

## **Module Specification**

### Surveying

Version: 2023-24, v3.0, 31 Jul 2023

#### **Contents**

<b>Module Specification .....</b>	<b>1</b>
<b>Part 1: Information .....</b>	<b>2</b>
<b>Part 2: Description .....</b>	<b>2</b>
<b>Part 3: Teaching and learning methods .....</b>	<b>3</b>
<b>Part 4: Assessment.....</b>	<b>4</b>
<b>Part 5: Contributes towards .....</b>	<b>5</b>

## Part 1: Information

**Module title:** Surveying

**Module code:** UBGMT9-15-1

**Level:** Level 4

**For implementation from:** 2023-24

**UWE credit rating:** 15

**ECTS credit rating:** 7.5

**College:** Faculty of Environment & Technology

**School:** FET Dept of Geography & Environmental Mgmt

**Partner institutions:** None

**Field:** Geography and Environmental Management

**Module type:** Module

**Pre-requisites:** None

**Excluded combinations:** None

**Co-requisites:** None

**Continuing professional development:** No

**Professional, statutory or regulatory body requirements:** None

## Part 2: Description

**Overview:** Not applicable

**Features:** Not applicable

**Educational aims:** The aim of this module is to ensure you will have a theoretical and practical knowledge of surveying techniques for civil engineering applications.

In addition to the Learning Outcomes, the educational experience may explore,

develop, and practise but not formally discretely assess the following:

Carrying out tests and checks for quality assurance purposes on surveying equipment.

Working as a team member.

**Outline syllabus:** Levelling:

Level surveys, distance measurement with steel tapes, setting out (elevation).

Total stations:

Angle and distance measurement, Bowditch Adjustment, setting out (easting and northings).

Surveying theory:

Accuracy and errors, technology.

### **Part 3: Teaching and learning methods**

**Teaching and learning methods:** You will use modern equipment to carry out site surveys and set out construction projects, to design standards. The module will involve a good deal of practical work, where the theory taught in lectures is put into practice in the field.

In the practical sessions, students can develop their understanding through interaction with teaching staff from whom they will receive formative feedback.

**Module Learning outcomes:** On successful completion of this module students will achieve the following learning outcomes.

**MO1** Collect data using surveying instruments pertinent to the construction industry to accurately record the topographical environment for use in engineering design

**MO2** Set out construction works from design plans

**Hours to be allocated:** 150

**Contact hours:**

Independent study/self-guided study = 114 hours

Face-to-face learning = 36 hours

Total = 150

**Reading list:** The reading list for this module can be accessed at [readinglists.uwe.ac.uk](https://uwe.rl.talis.com/modules/ubgmt9-15-1.html) via the following link <https://uwe.rl.talis.com/modules/ubgmt9-15-1.html>

## Part 4: Assessment

**Assessment strategy:** This module is based around development of practical skills and application of surveying technology and theory. Therefore the assessment is a series of practical tasks and an in-class test where the students undertake surveying exercises and complete the associated calculations to demonstrate the learning outcomes.

Task 1 - Practical tasks

Task 2 - in-class test.

The resit will be the same a series of practical tasks and an in-class test.

### Assessment tasks:

#### Practical Skills Assessment (First Sit)

Description: Practical surveying tests (2 hours)

There will 2 assessed practicals throughout the term covering MLO 1 and 2, worth 35% each.

Each assessed practical is 1 hour long.

Weighting: 70 %

Final assessment: Yes

Group work: No

Learning outcomes tested: MO1, MO2

**In-class test (First Sit)**

Description: In class test to assess the theory elements of the module (1 hour).

Weighting: 30 %

Final assessment: No

Group work: No

Learning outcomes tested: MO1, MO2

**Practical Skills Assessment (Resit)**

Description: Practical surveying tests (2 hours)

There will 2 assessed practicals throughout the term covering MLO 1 and 2, worth 35% each.

Each assessed practical is 1 hour long.

Weighting: 70 %

Final assessment: Yes

Group work: No

Learning outcomes tested: MO1, MO2

**In-class test (Resit)**

Description: In class test to assess the theory elements of the module (1 hour).

Weighting: 30 %

Final assessment: No

Group work: No

Learning outcomes tested: MO1, MO2

**Part 5: Contributes towards**

This module contributes towards the following programmes of study:

Civil Engineering {Apprenticeship-UWE} [Frenchay] BEng (Hons) 2023-24

Civil Engineering [Frenchay] BEng (Hons) 2023-24

Civil Engineering [Frenchay] BEng (Hons) 2023-24

Civil Engineering [Frenchay] MEng 2023-24

Civil Engineering [Frenchay] MEng 2023-24

Civil Engineering {Foundation} [Frenchay] BEng (Hons) 2022-23

Civil and Environmental Engineering {Foundation} [Sep][FT][Frenchay][4yrs] - Not  
Running BEng (Hons) 2022-23

Civil and Environmental Engineering {Foundation} [Sep][SW][Frenchay][5yrs] - Not  
Running BEng (Hons) 2022-23
