	Part 2: Learning and Teaching			
Learning Outcomes	(The learning outcomes to be assessed summatively are negotiated between the learner, manager/mentor and the university facilitator and are incorporated into the learning contract.			
	Those learning outcomes not individually mapped to the module assessment will be assessed formatively within the module delivery).			
	1 Critically appraise existing knowledge, research, new evidence and innovations in practice to support work-based learning (A).			
	2 Critically analyse complex situations and address current limits of, or contradictions in the knowledge base and/or skills identified for work-based learning (A).			
	Independently evaluate chosen methodology/tools and report findings and reflect upon on-going creation and summative outcomes for a work-based learning portfolio (A).			
	Formulate ethical solutions, arguments and strategies in dialogue with peers, clients, mentors and others (A).			
	5 Critically reflect on own and/or others responsibilities and management of learning, which contributes to the goals of the organisation and a negotiated learning plan (A).

### Reading Strategy

#### Essential Reading

Core material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE programme presence. No requirement for the purchase of set text(s) will be made and students will have full access to library services, online applications, and inter-library loans. The input of the module leader will supplement the normal library provision expected at M-level so that research sources and relevant texts will be identified to the student and issues revolving around their access to them resolved.

# Further Reading

Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature, wider professional sources and in-house publications of related national accrediting and sports governing bodies – e.g. Sports Coach UK.

#### Access and Skills

Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.

### Indicative Reading List

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

#### Part 3: Assessment

## Assessment Strategy

Summative assessment centres upon completion of a portfolio based collation of relevant professional, academic and in-house organisational literature, reflective exercises and personal development action planning. The required content and collation methodologies for this work exactly mirror those of the UKCC Level 4 award, demanding satisfactory completion of a synoptic account across all potential module subject areas covered in this modular assessment, and a judgement about the learner's engagement, transferable skills and innovative output/practice. This is evidenced via the satisfactory completion of an Evidencing Work-Based Learning Portfolio including:

- Demonstration of postgraduate intellectual skills via evaluation of both personal and professional development and life-long learning needs in light of their on-programme and wider coaching experiences.
- An evaluative commentary detailing the development of portfolio aims, focus, collection and collation methods, editing and emphasising of contents and cognisance of potential audience needs, skills and conventions.
- 3 Content developed and selected in conversation and connection with a scheduled and student-managed mentoring relationship with the module leader and/or programme leader.

A tentative but recurrent guide to the learner will be that they address the following components in their work:

Personal Skills and Needs

Orientation and Aims

Reflection

**T**hemes

Focus and Context

**O**utput Audience

Literature Sources and Choices

Integration Across Modules

Overall Assessment of Quality

Please note that the focus of this module must be distinct from any previous or subsequent negotiated learning contract. Final portfolio titles must be signed off by the Module Leader and Programme Leader.

In line with the College's commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to VLE.
