Part 2: Description
<p>The confidence and ability to think critically, apply knowledge and skills, and provide expert, evidence-based, nursing care lies at the centre of nursing practice, this module is one of a suite of choice modules that have been developed to offer nursing students in their final year of their studies choice so that are empowered to consider long term career pathways prior to registration. Each of the choice module has been aligned to existing and emerging models of care. Reflecting that enquiry and exploration are at the heart of the Future Nurse curriculum so that as nurses of the future students are able to influence and contribute to processes of organisational change through an awareness of local and national policies</p> <p>This module focuses on evidence and principles that underpin perioperative care</p> <p>This module will use a range of learning and teaching strategies to support student learning and will include:</p> <ul style="list-style-type: none"> • Lectures • Scenario based teaching through interaction and simulation • Group work • Self-directed learning • Digital learning delivered through Blackboard and other virtual learning platforms

Part 3: Assessment: Strategy and Details		
<p>The assessment strategy for this module is designed to allow a diverse range of students to be able to explore their own current and future practice focusing on an existing and or emerging model of care.</p> <p>Formative assessment: Students will be given the opportunity to present and discuss assignment plans at a seminar within the module</p> <p>Summative assessment: The assignment is by way of a 2000 word document looking holistically at a patient's peri-operative journey broken down into three sections.</p> <p>Section 1 should introduce the patient and diagnosis and why the decision has been made for surgery. Discussions should also include patients experiences of the peri-operative journey including psychological aspects supported with appropriate literature.</p> <p>Section 2 focus on a specific aspect of the patient's peri-operative journey. Examples that can be used are ethical and legal issues, communication, infection control, decision making and leadership and management supported with appropriate literature and policies.</p> <p>Section 3 will provide an analysis and evaluation of the patient's journey identifying the role of the nurse in enabling a quality experience for the patient from a leadership and management perspective supported with appropriate literature.</p>
