**Reading Strategy**

All students will be encouraged to make full use of the print and electronic resources, available to them through membership of the University. These include a range of electronic journals and a wide variety of resources available through web sites and information gateways. The University Library's web pages provide access to subject relevant resources and services, and to the library catalogue. Many resources can be accessed remotely. Students will be presented with opportunities within the module to develop their information retrieval and evaluation skills in order to identify such resources effectively.

All **essential reading** will be indicated clearly, along with the method for accessing it, e.g. students will be expected to purchase a set text, and will be referred to other texts held in the library and texts that are available electronically. Further guidance will be available in the module handbook and via the module information on UWE online.

If **further reading** is expected, this will be indicated clearly. If specific texts are listed, a clear indication will be given regarding how to access them and, if appropriate, students will be given guidance on how to identify relevant sources for themselves, e.g. through use of bibliographical databases.

*Formal opportunities for students to develop their library and information skills are provided within the induction period and throughout the module. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, accessing electronic journal articles, evaluating information and referencing. Sign up workshops are also offered by the Library.*

### Part 3: Assessment

#### Assessment Strategy

Assessment of the module is through various, short formative assessment tasks as well as summative tasks.

#### Assessment criteria

##### **A: Conceptual Domain (Core)**

L1The assignment demonstrates that the student can identify and use relevant ideas and perspectives for purposes of reflection upon issues under study.

##### **B: Literature Domain**

L1The assignment demonstrates that the student has an awareness of appropriate literature and its relevance to the task.

##### **C: Contextual Domain**

L1The assignment demonstrates that the student has an awareness of contextual factors (e.g. personal, locational, historical, political etc) influencing the area of study.

##### **F: Values Domain**

L1The assignment demonstrates that the student can clearly identify and articulate their own value position - and where relevant, the value position of others in relation to the area of study
