PROGRAMME SPECIFICATION

J	/E, Bristol						
		UWE, Bristol					
Teaching Institution UW	UWE, Bristol						
Delivery Location Free	Frenchay Campus						
Faculty responsible for programme	Faculty of Business and Law						
Department responsible for programme	Law Postgraduate						
Modular Scheme Title							
Professional Statutory or Regulatory Body Links							
Name of PSRB Type of approval Dates							
	Master of Laws (LLM) in Environmental Law and Sustainable Development						
Default Award Title							
Dev Pos	Postgraduate Diploma in Environmental Law and Sustainable Development Postgraduate Certificate in Environmental Law and Sustainable Development						
-	PhD						
Mode(s) of Delivery Full	Full time; Part time						
	ICAS:	JACS:					
IS	SIS2: M3AC12 (M29A)	HESA:					
Relevant QAA Subject Benchmark Statements							
CAP Approval Date							
Valid from Date 1 Se	1 September 2012						
Valid until Date 1 Se	1 September 2018						
Version 1.1	1.1						

Part 2: Educational Aims of the Programme

This postgraduate programme offers students an opportunity to engage with the challenges posed by sustainable development in a legal context. It takes the perspective that environmental law needs to be considered along with the social and economic dimensions of development. A range of global environmental issues are explored, such as climate change, energy, biodiversity protection and water management from the viewpoint of both developed and developing countries. The programme supports one of the key aims of UWE, in seeking to foster a strong global outlook in students. It is designed to encourage innovation and creativity in assessing current problems at the cutting edge of environmental law and sustainable development and in designing responses, thus preparing graduates for employment in legal practice and commercial organisations as well as the public sector and non-governmental organisations, both in the UK and abroad.

The programme is based on an understanding of law as both a vocational discipline and a subject of academic study. The programme seeks to reflect this by:

- Equipping students with an advanced understanding of environmental law and sustainable development especially focusing on current issues at the forefront of academic study.
- Developing the analytical skills needed to make reasoned, creative and original judgments regarding the development and practical application of the law in this area.
- Assisting students to develop greater intellectual autonomy and to become independent learners.
- Equipping students with the research skills and methodological knowledge needed to conduct advanced legal research.
- Refining students' ability to communicate effectively complex ideas in oral and written form.
- Developing students' ability to look reflectively at their own professional practice.
- Encouraging ethical decision-making, sustainability and global citizenship.
- Assisting students to develop the qualities and transferable skills necessary for employment requiring the exercise of initiative and personal responsibility and decision-making.
- Encouraging lifelong learning and personal development and thereby enabling students to be able to work with self-direction and originality and to make a positive contribution to society.

Part 3: Learning Outcomes of the Programme

The award route provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas:

Learn	ing Outcomes	Teaching, Learning and Assessmen						
A Knowledge and Understanding								
A Kno	wledge and understanding of:	Teaching/learning methods and strategies						
1.	Complex and specialised areas of environmental law and sustainable development, often working at the current limits of understanding.	Acquisition of 1 is through: International Environmental Law, Natural Resources Law, Dissertation Additional Support is provided through:						
		Globalisation and the law, International Law and Institutions, World Trade Organisation Law, International Employment Law, Shipping Law, International Human Rights Law,						
		Corporate Governance and Corporate Social						

Responsibility.

European Environmental Law and Policy Contemporary Research Project

2. Rules and theories of environmental law and *Acquisition of 2 is through:* their application to emerging areas of sustainable development adopting an international and comparative approach.

International Environmental Law. Natural Resources Law, Dissertation

Additional Support is provided through:

Globalisation and the law, International Law and Institutions. World Trade Organisation Law, International Employment Law,

Shipping Law,

International Human Rights Law

European Environmental Law and Policy, Corporate Governance and Corporate Social Responsibility Contemporary Research Project

3. Law and policy perspectives to address conflicts and overlaps between social, environmental and economic aspects of sustainable development law

Acquisition of 3 is through: International Environmental Law, Natural Resources Law, Dissertation

Additional Support is provided through Globalisation and the law. European Environmental Law and Policy International Law and Institutions, World Trade Organisation Law, International Human Rights Law, Corporate Governance and Corporate Social Responsibility, Shipping Law, International Employment Law,

4. Both traditional and novel concepts of environmental law and sustainable development.

Acquisition of 4 is through: International Environmental Law. Natural Resources Law, Dissertation

Contemporary Research Project

Additional Support is provided through: International Law and Institutions, International Employment Law, Shipping Law, International Human Rights Law, European Environmental Law and Policy, Globalisation and Law, Corporate Governance and Corporate Social Responsibility,

Contemporary Research Project

5. Critical debates on the interrelationship between environmental law and sustainability international Environmental Law, and alternative approaches.

