

CORPORATE AND ACADEMIC SERVICES

MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Promoting Children and Young People’s Health in the Community				
Module Code	UZURQW-15-M	Level	M	Version	1
UWE Credit Rating	15	ECTS Credit Rating	7.5	WBL module?	NO
Owning Faculty	Health and Applied Sciences.	Field	Maternal and Child Health		
Department	Nursing and Midwifery	Module Type	Standard		
Contributes towards	BSc(Hons) Nursing				
Pre-requisites	None	Co- requisites	None		
Excluded Combinations	None	Module Entry requirements	None		
Valid From	November 2015	Valid to			

<b>CAP Approval Date</b>	
--------------------------	--

The overall aim of the module is to explore the role of the nurse and critically appraise the factors that influence the health and well-being of children and young people within community settings. The focus is on promoting health in the community regardless of health status. The role of the nurse will be examined in delivering the public health agenda as well as providing care to children and young people outside of the hospital environment.

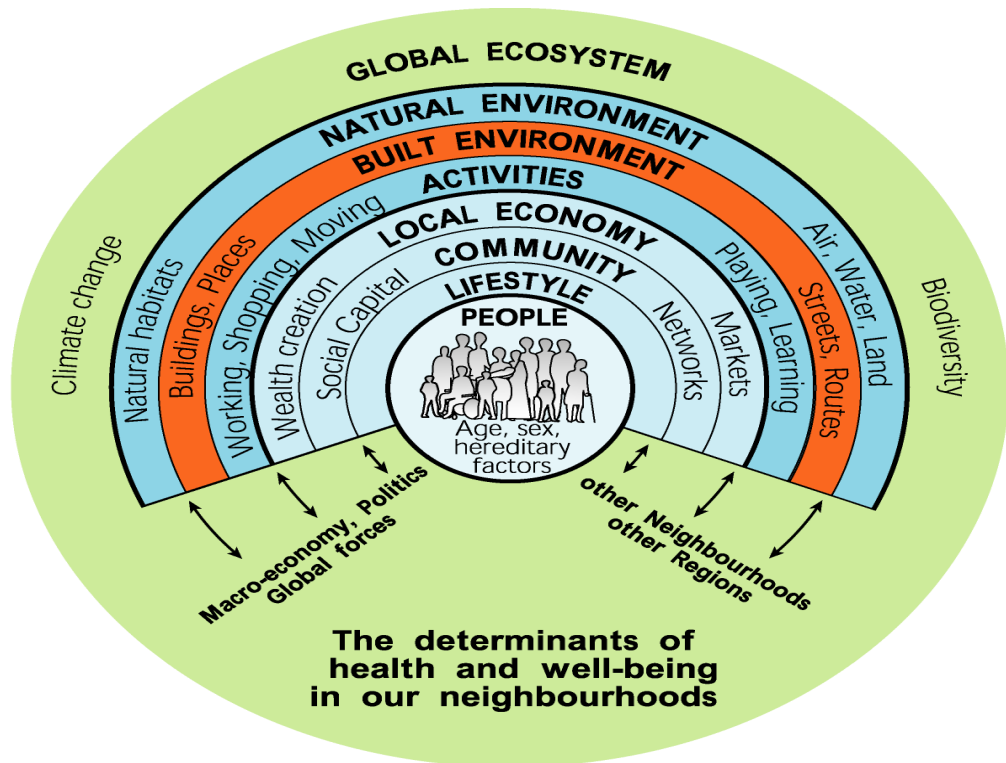

Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ul style="list-style-type: none"> <li>• Critically analyse the concepts of community working and autonomy in relation to delivering care and support to children and young people in the community.</li> <li>• Critically appraise the literature in relation to family centred care and its application to community practice, including the impact of caring within the family unit.</li> <li>• Critically construct an understanding of the particular skills and knowledge required to engage with children, young people and their families in the community in facilitating change in health related behaviour.</li> <li>• Critically evaluate the complexities and dynamics of team working and how they relate to day-to-day management of caseloads and</li> </ul>

collaborative working across multi-professional boundaries.

- Critically interrogate public and community health policy and its application to children and young people.
- Critically debate the concept of leadership and the context within enacted in delivering quality care to children and young people in the community.

Syllabus Outline

The educational strategy will encompass the use of Dalgren and Whitehead's social determinant's of health framework (1991). This framework systematically demonstrates the ways in which a number of complex factors can influence the holistic nature of service delivery to children and young people outside of the hospital setting.

Contact Hours

Contact hours: 36 hrs (5 days teaching and 1 day assessment).  
Contact time includes lectures, seminars, simulation and workshops.

Teaching and Learning Methods

Scheduled learning

- Lectures
- Seminars
- Workshops and master classes
- Presentations
- TEL
- Group work
- Formative peer and self-assessment

Independent learning

- Directed reading
- Locating and researching information
- TEL activities
- Preparation for formative and summative assessment

Key Information Sets Information

Key Information Set - Module data				
Number of credits for this module				15
Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours
150	36	114	0	150

The table below indicates as a percentage the total assessment of the module which constitutes a -

- Written Exam:** Unseen written exam, open book written exam, In-class test
- Coursework:** Written assignment or essay, report, dissertation, portfolio, project
- Practical Exam:** Oral Assessment and/or presentation, practical skills assessment, practical exam

Please note that this is the total of various types of assessment and will not necessarily reflect the component and module weightings in the Assessment section of this module description:

Total assessment of the module:	
Written exam assessment percentage	0%
Coursework assessment percentage	60%
Practical exam assessment percentage	40%
	100%

Reading Strategy

**Core readings**  
It is essential that students read one of the many texts on community and public health nursing available through the Library. Module handbooks and Blackboard will also reflect the range of reading to be carried out.

**Further readings**  
Students are expected to identify all other reading relevant to their chosen research topic for themselves. They will be encouraged to read widely using the library search, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely.

**Access and skills**  
The development of literature searching skills is supported by a Library seminar provided within the first semester. These level three skills will build upon skills gained by the student whilst studying at levels one and two. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign-up workshops are also offered by the Library.

Indicative Reading List

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to

consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, current advice on readings will be available via the module handbook and Blackboard.
