Reading Strategy	<p>Core readings Any essential reading will be indicated clearly, along with the method for accessing it, e.g. students may be required to purchase a set text, be given a print study pack or be referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.</p> <p>Further readings Further reading will be required to supplement the set text and other printed readings. Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature.</p> <p>Access and skills Formal opportunities for students to develop their library and information skills are provided within the induction period and study skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.</p>
Indicative Reading List	<p>The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.</p> <ul style="list-style-type: none"> • Bloyce, D. and Smith, A. Part 3: Assessment		
Assessment Strategy	<p>The assessment strategy for this module is based on a case study of one of the key organisations working in sports development and governance.</p> <p>The focus of the assessment is based upon the mix of examining the application of underpinning knowledge and intellectual skills using analysis and evaluation through practical application.</p> <p><i>Poster Presentation</i> – Students will be required to deliver a formal oral business poster presentation. The students will base their presentation on the organisation case study, and they will present how the strategy of the open material organisation can be translated into action at a local level.</p> <p><i>Unseen case study examination</i> – Students will be required to analyse the key features, background, aims and objectives of the case study sports development or governance organisation within the written examination. Students will be allowed to take in material that conform with guidance detailed within the module guide to their examination. This will allow them to read around and prepare notes on the case study organisation they have chosen.</p> <p>In line with the College’s commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.</p>