Acquisition of 5 is through: Natural Resources Law, Dissertation

Additional Support is provided through:

European Environmental Law and Policy, Corporate Governance and Corporate Social Responsibility.

International Human Rights Law,

Globalisation and the Law.

World Trade Organisation Law,

International Law and Institutions,

International Employment Law, Shipping Law,

Contemporary Research Project.

6. Research approaches and techniques used in the analysis of legal issues drawing on the Research Methods main research traditions in law.

Acquisition of 6 is through:

Dissertation

International Environmental Law

Natural Resources Law

Additional Support is provided through:

European Environmental Law and Policy,

Globalisation and the law,

International Law and Institutions, World Trade Organisation Law,

International Employment Law,

Shipping Law,

International Human Rights Law,

Corporate Governance and Social Corporate

Responsibility.

Contemporary Research Project

7. Pervasive Issues including sustainability, global citizenship, diversity and employability.

Acquisition of 7 is through:

Dissertation

International Environmental Law,

Natural Resources Law

Additional Support is provided through:

Globalisation and the Law

International Law and Institutions

International Human Rights Law

WTO Law

Natural Resources Law

Corporate Governance and Corporate Social

Responsibility

European Environmental Law and Policy,

Shipping Law

International Employment Law

Contemporary Research Project

Learning and Teaching is centered on informed guided reading, independent research leading to quided discussions and debates in the context of seminars. Students are encouraged to undertake independent reading to supplement and consolidate

their knowledge and understanding.

Assessment

Testing of the knowledge base is through assessed coursework, oral assessment and dissertation. Individual module specifications provide details of assessments

B Intellectual Skills

B Intellectual Skills

- Ability to deal with complex and specialised legal norms and to explore the current limits of legal knowledge in environmental Law and sustainable development;
- Ability to critically analyse, at the appropriate 2. postgraduate level, rules of law and to apply them to complex and developing factual situations:
- 3. Ability to analyse and synthesise abstract concepts and theories:
- 4. Ability to create responses to problems that redefine existing knowledge and/or develop new approaches to particular problems;
- Ability to independently evaluate complex legal 5. issues and to suggest alternatives;
- Ability to present a structured argument at 6. both abstract and concrete levels:
- Ability to conceptualise and integrate complex ideas and arguments from multiple sources and perspectives.

Teaching/learning methods and strategies:

Intellectual skills are developed through all modules.

Learning and Teaching is centred on informed guided reading, independent research leading to guided discussions and debates in the context of workshops. Students are encouraged to undertake independent reading to supplement and consolidate their knowledge and understanding.

Additional opportunities to develop intellectual skills are provided through departmental research structures and activities.

Assessment:

Testing of intellectual skills is through assessed coursework, oral assessment and dissertation.

Individual module specifications provide details of assessments

C Subject, Professional and Practical Skills

C Subject, Professional and Practical Skills

- 1. Ability to plan and undertake effective research through all modules. on complex and specialised legal issues;
- 2. Ability to use information and knowledge effectively;
- Ability to communicate effectively in both written and oral form;
- and engage in debates orally, through presentations and group discussions and in written work;
- Ability to recognise and address ethical dilemmas and corporate social responsibility
- Ability to use relevant ICT effectively;

Teaching/learning methods and strategies: Subject/Professional/Practical skills are developed

Learning and Teaching is centred on informed guided reading, independent research leading to guided discussions and debates in the context of workshops. Students are encouraged to undertake independent Ability to articulate ideas, develop arguments reading to supplement and consolidate their knowledge and understanding.

> Additional opportunities to develop these skills are provided through departmental research structures and activities.

Ability to work effectively as part of a team, to listen and respond to contributions in group processes and to negotiate and persuade others.

