Part 2: Description

Overview: Not applicable

Features: Not applicable

Educational aims: The confidence and ability to think critically, apply knowledge and skills, and provide expert, evidence-based, nursing care lies at the centre of nursing practice. This module offers final year nursing students to consider long term career pathways prior to registration.

Outline syllabus: Reflecting that enquiry and exploration are at the heart of the Future Nurse curriculum, this module has a particular focus on developing and empowering conversations with people with mental health conditions and the role of the nurse in influencing and contributing to the processes of organisational change in improving care delivery for individuals through an awareness of national and international policies.

Part 3: Teaching and learning methods

Teaching and learning methods: This module will use a range of learning and teaching strategies to support student learning and will include:

Lectures

Scenario based teaching through interaction and simulation

Group work

Self-directed learning

Digital learning delivered through Blackboard and other virtual learning platforms.

Module Learning outcomes: On successful completion of this module students will achieve the following learning outcomes.

> **MO1** Demonstrate an in depth awareness of the legal, ethical and key policy frameworks in relation to solution focused practice

> **MO2** Appraise existing knowledge, new evidence and innovations in practice

> **MO3** Convincingly evidence a detailed understanding and evaluation in specialised areas and of current theory and research

> **MO4** Demonstrate an understanding of the importance of exercising political awareness throughout their career, to maximise the influence and effect of registered nursing on quality of care, patient safety and cost effectiveness.
