Reading Strategy\*

**Essential reading:** Students are encouraged to buy at least one text for this module or to ensure that they have access to the core text in collaboration with one or more course colleagues. The key texts will be listed in the module handbook and a copy of each is provided in the Library. Where texts are available as e-books, these will be available on the library website.

**Further reading:** Further reading is necessary for this module, and students are encouraged to explore a variety of texts and sources around a range of issues. Many resources can be accessed online. A current list of texts is given in the module guide and revised annually.

**Access and skills:** Formal opportunities for students to develop their library and information skills are provided within the induction period and the GDP. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library.

**Indicative reading list:** The list included as part of the module specification provides an indication of the type and level of texts which students might be expected to refer to as part of the work on this module. Current advice on additional reading will be found in the module handbook and on Blackboard.