Assessment:

Skills 1-6 are assessed in all modules through the incorporation of both oral and written assessment methods.

Skill 7 is not explicitly assessed in relation to teamwork, but is indirectly assessed in all modules as the ability to listen and respond and negotiate and persuade is required for the successful achievement of learning outcomes assessed in all modules. Individual module specifications provide details of assessments

D Transferable Skills and other attributes

D Transferable Skills and other attributes

- 1. Ability to work autonomously with a selfawareness of key research and analytical issues to be dealt with in any particular piece of work;
- and analysis;
- complex material and to present arguments and information coherently and at a level consistent with postgraduate study;
- 4. An awareness of ethical issues including sustainability issues.
- 5. Independent learning and reflective practice required for effective performance in future work roles.
- 6. Sensitivity to diversity in people and ability to work with people in different situations.
- Time management 7.

Teaching/learning methods and strategies:

Transferable skills are developed through all modules.

Learning and Teaching is centred on informed guided 2. Ability to plan strategies for effective research reading, independent research leading to guided discussions and debates in the context of workshops. Ability to think analytically and reflexively about Students are encouraged to undertake independent reading to supplement and consolidate their knowledge and understanding.

> Additional opportunities to develop transferable skills are provided through departmental research structures and activities.

Assessment:

Skills 1-5 are assessed in all modules through the incorporation of a range of assessment techniques.

Skills 6 and 7 are not explicitly assessed but are required for the successful achievement of learning outcomes assessed in all modules.

Individual module specifications provide details of assessments.

Part 4: Programme Structure

This structure diagram demonstrates the student journey from Entry through to Graduation for a typical **full time student**, including: level and credit requirements interim award requirements

module diet, including compulsory and optional modules									
module diet, ind	cluding compulsory and op Compulsory Modules (total of 105 credits) Research Methods UJGUP7-15-M International Environmental Law UJGUPD-15-M Natural Resources	Optional Modules Students to choose 75 credits from the following modules: Globalisation and the Law UJGUP9-15-M International Law and Institutions UJGUPC-15-M International Human Rights Law	Postgraduate Diploma in International Trade and Economic Law Postgraduate Certificate in International Trade and Economic Law Credit requirements PG Cert 60 credits						
•	 Natural Resources Law UJGUPN-15-M Dissertation UJGT85-60-M 	UJGUPE-15-M World Trade Organisation Law UJGUPM-15-M Corporate Governance and Corporate Social Responsibility UJGUPP-15-M International Employment Law UJGUPS-15-M Shipping Law UJGUPR-15-M European Environmental Law and Policy UJGUPQ-15-M Contemporary Research Project UJGUPG-15-M A maximum of one module not listed above, offered on any of the other LLM award routes by the Department of Law (15 credits)	PG Dip 120 credits Awards: Target/highest – LLM in Environmental Law and Sustainable Development Credit requirements - 180 to include the Dissertation module which will be the final module undertaken.						

GRADUATION

Part 5: Entry Requirements

The University's Standard Entry Requirements for taught postgraduate programmes apply with the following additions

Candidates should normally hold a good honours degree in law (LLB (Hons)) or equivalent from a recognised UK Higher Education institution or equivalent from a recognised overseas institution.

Non law graduates may be admitted if they have relevant experience or an honours degree in a related subject area.

The University's Standard English Language Requirements for taught postgraduate programmes apply.

Part 6: Assessment

Approved to University Regulations and Procedures

Assessment Map

The programme encompasses a range of **assessment methods** including; coursework essays, oral presentations and dissertation. These are detailed in the following assessment map:

Assessment Map for LLM Environmental Law and Sustainable Development

		Type of Assessment*									
Instructions:		Unseen Written Exam	Open Book Written Exam	In-class Written Test	Practical Exam	Practical Skills Assessment	Oral assessment and/or presentation	Written Assignment	Report / Project	Dissertation	Portfolio
Compulsory	Module No UJGUP7-15-M						A (25)	B (75)			
Modules	Module No UJGUPD-15-M						A (40)	B (60)			•
	Module No UJGUPN-15-M						A (40)	B (60)			
	Module No UJGT85-60-M									A (100)	
Optional	Module No UJGUP9-15-M						A (40)	B (60)			
Modules	Module No UJGUPC-15-M						A (40)	B (40)			
	Module No UJGUPE-15-M						A (40)	B (60)			
	Module No UJGUPM-15-M						A (40)	B 60)			
	Module No UJGUPP-15-M						A (40)	B (60)			
	Module No UJGUPS-15-M						A (40)	B (60)			
	Module No UJGUPR-15-M						A (40)	B (60)			
	Module No UJGUPQ-15-M						A (40)	B (60)			
	Module No UJGUPG-15-M								A (100)		

Part 6: Assessment

*Assessment should be shown in terms of either Written Exams, Practical exams, or Coursework as indicated by the colour coding above.

