

ACADEMIC SERVICES

MODULE SPECIFICATION

Part 1: Basic Data						
Module Title	Care of the Ch	Care of the Child and Young Person with Cancer				
Module Code	UZURR4-20-3		Level	3	Version	2
Owning Faculty	Health & Applied Sciences		Field	Maternal and Child Health		
Contributes towards	BSc (Hons) Health and Social Care MSc Advanced Practice					
UWE Credit Rating	20	ECTS Credit Rating	10	Module Type	Project	
Pre-requisites			Co- requisites	none		
Excluded Combinations	Care of the Child and Young Person with Cancer UZURR5-20-M		Module Entry requirements	This module is offered as either stand alone or within the CPD framework. It is suitable for all registered staff working in a relevant practice area		
Valid From	January 2015 February 2017 (v2)		Valid to	January 2021		

CAP Approval	20/11/2014
Date	01/02/2017 (v2)

Part 2: Learning and Teaching				
Learning Outcomes	 On successful completion of this module students will be able to: Develop an understanding of the epidemiology and biology of cancer in children and young people (Component A) Examine on the impact of cancer diagnosis and treatment on the patient and their family (Component A) Demonstrate an understanding of the range of treatment approaches and their side effects in common childhood cancers (Component A) Discuss the role of the different members of the multidisciplinary team in children and young peoples cancer care (Component A) Explore the importance of research in improving outcomes in childhood and young peoples cancer (Component A) Reflect on the clinical and ethical challenges which patients, families and health professionals may experience (Component A) 			

Syllabus The organisation, management and guiding principles of child and Outline young person's cancer care The clinical context of childhood cancer with specific reference to: neuroblastoma, sarcoma and leukaemia The diagnosis, treatment and management of cancer in teenagers and young adults The impact of cancer on the family and supporters Ethico- legal and professional decision making in children and young person's cancer services Palliative care Stem cell transplantation Surgical interventions Radiotherapy Self-awareness and professionalism **Contact Hours** As a blended learning module all students are expected to attend all scheduled face to face days within the timetable. These days are facilitated by the specialist practitioner in practice. Within the module, there will be dedicated student/tutor time for the purpose of assessment support. As a 20 credit module there will be a minimum of 48 hours student/tutor contact time. Contact time is also indirectly available through the online learning environment. All students have access to Blackboard where further on line resources are available. Teaching and Scheduled learning - Interactive lectures will make up 48 hours contact time with the specialist practitioner and module leader over the duration of the Learning Methods module. Contact learning will also include seminars, tutorials, interactive critical discussions, lectures and case study exploration. Independent learning- includes hours engaged with essential reading, case study preparation, assignment preparation and completion etc. These sessions constitute an average time per level as indicated in the table below. It is the student's responsibility to contact the module leader should a problem arise where further assistance is required. The module is offered as a partnership between University Hospitals Bristol NHS Foundation Trust and University of the West of England and as such offers full access to a team of speciality practitioners, educationalists, dual learning environments and specialist resources Kev Key Information Sets (KIS) are produced at programme level for all Information programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about Sets Information undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.

The table below indicates as a percentage the total assessment of the module which constitutes a –

Component A: Written assignment (100%)

Reading Strategy

Core reading

It is essential that students read one of the many texts on research methods available through the Library. Module handbooks will also reflect the range of reading to be carried out.

Further reading

Students are expected to identify all other reading relevant to their chosen research topic for themselves. They will be encouraged to read widely using the library search, a variety of bibliographic and full-text databases, and Internet resources. Many resources can be accessed remotely.

Access and skills

The development of literature searching skills is supported by optional library seminars at UWE. Additional support is available through the UWE library web pages, including interactive tutorials on finding books and journals, evaluating information and referencing.

Indicative reading list

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, current advice on readings will be available via the module handbook.

Suggested Journal of Interest: Journal Pediatric Oncology Nursing

Part 3: Assessment				
Assessment Strategy	Component A: 2500 word written assignment			
37	There will be formative assessments relating to each study day comprising of worksheets and reflections. The summative assignment will be a 2500 word written assignment based on the care of a child or young person with cancer, that critically evaluates an aspect of care discussed in the module and relates to the students clinical practice.			

Identify final assessment component and element		Component A	
% weighting between components A and B (Standard modules only)	A:	B:	
First Sit			
Component A Description of each element	Element v	veighting	
2500 word assignment	100	0%	

Resit (further attendance at taught classes is not required)		
Component A Description of each element	Element weighting	
2500 word written assignment	100%	

If a student is permitted an **EXCEPTIONAL RETAKE** of the module the assessment will be that indicated by the Module Description at the time that retake commences.

FOR OFFICE USE ONLY
