Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: This programme is designed to enable students to gain maximum benefit from their disciplinary studies in the field of law and to provide students with the knowledge, skills, attributes and confidence to successfully shape their individual futures in the legal sector or other professional settings. Throughout the programme students will engage in practice led learning, which will develop them as ready and able graduates who are ambitious, collaborative, innovative, inclusive, and enterprising.

Recently, Villa College achieved a remarkable milestone by becoming the first higher education institution in the Maldives to receive a QS Stars Rating, with an Overall QS Rating of 4 Stars. Highlights of this achievement include achieving 5 stars in the following category: Online Learning, Employability and Environmental Impact.

Villa College is the first private higher education institution in the Maldives and its vision is to become the leading HE provider in the country. Their mission is to do this by providing internationally recognised affordable education which will sustain, develop and disseminate knowledge and understanding, therefore providing value to the local community, wider society and the Maldivian economy. Its vision and mission are all underpinned by a set of core values that very much align with those of UWE and the LLB Programme, in that they encompass quality, creativity, integrity, respect and social responsibility. This aligns with UWE's and the Law School ethos.

A thread running through the LLB programme at each level is the concept of the 'Student Lawyer'. From day one students will be asked to consider their development of a professional identity alongside enhancement of their academic learning. Each student will be supported to consider their individual approach to what being a Student Lawyer means during and beyond their study on the programme. At Levels 4 and 5 students will engage in Student Lawyer projects twice in each year. The projects will be connected thematically to their legal studies, further enhancing the practice led, real world focus of the programme. They will involve live briefs or other practice led activities generated in collaboration with

external organisations drawn from the legal, commercial and third sectors. Students will reflect on their individual personal and professional development as well as the outcomes of their project work in a portfolio which will contribute to their marks in all modules at Levels 4 and 5. At Level 6 students will undertake a 30 credit Street Law module which will enable them to take their learning on the Student Lawyer project and apply it in a public legal education context. Public legal education is an area that Villa College is already actively involved in via the Faculty of Law and the Villa College Student Law Society. For instance, recently the Villa College Student Law Society has been involved in activities with migrant workers which has involved raising awareness about their legal rights, providing information on how to access legal services, etc.

The overall aim of the LLB is to create a holistic, programmatic and individualised approach throughout the student developmental journey, establishing space within the programme for each student to build consistently on their academic but also their personal and professional growth.

The programme will offer students more choice as they progress through the levels. At Level 4 they will all begin with a suite of core modules grouped as Private Law (contract and tort) and Public Law (crime and constitutional and administrative law). These modules will also cover key foundational elements of the study of law including legal method and systems. At Level 5 students will continue with two core modules in the area of Property (land law and equity and trusts), and will also take 60 credits of optional modules. At Level 6, the Street Law module will be core, but 90 credits will be optional. As the student numbers will be smaller at Villa College, when compared with UWE, students will be offered a select suite of optional modules. These modules align with the skill set of colleagues at FTU and what is deemed to be relevant within the Maldivian context.

Features of the programme: The programme develops future facing, ready and able graduates. Through the programme they engage in learning of intellectual, practical, and professional skills and the acquisition of graduate attributes and competencies. This is of paramount importance for the future ability of graduates to succeed with their career ambitions.

Therefore, the programme is designed to enable students to continuously work towards the graduate attributes defined by UWE's Strategy 2030 and Villa College's mission and core values.

Educational Aims: The aim of the LLB is to provide a practice-led, innovative, collaborative, and inclusive legal education and will:

Facilitate the development of a systematic understanding of the law within an institutional, social, national, and global context.

Support the development of intellectual independence and self-directed research to provide students with skills for employment in the legal services and other sectors.

Equip students with the skills to be enterprise focused, innovative and confident problem solvers.

Enable the growth of a confident and open-minded approach and a willingness to engage in continuous learning and development.

Encourage an awareness and application of appropriate ethical and practice principles.

Programme Learning Outcomes:

On successful completion of this programme graduates will achieve the following learning outcomes.