Part 7: Student Learning

Teaching, learning and assessment strategies to enable learning outcomes to be achieved and demonstrated

Teaching on the LLM in International Environmental Law and Sustainable Development Programme comprises a mix of scheduled workshops and independent learning.

Scheduled learning. These sessions constitute an average of 24 hours per module. Scheduled sessions may vary slightly depending on the module choices made. Learning for students who choose a work based project will include work based learning.

Independent learning includes hours engaged with essential reading, case study preparation, preparation for workshop activities, assignment preparation and research. These sessions constitute an average of 132 hours per module.

Description of Distinctive Features and Support

This programme is designed to support the FBL Learning Teaching and Assessment (LTA) Strategy. The overarching aim of the strategy is:

"to maximise student achievement (both in relation to award classification and to employability) and student satisfaction whilst maintaining appropriately rigorous academic standards and supporting the university's vision of becoming an inclusive and welcoming learning community, actively engaged with global society and based on values of mutual respect, critical engagement and self-awareness."

The LTA Strategy identifies the following objectives:

- 1. Further development of intellectually vibrant, highly reflective, mutually respectful and diverse student and staff learning communities within the Faculty
- 2. Increase in the use of links with the world external to UWE (including professional accreditation where possible) to inform curriculum design and delivery and provide lifelong learning opportunities
- 3. Provision of an effective, efficient and supportive infrastructure for learning (organisation and management of programmes, student advice, communication with students etc)
- 4. Appropriate design and flexible delivery of curricula which provide an intellectually stimulating learning experience enabling students to develop as highly employable and internationally aware lifelong learners
- 5. Provision of effective support for students making the transition to learning at UWE
- 6. Provision of effective and ongoing developmental support for all staff
- 7. Use of effective strategies for assessment for learning

The LTA Strategy encourages students to take responsibility for their learning and become independent, as well as interdependent, learners. Student learning is facilitated through a combination of face-to-face and online interaction that integrates a range of learning and teaching approaches (including, for example, lectures, tutorials, group discussions, presentations, visiting speakers, and external engagement). Students are encouraged to become active participants, both in their own learning and in the creation of knowledge, and to develop their critical and reflective capacity. Ultimately the aim of the programme is to enable students to progress to a high level of autonomy in the learning and professionalism and the view learning as a process of continuing professional development. Learning activities and resources apply theoretical knowledge and international research to practical situations with reference to real examples and

Part 7: Student Learning

a wide range of contexts. Further, the dissertation requires students to explore a substantial issue using appropriate concepts, frameworks and methodologies. Feedback from students is critical to the successful implementation of the LTA Strategy.

In implementing this strategy, an appropriate blend of learning approaches and opportunities have been integrated throughout the programme with an overall emphasis on student participation. This blend consists of face to face learning in workshop groups supported by on-line learning via Blackboard, together with exposure to real life examples through case studies, debates and invited speakers. Workshops are designed to encourage the development of the independent research, analytical and reflective skills required for successful completion of a postgraduate level course. Students are required to complete preparatory reading, study of set case materials or other preparatory work in advance of each workshop. From each workshop, the student will be expected to have developed a general mastery of the subject under consideration. In addition, students will be expected to contribute to structured analytical discussions and raise, critically assess and defend different points of view on controversial issues in class. Analytical skills and a critical approach are encouraged. A strong emphasis is placed on independent engagement with the materials and the questioning of assumptions. The activities covered in workshops may include lectures, seminars, tutorials, group discussions, group exercises, role play, case studies, presentations by students and staff, in groups or individually, debates and other activities such as films or video and online discussions. Academic staff teaching on the programme are all active researchers and incorporate aspects of their own research in their teaching.

