across the programme and to contribute to the assessment of readiness for direct practice. Students will be encouraged to use an electronic reflective diary in relation to the module. Students will be encouraged and supported to engage with eLearning resources relating to law for social work practice.

**Module organisation:**

**Scheduled time**

Work based learning through lectures, seminars and workshops.

**Independent learning**

Students are expected to undertake reading and produce assignment work outside of placement. Students are also expected to complete a reflective practice diary.

**Placement learning**

Practice learning opportunities and arrangements for support and assessment are agreed in a practice learning agreement that is reviewed at interim point. Study time will be taken during the placement as an integral part of reflective practice.

Key Information Sets Information

Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.

### Part 3: Assessment

Assessment Strategy	The strategy aims for holistic and developmental assessment. It includes student self assessment and Practice Educator formative assessment. The portfolio activities are designed to show case the students' practice process, learning, standard and development.
---------------------	---

	The Practice Moderation Panel that includes partner agency and service user and carer representatives, reviews recommendations and marks, difficulties, borderline and fail decisions. It will provide action plans and or referrals to other university regulations such as Professional Suitability where necessary. The panel moderates the cohort and selects external examiner sample to ensure consistency of standards. Where students have failed to meet module criteria and fail the module, the panel and University examination boards will make decisions regarding further assessment opportunities. The panel will make recommendations to the module leader for areas for development.
