Part 4: Assessment

Assessment strategy: The assessment strategy for this module is designed to allow a diverse range of students to be able to explore their own current and future practice focusing on an existing and or emerging model of care.

The assessment is a 2,000 word essay that critically evaluates and analyses a topic of global health challenges.

The aim of this assignment is for students to develop self-directed study skills and an ability to choose their own topics for investigation. To achieve this they will produce a personal learning plan that relates to the learning outcomes. Students will be encouraged to use their international experiences from Elective and Turing placements in considering a topic of their choice. The students are expected to present their plan to the group to widen their perspectives on the topic as the Formative assessment strategy.
