Part 1: Information

Module title: Internship Three [TSI]

Module code: UFMFYY-30-M

Level: Level 7

For implementation from: 2022-23

UWE credit rating: 30

ECTS credit rating: 15

Faculty: Faculty of Environment & Technology

Department: FET Dept of Engineering Design & Mathematics

Partner institutions: Transport and Telecommunication Institute

Delivery locations: Transport and Telecommunication Institute Latvia

Field: Engineering, Design and Mathematics

Module type: Standard

Pre-requisites: None

Excluded combinations: None

Co-requisites: None

Continuing professional development: No

Professional, statutory or regulatory body requirements: None

Part 2: Description

Overview: This module requires the student to take on a substantial period of supervised work experience, relevant to their academic programme of study, in a professional environment (referred to below as a “placement”). The precise details of the job requirements involved are negotiated and agreed between the employer and the student, with assistance and advice from the University as needed.

Students are expected to demonstrate professional success in working to the employer's brief, and to reflect critically on the work experience in relation to their academic programme and their personal and career development. Students will be able to identify personal, professional development goals, review evidence to demonstrate their professionalism and develop an initial career plan. Students will reflect upon their strengths and areas for improvement and understand relevant professional requirements

Features: Not applicable

Educational aims: The aim of this module is to use a substantive work-based experience to develop a sound basis for understanding the role of the aviation manager in an appropriate professional environment.

Outline syllabus: The professional environment

Professional behaviours and working with others

Personal skills analysis and reflective practice

Performance diagnostic tools

Equality and diversity, the inclusive workplace

Ethics Continuing Professional Development

Professional literature

Emerging issues in their security/safety domain.

Part 3: Teaching and learning methods

Teaching and learning methods: Scheduled learning includes seminars and workshops to encourage students to find placements. Pre-departure briefings and paperwork are held for those who achieve placements. Placement learning includes

hours engaged with essential reading, understanding of the placement environment and its business position, assignment preparation and completion etc. The contact time is made up of online, real-time or email-based tutor advice and support, and virtual learning environment support and workplace learning and research activities, supplemented where possible by a tutor advise and/or synchronous student-student or student-staff sessions.

The placement will involve a workplace supervisor to support and encourage personal and career development as well as monitor the student's professional performance in accordance with company norms. The employer is encouraged to support or accommodate the student's broader development, for example through relevant training opportunities and some time out for study, self-directed and reflective work. The opportunity for the student to experience a variety of job roles within the workplace is also encouraged where practicable. The academic work employs a distance learning approach to self-managed project-based learning in parallel with the work experience. Tutors generally act as facilitators of independent self-managed learning and resource discovery.

Module Learning outcomes: On successful completion of this module students will achieve the following learning outcomes.

MO1 Create, implement and evaluate a plan for professional development

MO2 Critically examine industry requirements , in relation to your own professional development

MO3 Discuss and critically appraise relevant literature about the impact of aviation management in society

MO4 Reflect on the importance of people and behaviours in the air transportation process, based on your learning and development in the workplace

Hours to be allocated: 300

Contact hours:

Independent study/self-guided study = 266 hours

Total = 266

Reading list: The reading list for this module can be accessed at readinglists.uwe.ac.uk via the following link

Part 4: Assessment

Assessment strategy: An individual portfolio is maintained over the whole module as a 'container' for academic outputs at regular intervals, as evidence of professional work in progress, and to track and reflect on professional and personal development. The student takes responsibility for defining their own study plan and project management methodology at the start of the module, and is given flexibility in planning his/her academic work to synchronize effectively with professional and personal commitments. Portfolio submissions are scheduled in advance, then submitted and assessed. This provides for embedded formative feedback as well as summative assessment through the module, taking into account the quality of the student's reflective thinking and employer feedback on professional standards and achievements.

Assessment components:

Portfolio - Component A (First Sit)

Description: Portfolio

Weighting: 30 %

Final assessment: No

Group work: No

Learning outcomes tested:

Reflective Piece - Component B (First Sit)

Description: Reflective piece

Weighting: 70 %

Final assessment: Yes

Group work: No

Learning outcomes tested:

Portfolio - Component A (Resit)

Description: Portfolio

Weighting: 30 %

Final assessment: No

Group work: No

Learning outcomes tested:

Reflective Piece - Component B (Resit)

Description: Reflective Piece

Weighting: 70 %

Final assessment: No

Group work: No

Learning outcomes tested:

Part 5: Contributes towards

This module contributes towards the following programmes of study:

Aviation Management and Sustainability {Double Degree} [Feb][FT][TSI][2yrs] MSc
2021-22
