

**ACADEMIC SERVICES**

**MODULE SPECIFICATION**

Part 1: Basic Data					
<b>Module Title</b>	Research Dissertation for Radiography				
<b>Module Code</b>	UZYSXU-30-3	<b>Level</b>	3	<b>Version</b>	1.1
<b>Owning Faculty</b>	Health and Applied Sciences	<b>Field</b>	Allied Health Professions		
<b>Contributes towards</b>	BSc ( Hons) Radiotherapy and Oncology BSc (Hons) Diagnostic Radiography				
<b>UWE Credit Rating</b>	30	<b>ECTS Credit Rating</b>	15	<b>Module Type</b>	Project
<b>Pre-requisites</b>	Research Principles for Radiography (UZYSWX-20-2)	<b>Co- requisites</b>	None		
<b>Excluded Combinations</b>	None	<b>Module Entry requirements</b>	N/A		
<b>Valid From</b>	September 2015 September 2019 (v2)	<b>Valid to</b>	September 2021		

<b>CAP Approval Date</b>	30 April 2015
--------------------------	---------------

Part 2: Learning and Teaching	
<b>Learning Outcomes</b>	<p>On successful completion of this module students will be able to:</p> <ul style="list-style-type: none"> <li>• Critically evaluate the research evidence base with respect to chosen research topic. (Component A)</li> <li>• Systematically collect data appropriate to the project and critically analyse and report this information. (Component A)</li> <li>• Apply a critical understanding of the research process relevant to professional practice. (Component A)</li> <li>• Produce a cohesive and concise report of the research process. (Component A)</li> </ul>
<b>Syllabus Outline</b>	<p>Syllabus Outline</p> <ul style="list-style-type: none"> <li>• Current developments in research governance policy related to professional practice to include:</li> <li>• <b>Evidence-based practice</b> Formulation of questions, hypotheses or aims</li> <li>• <b>Research approaches</b> Qualitative and quantitative approaches</li> <li>• <b>Methodological issues</b> Research planning, reliability, validity, authenticity, rigour</li> <li>• <b>Ethical issues in research</b></li> </ul>

	<p>Gaining ethical approval , Informed consent , Data protection</p> <ul style="list-style-type: none"> <li>• <b>Critical appraisal of literature</b> Searching and evaluating literature</li> <li>• <b>Data collection</b> Liaison and timetabling, Pilot studies, Procedural issues, e.g. inclusion/exclusion criteria, calibrating instruments</li> <li>• <b>Interpretation of findings</b> Analysis of qualitative research, Statistical analysis, including descriptive and inferential statistics</li> <li>• <b>Dissemination of research outcomes</b> Writing a project</li> </ul>																									
Contact Hours	There is a module introduction for the whole cohort followed by scheduled contact time per student to undertake dissertation supervision and support.																									
Teaching and Learning Methods	<p><b>Scheduled learning</b> includes tutorials, 1:1 supervision support</p> <p><b>Independent learning</b> includes hours engaged with essential reading and research activities in relation to undertaking a research project</p>																									
Key Information Sets Information	<p>Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.</p> <table border="1" data-bbox="475 1211 1382 1603"> <thead> <tr> <th colspan="5"><b>Key Information Set - Module data</b></th> </tr> </thead> <tbody> <tr> <td colspan="5"><i>Number of credits for this module</i></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td style="border: 2px solid black; text-align: center;">30</td> </tr> <tr> <th>Hours to be allocated</th> <th>Scheduled learning and teaching study hours</th> <th>Independent study hours</th> <th>Placement Hours</th> <th>Allocated Hours</th> </tr> <tr> <td style="text-align: center;">300</td> <td style="text-align: center;">30</td> <td style="text-align: center;">270</td> <td style="text-align: center;">0</td> <td style="text-align: center;">300</td> </tr> </tbody> </table> <p>The table below indicates as a percentage the total assessment of the module which constitutes a -  <b>Coursework:</b> Written assignment</p> <p>Please note that this is the total of various types of assessment and will not necessarily reflect the component and module weightings in the Assessment section of this module description:</p>	<b>Key Information Set - Module data</b>					<i>Number of credits for this module</i>									30	Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement Hours	Allocated Hours	300	30	270	0	300

				100%																											
Reading Strategy	<p><b>Core reading</b> It is essential that students read one of the many texts on research methods available through the Library. Module handbooks will also reflect the range of reading to be carried out.</p> <p><b>Further reading</b> Students are expected to identify all other reading relevant to their chosen research topic for themselves. They will be encouraged to read widely using the library search, a variety of bibliographic and full-text databases, and Internet resources. Many resources can be accessed remotely.</p> <p><b>Access and skills</b> The development of literature searching skills is supported by a Library seminar provided within the first semester. These level three skills will build upon skills gained by the student whilst studying at levels one and two. Additional support is available through the library web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign-up workshops are also offered by the Library.</p>																														
Indicative Reading List	<p>The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms.</p> <p>Aveyard, H. <b>Part 3: Assessment</b>	
Assessment Strategy	<ul style="list-style-type: none"> <li>8000 word written research project.</li> </ul> <p>Rationale: To enable students to undertake a piece of contemporary research in relation to an area of interest in their professional practice. The word count reflects the complexity of undertaking a research project and the critical process involved in writing and presenting a cohesive piece of work.</p>

Identify final assessment component and element	<b>Component A</b>	
% weighting between components A and B (Standard modules only)	<b>A:</b>	<b>B:</b>
	<b>100%</b>	
<b>First Sit</b>		
<b>Component A (controlled conditions)</b> <b>Description of each element</b>	<b>Element weighting</b>	
1.8000 word research project	100%	

<b>Resit (further attendance at taught classes is not required)</b>	
<b>Component A (controlled conditions)</b> <b>Description of each element</b>	<b>Element weighting</b>
1. 8000 word research project	100%
<p>If a student is permitted an <b>EXCEPTIONAL RETAKE</b> of the module the assessment will be that indicated by the Module Description at the time that retake commences.</p>
