

## MODULE SPECIFICATION

Part 1: Information			
Module Title	Research in Counselling Psychology - Methods, Topics and Debates		
Module Code	USPK6E-15-M	Level	Level 7
For implementation from	2020-21		
UWE Credit Rating	15	ECTS Credit Rating	7.5
Faculty	Faculty of Health & Applied Sciences	Field	Psychology
Department	HAS Dept of Health & Social Sciences		
Module type:	Project		
Pre-requisites	None		
Excluded Combinations	None		
Co- requisites	None		
Module Entry requirements	None		

Part 2: Description
<p><b>Educational Aims:</b> See Learning Outcomes.</p> <p><b>Outline Syllabus:</b> The learning outcomes and syllabus for this module are drawn from the British Psychology Society Counselling Psychology Programme Standards as well as from the Health and Care Professions Council Standards of Proficiency for Practitioner Psychologists (Counselling Psychology).</p> <p>As such, the syllabus will focus on aiding trainees to understand, develop and apply models of psychological inquiry for the creation of new knowledge which is appropriate to the multi-dimensional nature of relationships between people as well as foster a questioning and evaluative approach to the research evidence for counselling psychology. In doing so, the module will aim to aid trainees in recognizing the value of research to the critical evaluation of practice including the evaluation of treatment efficacy, and to foster trainees' ability to evaluate research to inform their own practice. The module will also promote skills relevant for becoming both research aware and research active, specifically understanding of a range of research methodologies, including qualitative and quantitative approaches, and a variety of research designs, as well as understanding of research ethics and how to apply them.</p> <p>The intent of this module is to provide support for students to engage in their doctoral research</p>

## STUDENT AND ACADEMIC SERVICES

project. For this reason the main assessment for this module will support students by requiring them to write-up their proposed research design and evidence that they have completed the required ethics paperwork.

Topics for this module will potentially include: history of research in the field, evaluation and outcome research, process research, research on therapist, client and relationship variables, as well as ethical aspects of researching therapeutic practice. Methodologies developed specifically for counselling and psychotherapy research will also be covered, such as techniques for analysis of therapy transcripts, and case study methodology.

Through completion of this module, students will demonstrate qualities and transferable skills necessary for employment, such as effective written and face-to-face communication, information retrieval skills, the ability to critique primary sources, team-working skills, problem-solving, scientific reasoning, project management skills, and computer literacy.

**Teaching and Learning Methods:** A variety of approaches will be used with the aim of maximising the active engagement of students. These may include:

Lectures

Seminars

Workshops

Directed and Independent Learning

Formative Assessment Opportunity

**Independent learning:** Students will be expected to engage in substantial and focused independent work in this module in order to complete their project proposal. Student cohorts will also be provided with a virtual meeting space that they will be able to fully utilise independently for the purposes of peer-support, collaboration and discussion, in order to foster a sense of learning community.

**Scheduled learning:** The primary contact time for this module will be offered through frame-setting lectures, workshops and seminars. This will include opportunities for formative assessment and well as support for directed and independent learning.

**Technology Enhanced Learning:** MyUWE and Blackboard, the university supported learning portal and virtual learning environment, will be used to support students' learning, conduct activities, organise and communicate learning materials. Students will be able to engage with the material, other students and members of staff through these systems and make use of the various functionalities built into them (for example, blogs, journals, audio, video, discussion boards, wikis) as appropriate and useful for their project. The module will also potentially offer online content, for example, to support students in completing ethics forms, efficiently engage in literature searches or to support a particular research methodology. Existing university resources will be utilised such as The Research Observatory (<http://ro.uwe.ac.uk/>) where appropriate.

**Contact Hours:**

As a 15-credit module this module assumes 150 hours of study on the part of the student.

Scheduled learning for this project will be approximately 27 hours and may take several forms including frame-setting lectures as well as workshops and seminars.