All modules make use of Blackboard for web enhanced delivery to at least the recommended minimum standard and for communications with students. Module teaching outlines are provided for all modules which provide details of learning and teaching resources in accordance with the university's reading strategy. Additional support is provided through the library and an extensive student computing network.

In order to assist with the development of research skills, students are directed to the University Library online resources as well as a specially developed online learning unit which supports the Research Methods module and the Dissertation.

The programme provides opportunities for both formative and summative assessment and feedback. Formative assessment and feedback may take a number of forms, including self assessment and peer assessment. Summative assessment may include essays, reports, literature reviews, case studies, projects, dissertations and oral presentations. All assessment criteria conform to UWE Academic Regulations and Procedures and module specifications provide details of assessments.

STUDENT SUPPORT AND GUIDANCE

Student support for all issues relating to the content, delivery and assessment of modules is provided by Module Leaders and for more general academic and professional concerns by the LLM Programme Leader and LLM Programme Managers. In addition, students can seek support from the Faculty Learning Support Tutor to address specific study skills issue.

Student Services Student Advisors are available to provide confidential advice where necessary on matters such as regulations, extenuating circumstances procedures, progression as well as personal issues such as ill health, time management etc. This services is supported by wider University provision and online resources.

Careers Guidance and a wide range of support in relation to employability is provided centrally by UWE Careers. Students seeking employment opportunities during their studies have access to the university's Job Shop.

All students are invited to participate in an Induction programme at the start of their studies. This includes specific guidance and orientation sessions for international students. The university's web pages provide access to detailed and up to date information covering all aspects of academic and administrative procedures and support. The LLM handbook provides details of a range of issues relating to all LLM programmes.

An important part of the programme is the involvement of students. Two or three student representatives

Part 7: Student Learning

are elected each year to serve on the Student Representatives and Staff Forum (SRSF). These are held every term to discuss issues raised by students in relation to their experience of studying on the programme and at UWE in general. Issues raised are discussed in an open and friendly atmosphere and students are encouraged to express their opinions. Issues raised are taken forward for action by the LLM Programme Leader and LLM Programme Managers. Where appropriate they may be discussed at Departmental Committees or Faculty Academic Standards and Quality Committee.

Support to students with disability is offered both at Faculty level under the remit of the Leader of WP, Disability and School Liaison and centrally through the university's Disability Resource Centre.

In addition to the above, the university's Student Services offer a range of services and support including:

- University Health Centre
- Advice on careers, employability and finding student and graduate vacancies
- Community Volunteer Programme
- The Living Centre for support on faith and spiritual matters
- Global Student Support to assist international students
- Help with visas

Part 8: Reference Points and Benchmarks

Description of **how** the following reference points and benchmarks have been used in the design of the programme:

- QAA Framework for Higher Education in England, Wales and Northern Ireland (August 2008)
 The educational aims and learning outcomes of the programme reflect the requirements of the QAA Framework for a qualification at Master's level. The programme has been designed to incorporate the QAA's Master's degree characteristics (March 201). There is no QAA subject benchmark statement for Law at master's level.
- UWE Vision and Mission

The educational aims and learning outcomes support the UWE Vision and Mission by focusing in particular on the development of skills which foster innovation, sustainability, internationalisation, diversity and employability. The programme aims to address the need for an understanding of Environmental and Sustainable Development law in a global context, focusing on both national and international legal developments and is designed to appeal to a diversity of students, recognising their differing needs.

Faculty Strategies and Policies

The FBL Employability Strategy, LTA Strategy and the Blended Learning Framework are implemented in the learning, teaching and assessment strategies adopted.

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of individual modules can be found in module specifications, available on the University's website.

Programme monitoring and review may lead to changes to approved programmes. There may be a time lag between approval of such changes/modifications and their incorporation into an authorised programme specification. Enquiries about any recent changes to the programme made since this specification was authorised should be made to the relevant Faculty Academic Registrar.

The University's Disability Statement

The University philosophy is to integrate provision for disabled students within the services offered to all

students at the University and so remove the barriers that can be disabling. It aims to provide an inclusive educational experience and so to respond fully to the spirit as well as the letter of current legislation (www.uwe.ac.uk/csa/disability.hmtl).
