

## **Module Specification**

# **Professional Practice and Work Experience in Interior Design 3**

Version: 2024-25, v3.0, 20 Mar 2024

### **Contents**

<b>Module Specification .....</b>	<b>1</b>
<b>Part 1: Information .....</b>	<b>2</b>
<b>Part 2: Description .....</b>	<b>2</b>
<b>Part 3: Teaching and learning methods .....</b>	<b>5</b>
<b>Part 4: Assessment.....</b>	<b>7</b>
<b>Part 5: Contributes towards .....</b>	<b>9</b>

## Part 1: Information

**Module title:** Professional Practice and Work Experience in Interior Design 3

**Module code:** UADAJG-15-3

**Level:** Level 6

**For implementation from:** 2024-25

**UWE credit rating:** 15

**ECTS credit rating:** 7.5

**College:** College of Arts, Technology and Environment

**School:** CATE School of Arts

**Partner institutions:** None

**Field:** Design

**Module type:** Module

**Pre-requisites:** None

**Excluded combinations:** None

**Co-requisites:** None

**Continuing professional development:** No

**Professional, statutory or regulatory body requirements:** None

## Part 2: Description

**Overview:** This module enables students to consolidate their knowledge and understanding of their area of practice in relation to the professional context, and develop strategies for graduation and progression to employment or further study.

**Features:** Not applicable

**Educational aims:** The module is designed to contribute to the refinement of students' contextual understanding of their discipline, and enable them to focus this

towards identified personal career aspirations and the opportunities offered, directly and indirectly, by the industry.

Delivery is focused upon the further development of research skills, the analysis of information and application of this in relation to students' individual work and ambitions. Activities leading towards collective promotion and/or exhibition enable students to extend their ability for collaboration and teamwork.

**Outline syllabus:** During the module, students are encouraged to articulate their own interests within the range of disciplines encompassed by their subject, building on the development and exploration of these themes earlier in the programme. A series of workshops, seminars and practical exercises will develop and extend knowledge and skills in relation to such topics as:

Costing time and work

Ethics

Sustainable career development

Self employment, employment and "portfolio" careers

Postgraduate study and continuing professional development (CPD)

Graduate placement schemes

UWE careers service support for and beyond graduation.

Refining their personal promotion materials and preparing for interviews

Careers Fairs

Portfolio reviews (professional)

Work-based learning opportunities, including placements, live briefs, and volunteering

In the early part of the module students are first asked to confirm their main areas of interest within the subject or broader professional context, and their own personal direction for career development post graduation, and longer-term goals.

This will form the basis for their further research and investigation, and preparation for graduation.

By the end of the module, students will produce appropriate collated work and promotional material in relation to their aims and target employer/career progression.

This includes such items as collated practical work such as portfolio, show-reel, contributions to collaborative initiatives as appropriate, and an online portfolio. These items are presented for assessment in the Professional Practice and Work Experience File along with a personal progression plan (written and/or alternative format submission), which identifies how personal strengths and weaknesses, and understanding of the professional context the student is aiming for has been developed through the module and critically considers the effectiveness of the outcomes for career progression post-graduation. The Professional Practice and Work Experience File will be submitted as an online presence (for example, blog or website).

Work Experience/Work Based Learning:

During the course of the module, students are required to address independent study to engagement with work engaged learning. This may include placements, shadowing or working on live briefs in a relevant area aligned with a student's professional interests and ambitions.

Students will produce a Professional Practice and Work Experience File that will:

Research and critically analyse chosen aspects of contemporary professional practice and apply this knowledge to the evaluation of their own strengths and career aspirations.

Recognise, explore and articulate the links between their work-based learning with their academic programme (and vice versa).

Explore, identify and build on their skills, personal development and interests.

Develop a variety of transferable 'employability' skills and abilities such as time management, self presentation and reflection, research skills.

The Professional Practice and Work Experience File will include:

A reflective report on engagement undertaken (1,000 words)

Notes on research undertaken to support the report

Relevant images

### **Part 3: Teaching and learning methods**

**Teaching and learning methods:** Lectures, workshops, tutorials and seminars underpin the learning process by delivering factual information and setting out issues to be considered. These offer examples and critiques of existing practice.

Visiting speakers are also invited to demonstrate examples of professional working practice, and provide case studies of evolving career paths. Industry-engaged learning opportunities include activities like portfolio reviews, employer forums, field trips, and studio visits.

Support and guidelines for effective research builds on the skills introduced earlier in the course. Key headings/questions help students to focus their research into professional contexts, and use a range of research methods and approaches. Primary research, through links to professional contexts is particularly encouraged. This activity is monitored and supported through group tutorials where the sharing of information is encouraged.

UWE Careers continues to be available to all students at this stage, in relation to recruitment fairs, individual support, etc. These and other initiatives are available within and across subject areas. Students are expected to make full use of these opportunities, and evidence engagement in their assessment submissions.

Presentations and tutorial and seminar discussions allow the students to develop greater confidence in this aspect of key/transferable and professional skills.

