MODULE SPECIFICATION

| Part 1: Basic data | | | | | | |
|-----------------------|--|--------------------|---------------------------|-------------------|----------|---|
| Module title | Reflective Portfolio | | | | | |
| Module code | UISXS7-30-3 | | Level | 3 | Version | 1 |
| Owning faculty | Hartpury College | | Field | Sport Science | | |
| Contributes towards | BSc (Hons) Physical Education and School Sport | | | | | |
| UWE credit rating | 30 | ECTS credit rating | 15 | Module type | Standard | |
| Pre-requisites | None | | Co-requisites | None | | |
| Excluded combinations | None | | Module entry requirements | None | | |
| Valid from | 01 September 2014 | | Valid to | 01 September 2020 | | |

| CAP approval date | 17 February 2014 |
|-------------------|------------------|
|-------------------|------------------|

| | Part 2: Learning and Teaching | | | | |
|-------------------|--|--|--|--|--|
| Learning outcomes | On successful completion of this module students will be able to: 1 Demonstrate a systematic understanding of National Curriculum and educational frameworks in primary and secondary education (A, B). | | | | |
| | Demonstrate the ability to develop and sustain arguments using contemporary ideas and research at the forefront of physical education and schools sports development with core knowledge of physical education and school sport (B). Appreciate the uncertainty, ambiguity and limits of knowledge in physical education and schools sports development with core knowledge of physical education and programme relevant contexts, whilst also demonstrating critical | | | | |
| | appraisal (B). Undertake critical reflection of their own and others' practice, linking theoretical concepts to practical application in realistic applied settings (B). Demonstrate advanced development of core teaching and learning capabilities (A). | | | | |
| Syllabus outline | 1 Conceptualising reflective practice. 2 Types, methods and styles of reflection. 3 Contemporary issues in reflective practice. 4 Utilising self-reflection in physical education and programme relevant contexts. 5 Transfer of theoretical underpinning into practice. 6 Enhancing knowledge and understanding of developing as a practitioner via self/peer evaluation. | | | | |
| | The student with support of a tutor must contact employers to gain a work placement, and must obtain written agreement from the employer to confirm the offer of a specified period of work placement. | | | | |

Prior placement approval must have been granted by the College, and all attendant paperwork must have been completed and signed off by both the placement provider and the module's placement tutor, **BEFORE** starting the work placement. How to find a suitable work placement. 2 How to apply for a work placement. Identifying own skills relevant to placement. 3 4 Consideration of future careers. Indicative delivery modes: Contact hours Lectures, guided learning, seminars etc 66 Self directed study 6 Independent learning, including work placement 228 **TOTAL** 300 Scheduled learning Teaching and learning methods May include lectures, seminars, tutorials, project supervision, demonstration, practical classes and workshops; fieldwork; external visits; work based learning; supervised time in studio/workshop. Independent learning May include hours engaged with essential reading, case study preparation, assignment preparation and completion etc. These sessions constitute an average time per level as indicated in the table below. Scheduled sessions may vary slightly depending on the module choices you make. Placement learning Work-based learning equating to a minimum of 80 hours of approved and verified work experience is a compulsory part of this module. To support the compulsory period of work placement the work placement tutor will: Mentor the student through the whole process from selecting placement options, application and interview, through to the end of the placement exit interview with the placement provider. Help the student construct a personal development plan/work objectives in conjunction with the placement provider. Monitor progress throughout the placement with the student and placement provider. Virtual learning environment (VLE) This specification is supported by a VLE where students will be able to find all necessary module information. Direct links to information sources will also be provided from within the VLE. Key information Key information sets (KIS) are produced at programme level for all programmes that this sets information module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for. **Key Information Set - Module Data** Number of credits for this module 30 Allocated Hours Hours to be Scheduled Independent **Placement** allocated learning and study hours study hours teaching study hours 72 148 300 80 300

The table below indicates as a percentage the total assessment of the module which constitutes a:

- 1 Written Exam: Unseen written exam, open book written exam, in-class test.
- 2 Coursework: Written assignment or essay, report, dissertation, portfolio, project.
- 3 *Practical Exam:* Oral Assessment and/or presentation, practical skills assessment, practical exam.

Please note that this is the total of various types of assessment and will not necessarily reflect the component and module weightings in the Assessment section of this module description:

Reading strategy

Core readings

Any essential reading will be indicated clearly, along with the method for accessing it, e.g. students may be required to purchase a set text, be given a print study pack or be referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.

Further readings

Further reading will be required to supplement the set text and other printed readings. Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature.

Access and skills

Formal opportunities for students to develop their library and information skills are provided within the induction period and study skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.

Indicative reading list

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

Part 3: Assessment

Assessment Strategy

The assessment strategy specifically aims to:

- Ascertain students' learning strengths, weaknesses and continuing developmental needs.
- 2 Develop students' ability to integrate theory and practice.
- 3 Develop critical and analytical skills to improve further practice.
- 4 Enable students to search for, utilise and critique key literature and empirical research.
- 5 Promote students' individual growth and independent lifelong learning skills.

The assessment in this module aims to bring together the learning from across the programme of study. As a result the practical demonstration is included to assess students' ability, knowledge and skills in relation to the learning outcomes. Component B supports assessment of students' level 3 skills including the ability to critically reflect, analyse and evaluate.

In line with the College's commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.

Identify final assessment component and element

Critical reflection

| % weighting between components A and B (Standard modules only) | A: | B: |
|--|-----|-----|
| | 50% | 50% |

First Sit

| | ponent A (controlled conditions) cription of each element | Element weighting | |
|---|---|-------------------|--|
| 1 | Practical demonstration (30 minutes) | 100% | |
| Component B Description of each element | | Element weighting | |
| 1 | Critical reflection (2,500 words) (to include evidence of completion of an approved work placement) | 100% | |

Resit (further attendance at taught classes is not required)

| | ponent A (controlled conditions) cription of each element | Element weighting |
|---|---|-------------------|
| 1 | Practical demonstration (30 minutes) | 100% |
| Component B Description of each element | | Element weighting |
| 1 | Critical reflection (2,500 words) (to include evidence of completion of an approved work placement) | 100% |

If a student is permitted an EXCEPTIONAL RETAKE of the module the assessment will be that indicated by the Module Description at the time that retake commences.
