Part 3: Assessment	
Assessment Strategy	<p>The first task is focused on a teaching and learning activity undertaken early on in the training. Trainees are required to plan and carry out an activity or lesson with children in the setting/school. The assessment requires trainees to carry out a critical review of a teaching episode from the serial language days including analysis of classroom practice in relation to learning theories.</p> <p>The second assessed element requires trainees to reflect critically on their professional development and practice and is informed by trainees' evidence of meeting the Teachers' Standards collated in the Professional Development Portfolio. Trainees are required to review their development as a teacher over the course of the PGCE programme, identifying their strengths and ongoing areas for further development during their induction year.</p>
