MODULE SPECIFICATION

Part 1: Basic Data							
Module Title	Anthrozoology						
Module Code	UINV38-15-3		Level	3	Vers	sion	1
UWE Credit Rating	15	ECTS Credit Rating	7.5	WBL module? No			
Owning Faculty	Hartpury Colleg	e	Field	Animal and Land Science		ice	
Department	Animal and Land		Module Type	Standard			
Contributes towards BSc (Hons) Animal Management (Top up) BSc (Hons) Animal Science BSc (Hons) Animal Science (SW) BSc (Hons) Animal Behaviour and Welfare							
Pre-requisites	None		Co- requisites	None			
Excluded Combinations	None		Module Entry requirements	None			
Valid From	01 September 2	2015	Valid to	01 Septem	ber 20	021	

CAP Approval Date	15 December	
	2014	

Part 2: Learning and Teaching				
Learning Outcomes	On successful completion of this module students will be able to:			
	 Debate the moral and ethical dilemmas that arise through the role of animals in human-animal interactions. (A) 			
	 Critically evaluate the impact of human-animal interactions on animal welfare. (A) 			
	 Critically analyse and evaluate the available literature on the use of animals in society. (A) 			
	 Critically evaluate the implications of human interactions with animals in a range of cultural perspective. (A) 			
	 Contextualise the development of the human-animal bond within a historical/ evolutionary context. (A) 			
Syllabus Outline	 The concept of anthrozoology and its relation to previous study in animal science, including human-animal interaction, farming, sport, working animals, and wildlife. 			
	 Impact of human-animal interactions on human health and welfare. Evaluation of interactions with animals, including: pet keeping, animal-assisted therapy, assistance animals, and service animals, amongst others. 			

	• Applied ethics and animal use: opinions, beliefs and moral judgement, difference between ethical and welfare issues, attitudes to animals, if beliefs change and whether they can be altered through debate.						
Contact Hours	Indicative delivery modes:

Teaching and Learning Methods	This module is delivered using large group learning sessions and opportunities for small group work. Additionally essential and recommended reading and exercises will be introduced to guide the student through the core syllabus.						
	 Scheduled learning includes lectures, seminars, tutorials, external visits. Independent learning includes hours engaged with essential reading and case study preparation. These sessions constitute an average time per level as indicated in the table below. <i>Virtual Learning Environment (VLE)</i> This module is supported by VLE where students will be able to find all necessary module information. Direct links to information sources will also be provided from within VLE.

Reading Strategy	Essential Reading Any essential reading will be indicated clearly and is regularly required. Module guides will reflect the range of reading to be carried out.			
	Further Reading Further reading is required for this module, and students will be encouraged to explore at least one of the titles held in the library on this topic. A current list of such titles will be given in the module handbook and revised annually.			
	Access and Skills Formal opportunities for students to develop their library and information skills are provided within the induction period and study skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library.			
Indicative Reading List	The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

Part 3: Assessment				
Assessment Strategy	This module will be assessed through one form of assessment: an end of module open book examination (2 hours). This will address a range of topics to assess all learning outcomes under controlled conditions. This will allow students to demonstrate their analytical skills and detailed knowledge of the subject. The nature of an open book examination will facilitate students to present a detailed analysis and evaluation of topics, supported by extensive current published research. Formative feedback and guidance can be gained in the module delivery, on the VLE, in tutorials, via practice exam papers and in revision sessions. Summative feedback can be gained on exam papers and via the VLE. In line with the College's commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account			
	learning and assessment needs. For further information regarding this please refer to VLE.			

Identify final assessment component and element	Open Book Examination			
% weighting between components A and B (Standard modules only)		A: 100%	B: 0%	
First Sit				
Component A (controlled conditions) Description of each element			Element weighting (as % of component)	
1. Open Book Examination (2 hours)		100%		

Resit (further attendance at taught classes is not required)		
Component A (controlled conditions) Description of each element	Element weighting (as % of component)	
1. Open Book Examination (2 hours)	100%	
If a student is permitted a retake of the module under the University Regulations and Procedures, the assessment will be that indicated by the Module Description at the time that retake commences.
