

MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Core Teaching in Primary Education				
Module Code	UTLN7N-30-M	Level	M	Version	2
UWE Credit Rating	30	ECTS Credit Rating	15	WBL module?	No
Owning Faculty	ACE	Field	SELL		
Department	Education and Childhood	Module Type	Standard		
Contributes towards	PGCE Primary Initial Teacher Education				
Pre-requisites	None	Co- requisites			
Excluded Combinations	None	Module Entry requirements	None		
First CAP Approval Date	02/06/2016	Valid from	September 2016		
Revision CAP Approval Date	31/05/2017	Revised with effect from	September 2017		

Review Date	September 2022
--------------------	----------------

Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ol style="list-style-type: none"> 1. Demonstrate a secure subject knowledge of the core curriculum areas of English, mathematics and Science across the age phases of training, including accurate use of subject-specific language as appropriate; 2. Engage with theories of assessment and know how to evaluate pupils' prior knowledge, and how to formatively and summatively assess pupils' attainment, including statutory assessment, and use findings and data as a basis for planning and target setting to secure progress for all pupils. 3. Demonstrate a clear understanding of appropriate teaching strategies for teaching the core subjects and be able to design, plan for and teach sequences of lessons/sessions as appropriate to meet the diverse needs of all learners in the relevant age phases and subjects; 4. Anticipate learners' common subject-specific misconceptions and understand how to support learners in overcoming these. 5. Evaluate and justify approaches to curriculum design across the relevant age

STUDENT AND ACADEMIC SERVICES

	<p>phases of training;</p> <ol style="list-style-type: none"> 6. Demonstrate a critical understanding of developments in the core curriculum areas, and promote the value of scholarship 7. Using authoritative evidence from the literature, critically discuss and analyse principles underpinning children's learning within the core curriculum subjects and how this impacts on pedagogical decisions; 8. Work effectively as an independent, self-motivated and self-critical learner demonstrating the capacity to engage in self-critical reflection on their own learning leading to purposeful target setting and personal professional development;
Syllabus Outline	<p>Core subject and pedagogical knowledge.</p> <p>Subject knowledge for teaching early reading and mathematics, including systematic synthetic phonics.</p> <p>National Curriculum specifications and assessment requirements.</p> <p>Assessment of prior knowledge, and formative and summative assessment strategies.</p> <p>Use of assessment to inform medium term planning, planning lessons and target setting for pupils.</p> <p>Current national educational policy, curriculum and priority agendas,</p>
Contact Hours	<p>Contact time for this module will take the form of lectures, seminars, workshops, presentations, directed study and online engagement.</p>
Teaching and Learning Methods	<p>Scheduled learning includes lectures, seminars, tutorials, workshops, external visits, work based learning..</p> <p>Independent learning includes hours engaged with essential reading, assignment preparation and completion etc. These sessions constitute an average time per level as indicated in the table below. Scheduled sessions will vary.</p>
Reading Strategy	<p>All trainees will be encouraged to make full use of the print and electronic resources, available to them through membership of the University. These include a range of electronic journals and a wide variety of resources available through web sites and information gateways. The University Library's web pages provide access to subject relevant resources and services, and to the library catalogue. Many resources can be accessed remotely. Trainees will be presented with opportunities within the module to develop their information retrieval and evaluation skills in order to identify such resources effectively.</p> <p>All essential reading will be indicated clearly, along with the method for accessing it, e.g. trainees may be expected to purchase a set text, and will be referred to other texts held in the library and texts that are available electronically. Further guidance will be available in the module handbook and via the module information on UWE online.</p> <p>If further reading is expected this will be indicated clearly. If specific texts are listed in subject-specific documentation, a clear indication will be given regarding how to access them and, if appropriate, trainees will be given guidance on how to identify relevant sources for themselves, e.g. through use of bibliographical databases.</p> <p>Formal opportunities for trainees to develop their library and information skills will be provided within the induction period and by academic subject tutors. Additional support is available through the Library Services web pages including interactive tutorials on for example accessing electronic journal articles and referencing.</p>

(Ed.) 2nd Edition (2010) <i>Issues in Teaching Numeracy in Primary Schools</i> Maidenhead: OUP</p>
-------------------------	---

Part 3: Assessment

Assessment Strategy	The assessment is an essay in which students will demonstrate critical evaluation of an aspect of assessing pupils' understanding, supported by readings and engagement with relevant literature.
---------------------	---

Identify final assessment component and element	Component A	
% weighting between components A and B (Standard modules only)	A:	B:
	Pass/Fail	
First Sit		

STUDENT AND ACADEMIC SERVICES

Component A (controlled conditions) Description of each element	Element weighting
Essay: Critical discussion on moving learning forward in the core subjects (5,000 words).	Pass/Fail
Component B Description of each element	Element weighting

Resit (further attendance at taught classes is not required)	
Component A (controlled conditions) Description of each element	Element weighting
Essay: Critical discussion on moving learning forward in the core subjects (5,000 words).	Pass/Fail
Component B Description of each element	Element weighting
If a student is permitted a retake of the module under the University Regulations and Procedures, the assessment will be that indicated by the Module Description at the time that retake commences.
