Part 3: Assessment

<p>Assessment Strategy</p>	<p>The assessment strategy is for individual students to complete a case study and case study note based on an investigation of an organization of their own choosing agreed with the supervisor. The assessment will explore and analyze the organization from a number of perspectives covered in lectures and tutorials.</p> <p>Summative assessment includes two elements:</p> <p>Component A - Individual Learning Portfolio will consist of a reflective essay on how entrepreneurial narratives are managed in practice and produce a convincing narrative to support a case study and case study note apropos the potential for generating, evaluating and acting upon sustainability as an opportunity together with evidence from seminar worksheets. 1500 words.</p> <p>Component B - Individual Case Study and Case Study Note will be on an organisation (the unit of study) and will involve analysis of the organisation from alternative theoretical entrepreneurial perspectives. 3000 words.</p> <p>Formative assessment will be provided in tutorials through the use of case study work and also through live case clinics.</p>
