MODULE SPECIFICATION

Part 1: Basic Data							
Module Title	Supporting people in crisis						
Module Code	UZZSU5-30-2		Level	2	Ver	sion	2
UWE Credit Rating	30 ECTS Credit Rating		15	WBL module? No			
Owning Faculty	Health and App	lied Sciences	Field	Mental Health and Learning Disabilities			rning
Department	Nursing and Midwifery		Module Type	Standard			
Contributes towards	FdSc Integrated Mental Health and Social Care						
Pre-requisites	None		Co- requisites	None			
Excluded Combinations	None		Module Entry requirements	None			
First CAP Approval Date	29 November 2016		Valid from	January 2017			
Revision ASQC Approval Date	26 June 2019		Revised with effect from	July 2019			

	Part 2: Learning and Teaching
Learning Outcomes	 Examine `crisis' and `recovery' and what this means to the individual, their families and carers (Component A) Explore aspects of a person's life and experiences that may impact on engagement (Component A) Analyse factors that support emotional wellbeing (Component A) Demonstrate awareness of current crisis interventions and the associated evidence base (Component A) Explore assessment strategies and interventions to support people experiencing a crisis (Component A) Explain how to collaboratively plan care and use goal setting to support recovery (Component A) Explain the Mental Health Act and Mental Capacity Act in relation to a mental health crisis (Component A) Reflect on inter-professional and inter-agency working in responding effectively to crisis (Component A)
Syllabus Outline	Ethics and Values Based Practice Biomedical ethics Biomedical ethics Social inclusion Empowerment versus safety Safeguarding Communication and Interpersonal Skills Protective factors and resilience Brief interventions Supporting families and carers

	Managing conflic	ct					
	Practice Delivery and Decision Making Risk assessment and positive risk taking Wellness Recovery Action Plans (WRAP) Mental Health Legislation Crisis Concordat Formulation Medication Responding in an emergency situation Leadership, Management and Team Working Clinical supervision Multi-disciplinary and inter-agency working Service provision available to those in crisis						
Contact Hours	The scheduled c	contact time w	ith staff, will in	clude; lecture	s, seminars a	nd tutorials.	
	In addition to sch learning environ support student	ments (VLEs)					
Teaching and Learning Methods	 Scheduled learning includes lectures, seminars, tutorials, work based learning; enquiry based learning, case based learning and role play. Independent learning includes hours engaged with essential reading and technology enhanced learning. These sessions constitute an average time per level as indicated in the table below. Scheduled sessions may vary slightly depending on the module choices you make. 						
Key Information Sets Information	Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.

Reading	Core reading
Reading Strategy	 Core reading Any core reading will be indicated clearly, along with the method for accessing it, eg students may be expected to purchase a set text, be given a study pack or be referred to texts that are available electronically, or in the Library. Module guides will also reflect the range of reading to be carried out. Further reading All students are encouraged to read widely using the library search, a variety of bibliographic and full text databases and Internet resources. Many resources can be accessed remotely. Guidance to some key authors and journal titles available through the Library will be given in the module handbook and updated annually. Assignment reference lists are expected to reflect the range of reading carried out. Access and skills Students are expected to be able to identify and retrieve appropriate reading. This module offers an opportunity to further develop information skills introduced at Level 1. Students will be given the opportunity to attend sessions on selection of appropriate databases and search skills. Additional support is available through the library web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign-up workshops are also offered by the Library.
	Indicative reading list The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. <i>Current</i> advice on additional reading will be available via the module handbook or Blackboard pages.
Indicative Reading List	Books: Hall, A., Wren, M. and Kirby, S.D. (2013) Care planning in mental health: promoting recovery. Chichester: Wiley Blackwell.
	Johnson, S., Needle, J., Bindman, J, P. and Thornicroft, G. (Eds.) (2008) <i>Crisis Resolution and Home Treatment in Mental Health</i> . Cambridge: Cambridge University Press.
	Pilgrim, D. and McCranie, A. (2013) <i>Recovery and mental health: a critical sociological account.</i> Basingstoke: Palgrave Macmillan.
	Robertson, M.D. and Walter, G. (2014) <i>Ethics and mental health: the patient, profession, and community.</i> Boca Raton: Taylor and Francis.
	Journals: Journal of psychiatric and mental health nursing Journal of social work practice Journal of Mental Health

	Part 3: Assessment				
Assessment Strategy	Assessment of the learning outcomes will be achieved by a 30 minute presentation on a case-based formulation. Students will present their formulation for a maximum of 20 minutes. There will then be a maximum of 10 minutes for questions.				
	Formulation is a way to make sense of a person's difficulties in the context of their relationships, social circumstances and life events. Formulation describes the personal story or narrative which the students will explore in their oral presentation, allowing students to articulate their ideas and developing their ability and confidence to communicate in work-like environments.				
	Opportunities for formative assessment will occur throughout the module, to check students' knowledge of the module content. The nature of the formative assessment will ensure students have a clear understanding of the requirements for the summative assessment and to allow an opportunity to adapt and respond to formative feedback.
