Part 4: Assessment.....	5
Part 5: Contributes towards	6

Part 1: Information

Module title: Professional in Clinical Practice 1

Module code: UZWYL8-30-1

Level: Level 4

For implementation from: 2023-24

UWE credit rating: 30

ECTS credit rating: 15

College: College of Health, Science & Society

School: CHSS School of Health and Social Wellbeing

Partner institutions: None

Field: Acute and Critical Care Adult Nursing

Module type: Module

Pre-requisites: None

Excluded combinations: None

Co-requisites: None

Continuing professional development: No

Professional, statutory or regulatory body requirements: None

Part 2: Description

Overview: Not applicable

Features: Not applicable

Educational aims: This practice module will assist students to assess, plan, deliver evidence based practice and evaluate personcentred nursing care for people who have a range of physical, social and/or emotional needs, across the lifespan, including the four fields of nursing and a range of social care settings. The content of

the module will focus on the required professional standards as stated within the NMC Standards of pre-registration nursing associate programme (2018) and will be met through clinical experience and guided participation in care and performing with increasing knowledge, skills and confidence.

Outline syllabus: Nursing Associates have the opportunity for self-direct learning in a health or social care environment of choice through the elective day experience.

The content of the module will focus on the required professional standards as stated within the Nursing and Midwifery Council (NMC) Standards of proficiency for nursing associates (2018) and will be met through clinical experience. Students will be supported in accordance with Part 2: Standards for student supervision and assessment (NMC 2018).

Students will be assessed against the NMC Standards of proficiency for nursing associates (2018). Six platforms have been designed to encompass all proficiencies:

- Being an accountable professional
- Promoting health and preventing ill health
- Provide and Monitor care
- Working in teams
- Improving safety and quality of care
- Contributing to integrated care

Completion of mandatory training including Basic Life Support and Manual Handling.

The Summative assessment is completion of the Practice Assessment Document (PAD) including a minimum of 80 % attendance of professional practice placement at the end of year 1 and the Ongoing Achievement Record (OAR).

Annexe A: Communication and relationship management skills

Annexe B: Procedures to be undertaken by the nursing associate.

Part 3: Teaching and learning methods

Teaching and learning methods: This module will use a range of learning and teaching strategies to support student learning and will include:

Interactive realities

Simulation

Guided learning

Self-directed learning

Digital learning

Peer coaching

Elective days

Theme days

Module Learning outcomes: On successful completion of this module students will achieve the following learning outcomes.

MO1 Guided participation to deliver safe and effective care to a diverse range of people across the four fields of nursing practice.

MO2 Participate in activities demonstrating continuous self-reflection, seeking and responding to support and feedback to develop their professional knowledge and skills.

MO3 Demonstrate working in the best interests of people and maintaining professionalism at all times.

MO4 Participate in evidence based, person-centred, safe and compassionate nursing care.

MO5 Consider and recognise the different four fields of nursing through themed days.
