Part 2: Description

Overview: This is the level 1 professional practice module and will support student's development of proficiencies, as identified in the Nursing and Midwifery Council's (NMC) Future Nurse Standards (2018).

Features: Not applicable

Educational aims: Students will be guided participants in healthcare delivery and perform with increasing confidence and competence throughout the year and will be

supported by an academic assessor, practice assessor and practice supervisor. The module teaching will prepare students to provide safe, effective, and person-centred nursing care for people who have a range of physical, social, psychological, and emotional needs.

Outline syllabus: The indicative content of the module will focus on the Nursing and Midwifery Council's (NMC) Future Nurse Standards (2018) and the South Pad Assessment Document (Part One) and the Ongoing Achievement Record (OAR).

Practice hours can be made up of practice placement or practice simulation.

A fundamental aspect of nursing practice is to ensure that the care provided is inclusive and recognises diversity. Therefore, all modules within this programme have included the principles of globalisation, equality, diversity, and inclusivity. Consideration has been given to module titles, the module description, the assessment, learning outcomes and the reading list.

Part 3: Teaching and learning methods

Teaching and learning methods: A range of learning and teaching activities will be utilised to support student learning and could include:

Lead lectures that may be delivered online or face to face

Clinical Placements

Digital virtual learning environments/platforms

Simulation and skills

Practice based scenarios with the involvement of service users and external professionals to enable students to reflect on multiple perspectives needed to make effective and safe decisions in enhancing person centred care

Seminars and group work will be used to support the understanding of fundamental nursing principles and the beginning of problem and enquiry-based learning and development of self-directed learning skills

All teaching and learning materials will be digitally accessible (The Public Sector Bodies Accessibility Regulations, 2018).

Module Learning outcomes: On successful completion of this module students will achieve the following learning outcomes.

MO1 Identify the appropriate knowledge base required to deliver safe, person-centred healthcare delivery with some guidance.

MO2 Utilise appropriate skills in the delivery of person-centred healthcare in commonly encountered situations with some guidance.

MO3 Demonstrates a professional attitude in delivering person-centred care.

MO4 Demonstrates positive engagement with own learning.

MO5 Demonstrate an understanding of promoting and maintaining non-discriminatory practice.

Hours to be allocated: 300

Contact hours:

Independent study/self-guided study = 218 hours

Placement = 660 hours

Face-to-face learning = 72 hours

Total = 950

Part 4: Assessment

Assessment strategy: Students are required to complete a period of professional practice over the year within a range of care environments. These placements will support student learning to build confidence, ability to think critically, apply knowledge and skills in the delivery of evidence-based nursing practice.

Formative assessment: Each student will have a mid-point assessment of their progress during each placement with their Academic Assessor and Practice Supervisor, respectively. Students will also undertake formative numeracy assessments online.

Summative assessment: Summative assessment taking place at the end of the module supported by an Academic Assessor and Practice Assessor. Students will reflect on practice learning as part of their professional development through a portfolio.

The Summative assessment is completion of the Practice Assessment Document (PAD) including a minimum of 80 % attendance of professional practice placement at the end of year 1 and the Ongoing Achievement Record (OAR).

Completion of mandatory training including Basic Life Support and Manual Handling.

The assessment type has been selected with consideration to the programme as a whole and guided by the principles of the Inclusive Curriculum and Practice Toolkit, which aims to optimise learning for all students through developing multiple means of representation and means of expression of learning outcomes.
