Reading Strategy	<p>Essential readings Any essential reading will be indicated clearly, along with the method of accessing it, e.g. students may be required to purchase a set text, be given a print study pack or will be referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.</p> <p>Further reading Further reading will be required to supplement the set text and other printed readings. Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from their academic literature.</p> <p>Access and skills Formal opportunities for students to develop their library and information skills are provided within the induction period. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign-up workshops are also offered.</p>																				
Indicative Reading List	<p>The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above CURRENT advice on readings will be available via other more frequently updated mechanisms.</p> <p>Books:</p> <p>Begg, D. and Ward, D. (Current Edition) <i>Economics for Business</i>. London: McGraw – Hill Higher Education.</p> <p>Leeds, M.A. and Allmen, P. (Current Edition) <i>The Economics of Sports</i>. Essex: Pearson</p> <p>Mulhearn, C. and Vane, H. R. (Current Edition) <i>Economics for Business</i>. Basingstoke: Palgrave Macmillan.</p> <p>Sloman, J., Hinde, K., and Garrat, D. (Current Edition) <i>Economics for Business</i>. Harlow: Prentice Hall.</p>																				

Part 3: Assessment	
Assessment Strategy	<p>The assessment strategy reflects the breadth of the module syllabus and is designed to allow students to present a deeper understanding of economics using module content of their personal interest.</p> <p>The end-of-module practical exam is a small group presentation in which students discuss a micro or macroeconomic topic of choice. The group mark will be awarded on the basis of the overall merits of the presentation, including skills exhibited in assembling and using the available materials, some applied contextual analysis and the quality of the oral presentation and team cohesion.</p>

	<p>Students will be given feedback at the time of their presentation and will be given the opportunity to discuss this further.</p> <p>In support of component A's assessment formative feedback will be provided to students through mini group presentations in the lead-up to their final point of assessment; this will take place in weeks 9-12.</p> <p>The use of an academic essay will ensure the assessment strategy captures the range and depth of the syllabus as students will be challenged to discuss economic topics from both micro and macroeconomic environments. This will encourage students to read theory accurately, generate and analyse results whilst forming a clear argument which can be defended with a specific line of reasoning.</p> <p>In line with the College's commitment to facilitating equal opportunities a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.</p>