Independent learning – Students are expected to spend approximately 123 hours on independent learning tasks and preparation of assessments.

## STUDENT AND ACADEMIC SERVICES

Part 3: Assessment			
The assessment methods have been chosen to allow the students to best demonstrate that they have met/meet the module learning outcomes.			
Component A will consist of a maximum 3,500 critical methodology review drawing on the student's proposed doctoral research programme. The methodology write-up will evidence students' in-depth understanding and knowledge of a specific quantitative and/or qualitative approach to research in the discipline. It will contrast this with other available methodologies and enable them to demonstrate their understanding of research design and how to match research questions with appropriate methodologies. Depending on the methodology selected, the methodology will potentially also allow students to evidence their reflexivity in relation to their research project.			
First Sit Components	Final Assessment	Element weighting	Description
Written Assignment - Component A	✓	100 %	Research essay (3500 words)
Resit Components	Final Assessment	Element weighting	Description
Written Assignment - Component A	✓	100 %	Research essay (3500 words)

Part 4: Teaching and Learning Methods																	
Learning Outcomes	<p>On successful completion of this module students will achieve the following learning outcomes:</p> <table border="1"> <thead> <tr> <th>Module Learning Outcomes</th> <th>Reference</th> </tr> </thead> <tbody> <tr> <td>Evidence the beginnings of a systematic understanding of the research evidence on process and outcomes of psychological therapy relevant to counselling psychology</td> <td>MO1</td> </tr> <tr> <td>Evidence a sound knowledge of quantitative and qualitative approaches to research and inquiry</td> <td>MO2</td> </tr> <tr> <td>Critically analyse and evaluate published research relevant to counselling psychology</td> <td>MO3</td> </tr> <tr> <td>Evidence an understanding of a variety of research designs</td> <td>MO4</td> </tr> <tr> <td>Devise and evaluate research questions and select an appropriate methodology as well as design a research project</td> <td>MO5</td> </tr> <tr> <td>Evidence an understanding of research ethics and the ability to apply them</td> <td>MO6</td> </tr> <tr> <td>Critically reflect on their experience of being a researcher</td> <td>MO7</td> </tr> </tbody> </table>	Module Learning Outcomes	Reference	Evidence the beginnings of a systematic understanding of the research evidence on process and outcomes of psychological therapy relevant to counselling psychology	MO1	Evidence a sound knowledge of quantitative and qualitative approaches to research and inquiry	MO2	Critically analyse and evaluate published research relevant to counselling psychology	MO3	Evidence an understanding of a variety of research designs	MO4	Devise and evaluate research questions and select an appropriate methodology as well as design a research project	MO5	Evidence an understanding of research ethics and the ability to apply them	MO6	Critically reflect on their experience of being a researcher	MO7
Module Learning Outcomes	Reference																
Evidence the beginnings of a systematic understanding of the research evidence on process and outcomes of psychological therapy relevant to counselling psychology	MO1																
Evidence a sound knowledge of quantitative and qualitative approaches to research and inquiry	MO2																
Critically analyse and evaluate published research relevant to counselling psychology	MO3																
Evidence an understanding of a variety of research designs	MO4																
Devise and evaluate research questions and select an appropriate methodology as well as design a research project	MO5																
Evidence an understanding of research ethics and the ability to apply them	MO6																
Critically reflect on their experience of being a researcher	MO7																
Contact Hours	<table border="1"> <thead> <tr> <th colspan="2">Independent Study Hours:</th> </tr> </thead> <tbody> <tr> <td>Independent study/self-guided study</td> <td>123</td> </tr> <tr> <td><b>Total Independent Study Hours:</b></td> <td><b>123</b></td> </tr> <tr> <th colspan="2">Scheduled Learning and Teaching Hours:</th> </tr> </tbody> </table>	Independent Study Hours:		Independent study/self-guided study	123	<b>Total Independent Study Hours:</b>	<b>123</b>	Scheduled Learning and Teaching Hours:
