MODULE SPECIFICATION

Part 1: Basic Data						
Module Title	Professional Development Portfolio					
Module Code	UISXMV-15-M		Level	М	Version	2
Owning Faculty	Hartpury		Field	Sport Science		
Contributes towards	MSc Coaching Science PgDip Coaching Science PgCert Coaching Science MSc Professional Development (Coaching Science) PGDip Professional Development (Coaching Science) PGCert Professional Development (Coaching Science)					
UWE Credit Rating	15	ECTS Credit Rating	7.5	Module Type	Standard	
Pre-requisites	None		Co-requisites	None		
Excluded Combinations	None		Module Entry requirements	None		
Valid From	01 September 2014		Valid to	01 September 2020		

CAP Approval Date	07 March 2014
--------------------------	---------------

	Part 2: Learning and Teaching
	Fait 2. Learning and readining
Learning Outcomes	Appraise their personal and professional development needs and progress whilst understanding the theoretical base for and practical implications of maintaining an effective work/life balance (A).
	2 Critically evaluate the evolution and continuing refinement of a distinct coaching intervention rationale and athlete performance measures criteria (A).
	Collate, reflect upon and discuss an extended collection of detailed synoptic coaching session plans created and targeted by consistent and professional action planning interactions with a personal practice mentor (A).
	4 Synthesise a broad range of theoretical and conceptual information from distinct knowledge domains in order to revise, recommend and evaluate personal coaching practice and the contributions of related co-workers and/or support staff (A).
	Critically analyse and evaluate complex and unpredictable coaching situations, make informed decisions and critically reflect on their impact (A).
Syllabus Outline	 Professional Work-Life Balance/Coach Burnout/Time Management. Coaching and Playing Philosophies – Antecedents and Aspirations. A 360 Degree Peer Coaching Appraisal. Professional and Personal Development Needs. Collation of Planning and Reflection Records – Academic and Personal Practice. Inter-Disciplinary Analysis – Synoptic Assessment.

Reading Strategy

Essential Reading

Core material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE programme presence. No requirement for the purchase of set text(s) will be made and students will have full access to library services, online applications, and inter-library loans. The input of the module leader will supplement the normal library provision expected at M-level so that research sources and relevant texts will be identified to the student and issues revolving around their access to them resolved.

Further Reading

Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature, wider professional sources and in-house publications of related national accrediting and sports governing bodies – e.g. Sports Coach UK.

Access and Skills

Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.

Indicative Reading List

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

Part 3: Assessment

Assessment Strategy

Summative assessment centres upon completion of a portfolio based collation of formal coach observations, reflective exercises and personal development action planning. The required content and collation methodologies for this work exactly mirror those of the UKCC Level 4 award, demanding satisfactory completion of a synoptic account across all course subject areas covered in modular assessments, and a judgement about the coach's coaching practice. This is evidenced via the satisfactory completion of a Professional Development Development Portfolio where the learner is asked to demonstrate postgraduate intellectual skills by evaluating both their personal and professional development and life-long learning needs in light of their on-programme and wider coaching experiences. The Portfolio includes observations, responses to questions, advice and indications of how and to what extent the coach has demonstrated the indicators of UKCC Level 4 practice detailed in the statement of capabilities. Crucially, the Portfolio records action plans agreed by the coach and the module leader.

Formative assessment similarly has two components:

- Group discussion and individual reflection is demanded by tasks set within the full day and weekday evening seminars.
- 2 Facilitated peer observation will include assessment of learners' use. evaluation and refinement of theoretical material contained in modules across the broad range of the programme via structured supervision reviews and oneto-one developmental discussions.

In line with the College's commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to VLE.