Programme Learning Outcomes

- PO1. Apply both critical and systematic understanding of the knowledge, theories, concepts, values, principles, and rules of public and private laws within an institutional, social, national, and global context.
- PO2. Demonstrate intellectual independence, including the ability to analyse the law and legal systems, identify gaps in their own knowledge and engage in enquiry, critical analysis, and evaluation.

- PO3. Conduct self-directed research, evidencing capacity to identify, retrieve and work with relevant information from a range of primary and secondary legal and contemporary sources.
- PO4. Demonstrate the skills required to be enterprise focused, innovative and confident problem solvers, with capacity to make decisions in complex and unpredictable contexts.
- PO5. Communicate effectively with others, orally and in writing, in a variety of contexts.
- PO6. Work collaboratively with others in a variety of contexts and relationships.
- PO7. Take responsibility for their own learning, evidencing capacity for reflection on learning and the effective use of feedback, and in the wider development of personal skills and attributes.
- PO8. Recognise, respect and value diversity of experience and the perspectives of others and demonstrate an understanding of the principles and values of law, justice, and legal ethics.

Assessment strategy: The programme adopts a programmatic assessment strategy which is built on inclusive authentic assessments. The strategy considers the different demographics of our students, together with the competencies, knowledge, and attributes they will gain upon completion of their studies with us. The strategy provides for formative assessments which will enable students to make use of feedback to develop their learning and skills.

In addition, the strategy, considers the high rise of assessment offences through contract cheating and plagiarism and or recycling of essay. Therefore, a range of assessment styles are adopted with aim of deterring assessment offences as well as meet the aims of the programme learning outcomes whilst reflecting the learning in the modules.

In Years one and two, we take a programmatic approach to the assessment strategy by creating an interaction in the different module assessments through the Student Lawyer project. The assessment styles are varied, and set with an aim of developing their knowledge, problem solving, research and reflection on learning and personal and professional development. By way of example, the assessment

methods include presentations, mooting, course works, with a limited number of exams which legal knowledge, but also aspects of practice such as drafting of legal advice. Single best answer MCQs are included as an assessment method in some areas of law as a means of preparing students for future post-graduate professional examinations where single best answer MCQs are a core assessment method. The variety and authenticity of our assessment styles will enable our students to develop their academic and professional skills, helping students to prepare for their transition into professional life.

Student support: Students are offered a wide variety of support throughout the Programme and their time at university. Each student has a personal tutor to support and guide them. Students are also supported by the Programme Leader, Module Leaders, and Module Tutors.

Villa College has its own library which students have access to. In addition, Villa College students have access to UWE's online library services, study skills workbooks and other materials. Further support is also available through CBAL's Learning Hub activities which take place online.

Focussed on enriching student experience, Villa College has a vibrant student culture with extra curricula activities that encompass an active student law society, pro bono activities and mooting competitions. In addition, Villa College regularly arranges events with a wide range of stakeholders with a view to transform awareness, build capacity, foster actionability and develop co-operation which students are invited to be a part of, and participate in.

Part C: Higher Education Achievement Record (HEAR) Synopsis

Students acquire knowledge of core areas of law and develop key skills and attributes for their future working lives. There are opportunities for a year on placement or study abroad, and participation in a significant range of extra-curricular

activities including mooting; training in negotiation, interviewing and mediation skills ; pro-bono projects and societies including the Student Law Society. In these wider activities, students mix with those on postgraduate academic and professional law programmes. Student are able to graduate with a Qualifying Law Degree if they wish to progress to become a barrister.

Students are challenged in their ability to communicate, analyse and problem-solve, developing their intellectual capacity focusing on practical, enterprising and future-facing application within the legal arena and elsewhere.

Part D: External Reference Points and Benchmarks

The programme design considered the Reference Points and Benchmarks below. In particular, the learning outcomes were mapped against the QAA Statement Benchmark for Law, UWE Strategy 2030 and UWE Enhancement Framework.

Consideration was given to all the documentation below and consultation took place with students and external advisors and stakeholders including professionals from law firms and other organisations, to ensure that the necessary points were covered. Student feedback was obtained and evaluated through strategic forums held with them. National Student Survey qualitative feedback was also taken into consideration.
