonstrate an understanding of the requirements of continuing professional development (CPD) and maintain a record of CPD undertaken in accordance with RIBA requirements	MO17																																								
Demonstrate an adequate knowledge of site organisation, procedures and communications in relation to the specific responsibilities of the building team	MO18																																								
Demonstrate an ability to assess and organise quality control	MO19																																								

## STUDENT AND ACADEMIC SERVICES

	Demonstrate an understanding of contract administration and an ability to use architect's instructions and other relevant certificates and be aware of procedures for assessment, valuation and claims	MO20
	Demonstrate an awareness and understanding of statutory bodies and requirements	MO21
	Demonstrate an understanding of and compliance with the RIBA and ARB professional experience requirements leading up to and after qualification	MO22
Contact Hours	<b>Independent Study Hours:</b>	
	Independent study/self-guided study	75
	<b>Total Independent Study Hours:</b>	75
	<b>Scheduled Learning and Teaching Hours:</b>	
	Face-to-face learning	25
	<b>Total Scheduled Learning and Teaching Hours:</b>	25
	<b>Hours to be allocated</b>	100
	<b>Allocated Hours</b>	100