The Professional Practice and Work Experience File, as in Professional Practice and Work Experience 1 and Professional Practice and Work Experience 2, is also used in this module. The file will consist of evidence of the assignments, lectures,

discussions and activities included in the module which students are required to respond to and the Work Experience document. It provides a place for students to collate and reflect on the material and ideas they are finding and being introduced to through the module. It supports the production of their personal progression plan / exit strategy and must contain evidence from their individual presentation.

Formative Individual Presentation:

Students will give a visual and/or textual presentation to their tutors and tutor group mid-way through the module. Students will select visual and/or textual material which best represents their practice and research methods and give a 10 minute presentation to include question and answer.

Students should have examples of their recent work and also appropriate research material (such as examples of other artists/designers/media practitioners' work) to refer to.

The presentation and subsequent discussion with the student group and tutors is an opportunity for students to review, contextualise and critically reflect upon their practice alongside that of their peers.

Scheduled learning includes lectures, seminars, tutorials, project supervision, demonstration, practical classes and workshops; fieldwork; external visits; work based learning; supervised time in studio/workshop.

Independent learning includes hours engaged with essential reading, case study preparation, assignment preparation and completion.

Students can expect a total of 36 hours scheduled contact time for this module within the context of their other learning and teaching activities. This includes tutorials, group crits, lectures, seminars, site visits / field trips, studio-based sessions, inductions, workshops, field work, work-based learning or project supervision.

Contact time may also take a synchronous virtual form rather than face-to-face,

through the use of email discussion groups, virtual learning environments (VLEs) and other technology-aided means. It can also take place in a work-based setting.

**Module Learning outcomes:** On successful completion of this module students will achieve the following learning outcomes.

**MO1** Locate their practice in relation to employment/research/enterprise, and consolidate professional skills commensurate with those employed in their chosen area of practice

**MO2** Demonstrate a critical awareness of current and changing requirements in the areas of employment/research/enterprise

**MO3** Analyse specific aspects of their graduating strategy through the research, development and presentation of individual work plans

**MO4** Evaluate, review and critically reflect on their own work, and the work of others in relation to professional standards and career intentions

**MO5** Use their focused skill set to contribute to the organisation and content of academic events and exhibition initiatives

**Hours to be allocated:** 150

**Contact hours:**

Independent study/self-guided study = 114 hours

Face-to-face learning = 36 hours

Total = 150

**Reading list:** The reading list for this module can be accessed at [readinglists.uwe.ac.uk](https://rl.talis.com/3/uwe/lists/B1F492C2-B3BB-DDC8-C067-D39F399FDE69.html?lang=en-GB) via the following link <https://rl.talis.com/3/uwe/lists/B1F492C2-B3BB-DDC8-C067-D39F399FDE69.html?lang=en-GB>

## **Part 4: Assessment**

**Assessment strategy:** Assessment strategies within the programme that this module contributes to the School of Arts philosophy which considers assessment to be part of the learning process.

Formative and summative assessments are designed to provide the opportunity for students to understand and reflect upon their achievements, and to support the monitoring of progress by tutors and students. Assessment methods used are varied, are relevant in demonstrating achievement to both academic and industry stakeholders, and form a coherent programme of assessment which is designed to offer students the maximum opportunity to demonstrate the skills, knowledge and experience that they have gained through the course of study, as well as to support ongoing and continuous improvement in their individual creative practice and development as practitioner-researchers.

The principle of 'learning through making' is core to learning strategies in the Department of Creative Industries – these learning activities are then expanded into and through an exploration of contemporary practice in relevant and related subject areas.

At assessment, therefore, students are expected to present evidence of work which demonstrates engagement with the minimum number of learning hours for the module (contact and independent study hours).

Forms of assessment used as part of the overall programme include:

Presentation and participation in studio-critique

Poster presentation

Group and individual visual presentations

Group and individual verbal presentations

Written Assignments – forms of writing relevant to the creative industries, including academic/essay and industry focused/report writing

Group critiques

Peer and self-assessment

Evaluative and reflective outcomes, including visual, verbal and written

Formative and summative assessment activities that involve students participating in the evaluation of presented work (their own and others) take place throughout the

programme. Participation in and attendance at these sessions forms part of the assessed content of the module as a result of this.

Feedback (verbal and/or in writing) at regular points throughout the module provides students with a clear understanding of their progress and advice about how this can be improved.

**Assessment tasks:****Project (First Sit)**

Description: Professional practice and work experience body of work.

Weighting: 100 %

Final assessment: Yes

Group work: No

Learning outcomes tested: MO1, MO2, MO3, MO4, MO5

**Project (Resit)**

Description: Professional practice and work experience body of work.

Weighting: 100 %

Final assessment: Yes

Group work: No

Learning outcomes tested: MO1, MO2, MO3, MO4, MO5

**Part 5: Contributes towards**

This module contributes towards the following programmes of study:

Interior Design [Bower] BA (Hons) 2022-23

Interior Design {Foundation} [Sep][FT][Bower][4yrs] BA (Hons) 2021-22

Interior Design [Sep][SW][Bower][4yrs] BA (Hons) 2021-22

Interior Design {Foundation} [Sep][SW][Bower][5yrs] BA (Hons) 2020-21

Interior Design [Sep][PT][Bower][6yrs] BA (Hons) 2019-20
