

MODULE SPECIFICATION

Part 1: Information			
Module Title	Paediatric Pain Management: Foundations of Care and Interventions		
Module Code	UZUY7K-20-3	Level	3
For implementation from	September 2018		
UWE Credit Rating	20	ECTS Credit Rating	10
Faculty	Health and Applied Sciences	Field	Maternal and Child Health
Department	Nursing and Midwifery		
Contributes towards	BSc (Hons) Health and Social care (optional)		
Module type:	Standard		
Pre-requisites	None		
Excluded Combinations	None		
Co- requisites	None		
Module Entry requirements	CPD and stand alone		

Part 2: Description
<p>This module will facilitate the development of the practitioner's knowledge and skills in the core elements of paediatric pain management. Practitioners will consolidate their knowledge of anatomy and physiology relating to pain and perception, the interventions required to care safely for a child and young person using both pharmacological and non-pharmacologic modalities, utilising current research/evidence to underpin practice. The principles of holistic, family centred care will run throughout the module.</p> <p>The module will cover:</p> <p>Pain</p> <ul style="list-style-type: none"> • Pain history, epidemiology, definitions, mechanisms and the burden of pain • Types of pain – visceral, somatic, neuropathic and idiopathic • Bio-psycho-social model in paediatric pain management • Psychological Aspects of pain <p>Pain assessment</p> <p>Ethics applied to pain management and clinical care</p> <p>Pharmacological and non-pharmacological pain management</p> <p>Administration Techniques</p> <ul style="list-style-type: none"> • Administration Techniques, • Perioperative management

- Preventative and Pre-emptive analgesia
- Regular Vs PRN administration

Procedural pain management

Pain related to specific aetiology

- Cancer pain management
- Pain management following major/minor burn injury
- Pain management in palliative care
- Pain management in trauma care – pre-hospital and Emergency Department
- Pain management in haematological disease

Chronic Pain Management

The role of the specialist paediatric pain team

Part 3: Assessment: Strategy and Details

Presentation of an evidence based poster linked to an aspect of pain management in children, followed by critical questioning as an oral defence of the poster. The presentation and oral defence will last a maximum of 30 minutes, broken down into a 20 minute presentation of the poster, followed by a 10 minute oral defence, composed of critical questions.

The poster will be assessed under controlled conditions.

The oral defence will include a minimum of two standardised questions to address the relevant professional, legal and ethical dimensions of clinical practice. Additional questions may be asked which are of relevance to each individual student's poster presentation.

Assessment support will be offered throughout the module.

The poster should be fully referenced using UWE Harvard.

The assessment strategy has been chosen because it reflects the increasing practice and use within healthcare of poster presentation at interview and conference for healthcare practitioners. This module therefore aims to reflect current practice through its assessment strategy.

Identify final timetabled piece of assessment (component and element)	Component A	
% weighting between components A and B (Standard modules only)	A:	B:
First Sit		
Component A (controlled conditions) Description of each element	Element weighting	
1. Defended poster presentation (maximum of 30 minutes)	100%	
Resit (further attendance at taught classes is not required)		
Component A (controlled conditions) Description of each element	Element weighting	
1. Defended poster presentation (maximum of 30 minutes)	100%	
Part 4: Learning Outcomes & KIS Data		
Learning Outcomes	On successful completion of this module students will be able to:
