referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.

Further readings

Further reading will be required to supplement the set text and other printed readings. Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature.

Access and skills

Formal opportunities for students to develop their library and information skills are provided within the induction period and study skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.

Indicative Reading List

The following list id offered to provide validation panel/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

| Part 3: Assessment | | | | |
|---------------------|---|--|--|--|
| Assessment Strategy | The group debate will allow students to construct arguments based on a contemporary sport management issue of the students' choosing. This will focus the attention on developments within the sports industry and allow evidenced based opinions that reflect and challenge existing approaches. | | | |

Students will be allocated a group mark as the assessment strategy is also designed to develop the key transferable skills of delivering presentations and working as a team. Throughout the module formative feedback will be provided by the module leader through assessment based tutorials and by peers in the form of prepared presentations linked to the concept of 'Sports Management in the News'.

In line with the College's commitment to facilitating equal opportunities, a student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.

| Identify final assessment component and element | Group Debate | | |
|--|---------------------|--------------------------|----------|
| % weighting between components A and B (Star | ndard modules only) | A: 100% | B: 0% |
| First Sit | | | |
| Component A (controlled conditions) Description of each element | | Element w (as % of co | |
| Group Debate (20 minutes) | | 100 |)% |

| Resit (further attendance at taught classes is not required) | | | | |
|--|---------------------------------------|--|--|--|
| Component A (controlled conditions) Description of each element | Element weighting (as % of component) | | | |
| Individual Presentation (10 minutes) | 100% | | | |

If a student is permitted a retake of the module under the University Regulations and Procedures, the assessment will be that indicated by the Module Description at the time that retake commences.
