

ACADEMIC SERVICES

MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Practice of Neonatal Critical Care				
Module Code	UZURVQ-20-3	Level	3	Version	1.1
Owning Faculty	Health and Applied Sciences	Field	Maternal and Child Health		
Contributes towards	BSc (Hons) Specialist Practice; MSc Advanced Practice, MSc Specialist Practice, MSc Professional Development				
UWE Credit Rating	20	ECTS Credit Rating	10	Module Type	Professional Practice
Pre-requisites	None		Co-requisites	Principles of Neonatal Critical Care UZURVR-40-M OR UZURVS-40-3	
Excluded Combinations	M level Practice of Neonatal Critical Care		Module Entry requirements	NMC registered and working in a neonatal nursing post or aspiring to such a position	
Valid From	December 2015		Valid to	September 2020	

CAP Approval Date	19 th November 2015
--------------------------	--------------------------------

Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ol style="list-style-type: none"> 1. Achieve clinical proficiency, competence* and skill** in the care of the neonate (Component A). 2. Demonstrate clinical reasoning using knowledge of neonatal bioscience and disease processes in the analysis of practice strategies (Component B). 3. Obtain, interpret and synthesise information from a range of sources and use it effectively to demonstrate a critical understanding of personal and organisational accountability in neonatal care (Component B). 4. Illustrate the role of the professional in promoting family support, education and stability thus enhancing parent/carer-infant relationships (Component B). 5. Evaluate the management of a group of critical care neonates and their families in a variety of contexts and develop alternative strategies for care delivery (Component B).

	<p>6. Critically evaluate personal performance and the development of skills, knowledge and attitudes necessary to meet the individual needs of the neonate and their family (Component B).</p>																				
<p>Syllabus Outline</p>	<p>In line with the Department of Health (DH) (2009); Royal College of Nursing (RCN) (2012a); RCN (2012b) recommendations the syllabus encourages the achievement of professional proficiency through reflection, discussion, debate, evaluation and development of clinical expertise.</p> <p>Competence* in delivering a high standard of neonatal care falls under the following core dimensions (RCN 2012a; RCN 2012b):</p> <ul style="list-style-type: none"> ▪ Communication and interpersonal relationships ▪ Personal, professional and people development ▪ Health, safety and security ▪ Service development ▪ Quality ▪ Equality, diversity and rights ▪ Responsibility for holistic patient care <p>Core clinical skills** (RCN 2012a; RCN 2012b) for neonatal nurses include:</p> <ul style="list-style-type: none"> ▪ Fluid, electrolyte, nutrition and elimination management ▪ Neurological, pain and stress management ▪ Respiratory and cardiovascular management ▪ Skin and hygiene management ▪ Management of thermoregulation ▪ Managing and supporting the family ▪ Investigations and procedures as applied to neonatal nursing ▪ Use of equipment as applied to neonatal nursing 																				
<p>Contact Hours</p>	<p>48 contact hours. These will take the form of seminars, clinical simulation, group activities, case study, workshops and online activities.</p>																				
<p>Teaching and Learning Methods</p>	<p>A variety of approaches will be used which may include:</p> <ul style="list-style-type: none"> • e-learning including the use of Blackboard • Clinical simulation • Seminars • Experts from and recipients of neonatal services • Analysis of case studies • Explorative workshops 																				
<p>Key Information Sets Information</p>	<table border="1" data-bbox="459 1581 1369 1973"> <thead> <tr> <th colspan="5">Key Information Set - Module data</th> </tr> <tr> <td colspan="4">Number of credits for this module</td> <td>20</td> </tr> <tr> <th>Hours to be allocated</th> <th>Scheduled learning and teaching study hours</th> <th>Independent study hours</th> <th>Placement study hours</th> <th>Allocated Hours</th> </tr> </thead> <tbody> <tr> <td>200</td> <td>48</td> <td>152</td> <td>0</td> <td>200</td> </tr> </tbody> </table> <p>The table below indicates as a percentage the total assessment of the module which constitutes a -</p>	Key Information Set - Module data					Number of credits for this module				20	Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours	200	48	152	0	200
Key Information Set - Module data																					
Number of credits for this module				20																	
Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours																	
200	48	152	0	200																	

Total assessment of the module:							
Competency assessment percentage				P/F			
1000 word assignment				100%			
				100%			

Reading Strategy

Core readings

Any essential reading will be indicated clearly, along with the method for accessing it, e.g. students may be required to purchase a set text, be given a print study pack or be referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.

Further readings

Further reading will be required to supplement the set text and other printed readings. Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature.

Access and skills

Students will be presented with opportunities within the module to develop their information retrieval and evaluation skills in order to identify resources effectively. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library.

Indicative Reading List

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, current advice on readings will be available via the module guide.

BLISS (2015) *BLISS Baby report 2015: Hanging in the balance (England)*. London: BLISS.

Davies, L; McDonald, S eds (2008) *Examination of the Newborn and Neonatal Health. A multidimensional approach*. Churchill: Livingstone/Elsevier.

Part 3: Assessment	
Assessment Strategy	<p>The assessment strategy has been developed in negotiation with the neonatal critical care network to ensure parity against national standards in neonatal services</p> <p>Component A: Competencies for neonatal care have been set by the RCN (2012) Achieve prescribed competencies specific to neonatal care</p> <p>Component B:The 1000 word assignment is based on an analysis of performance of a neonatal competency</p>

Identify final assessment component and element	Component A	
% weighting between components A and B (Standard modules only)	A:	B:
First Sit		
Component A (controlled conditions) Description of each element	Element weighting (as % of component)	
1. Achieve prescribed competencies specific to neonatal care	Pass/Fail	
Component B Description of each element	Element weighting (as % of component)	
1. 1000 word assignment	100%	

Resit (further attendance at taught classes is not required)	
Component A (controlled conditions) Description of each element	Element weighting (as % of component)
1. Achieve prescribed competencies specific to neonatal care	Pass/Fail
Component B Description of each element	Element weighting (as % of component)

1. 1000 word assignment	100%
If a student is permitted an EXCEPTIONAL RETAKE of the module the assessment will be that indicated by the Module Description at the time that retake commences.
