

MODULE SPECIFICATION

Part 1: Information					
Module Title	Advanced Geographical Expedition				
Module Code	UBGI	MJC-30-3	Level	Level 6	
For implementation from	2018-19				
UWE Credit Rating	30		ECTS Credit Rating	15	
Faculty	I	ty of Environment & nology	Field	Geography and Environmental Management	
Department	FET Dept of Geography & Envrnmental Mgmt				
Contributes towards					
Module type:	Standard				
Pre-requisites				Risk Management 2018-19, Researching Physical Geography	
Excluded Combinations No.		None			
Co- requisites		None			
Module Entry requirements		None			

Part 2: Description

Overview: Pre-requisites 60 credits at level 2, to include EITHER UBGLXX-30-2 Researching Human Geography OR UBGLYG-30-2 Researching Physical Geography OR UBGLWX-30-2 Project Management, Health and Safety Risk Management

Educational Aims: See learning outcomes.

Outline Syllabus: Pre-expedition phase:

Expedition planning

Preliminary work, project identification and preparation

Health and safety considerations

STUDENT AND ACADEMIC SERVICES

Effectiveness of communication of verbal and visual material

Individual report - learning outcomes: 1, 2 and 4.

Component B

Introduction to the expedition location: geographical, social/cultural, economic, political

Expedition phase:	
Orientation	
Field visits, activities	
Specialist lectures	
Data collection	
Data analysis and presentation	
Assessed group presentation	
Post-expedition phase:	
Post-project evaluation	
Teaching and Learning Methods: The majority of the teaching and learning will take place through a combination of lectures in the classroom and in the specified field location. In the pre-expedition phase, students will work with staff to undertake the planning of the expedition and associated research project/s. Students will be expected to actively participate in these sessions by drawing from their individual research and reading, as set out by the assessment strategy. During the expedition itself students and staff will work to fulfil the research plan developed in the pre-expedition phase culminating in a group presentation, with due alterations according to local	
conditions	
conditions.	
Part 3: Assessment	
Part 3: Assessment The approach to assessment is based around two components which are developed progressively during the course of the module. Component B, the report, will draw from the content and discussion introduced each week. The report will provide an opportunity for the reading and research required by the module's reading strategy to be presented and suitably reflected upon. Component A involves group work and will provide further development of teamwork skills nurtured in years one and two. Students will be expected to work together to develop a presentation that is grounded in evidence collected in the field with supporting literature. The presentation will provide an opportunity to contextualise and expand on issues developed and raised within their individual reports. Marks will be awarded on the basis of the presentation originating equally from each member although a mechanism will be built into the process to ensure

Component A Group Presentation - learning outcomes 1, 2, 3 and 4. Small group presentation. 15 minutes	

STUDENT AND ACADEMIC SERVICES

Length: 2500 words

Reports will assessed according to the following criteria:

Depth and breadth of literature used.

Structure and organisation.

Standards of literacy and presentation.

Clarity, depth and coherency of the analysis.

First Sit Components	Final Assessment	Element weighting	Description
Report - Component B		50 %	Report (2500 words)
Presentation - Component A	✓	50 %	Group presentation (15 minutes)
