Section 1: Key Programme Details

Part A: Programme Information

Programme title: Criminology with Psychology {Foundation} [Frenchay]

Highest award: BSc (Hons) Criminology with Psychology

Interim award: BSc Criminology with Psychology

Interim award: DipHE Criminology with Psychology

Interim award: CertHE Criminology with Psychology

Awarding institution: UWE Bristol

Affiliated institutions: Not applicable

Teaching institutions: UWE Bristol

Study abroad: Yes

Year abroad: Yes

Sandwich year: Yes

Credit recognition: No

School responsible for the programme: CHSS School of Social Sciences, College of Health, Science & Society

Contributing schools: Not applicable

Professional, statutory or regulatory bodies: Not applicable

Apprenticeship: Not applicable

Mode of delivery: Full-time, Part-time, Sandwich

Entry requirements: For the current entry requirements see the UWE public website.

For implementation from: 01 September 2023

Programme code: M98F00

Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: Criminology is a vibrant, multifaceted and multidisciplinary subject. The BSc (Hons) Criminology with Psychology programme at UWE has been designed to provide an intellectually stimulating and relevant learning experience that will produce graduates who are ready and able to realise their full potential, make a positive contribution to their communities, workplaces and society and play their full part in a global society and knowledge economy. The BSc (Hons) Criminology with Psychology with Foundation Year is a four year full time, or five year Sandwich, or eight year part time programme. The programme aims to develop in its graduates the skills, knowledge, attitude and confidence to create, critique and make a difference to the world beyond university, and graduates who are prepared for lifelong learning, personal development and success in whatever field they choose to work and participate. The core curriculum of the programme, in particular, is designed with this objective in mind. The programme at UWE is distinctive for supplying students with placement opportunities across the criminal justice field, with research led teaching clearly embedded into the course as well as practitioner/professional based guest lectures.

Educational Aims: The BSc (Hons) Criminology with Psychology programme has the option to be entered via a thematically organised introduction to Social Sciences foundation year. It aims at Level 3 to provide students with a grounding in social science academic and research skills and with a foundation in social, political, criminological and psychological concepts, theories and tools as they pertain to the disciplines of Criminology and Psychology. At Level 4, its aim is to provide students with a comprehensive introduction to the core disciplines of Criminology and Psychology, whereas at Levels 5 and 6 the programme is designed to help students develop an in-depth and detailed understanding of Criminology with additional, appropriate, Psychology content. The Criminology with Psychology programme aims to highlight how multi-disciplinary (i.e. incorporating sociology, psychology, media

studies, social policy, politics and philosophy) and applied (i.e. the impact that criminology has on criminal justice policy, practice and discourse) the subject area is and therefore how it directly links to employment opportunities.

In particular the programme aims to:

Introduce students to the multidisciplinary nature of Criminology and Psychology as defined as part of a wider Social Science framework (the foundation year).

Provide a foundation in criminological knowledge that is relevant to a career in the criminal justice system.

Develop an understanding of the relationships between criminological theory and its application to a range of experience and behaviour – including of offenders, victims, and agents of criminal justice.

Clearly demonstrate how Criminology and Psychology apply to and interact with the real world, through a series of teaching innovations (TEL) and practical/practice based initiatives (placements, work based learning and invited speakers).

Impart a broad range of skills, discipline specific, cognitive and general transferable skills, which provide the student with a sound basis for further study.

Present multiple perspectives in criminology in a way that fosters critical comparison and evaluation.

Offer a foundational pathway at Level 3 as part of the University's widening participation strategy.

Provide for students a generally enriching and interesting educational environment and experience; promote critical, creative and analytical thinking; and assist students to realise their potential.

Acknowledge and accommodate the wide diversity of student needs and interests through the provision of a flexible programme, which enables students to choose between a variety of modules, and which fosters their individual development.

Encourage scholarship and foster the virtues of objectivity, reflection, judgement, critical study, and independent learning (individual and collaborative).

Provide a general foundation for the world of work by equipping students with the broad range of skills, understanding and knowledge employed in a wide range of vocations.

Programme Learning Outcomes:

On successful completion of this programme graduates will achieve the following learning outcomes.

Knowledge and Understanding

- A1. Criminology as a multidisciplinary subject emphasising its links to other cognate disciplines including psychology, politics, social policy, law, media studies, sociology, biology and psychiatry
- A2. The core domains and sub disciplines within Psychology and how they link to criminology
- A3. The major theoretical perspectives within both Criminology and Psychology, as well as their applications to specific real world situations and problems
- A4. The UK criminal justice system in both national and international context
- A5. Research design, research methods and data analysis – including measurement techniques, psychometrics, quantitative and qualitative data analytic approaches, ethical and moral issues, codes of conduct
- A6. The relationship between theory, evidence, practice and methods in legal and criminological research
- A7. The nature, origins and development of key institutions of criminology, law enforcement, criminal justice and psychology
- A8. A knowledge of research findings, and an understanding of the application of theory to a range of domains of study in Criminology and Psychology

Intellectual Skills

- B1. Adopt multiple perspectives and critically analyse the relationships between them
- B2. Reason scientifically, understand the role of evidence and make critical judgements about arguments in criminology, psychology and through their interaction
- B3. Recognise and evaluate problems and plan strategies for their solution
- B4. Synthesise information from a range of different sources in ways which show originality and creativity in the student's work
- B5. Show insight in applying complex theoretical concepts to real-world problems and situations
- B6. Appreciate the assumptions and reasoning underlying the analysis of statistical and qualitative data

Subject/Professional Practice Skills

- C1. Apply and integrate multiple perspectives on criminological and psychological issues
- C2. Recognise distinctive criminological and psychological approaches to particular problems
- C3. Pose, operationalise and critique research questions
- C4. Carry out empirical studies involving a variety of methods, including experiments, observation, psychometric tests, questionnaires, interviews and field studies
- C5. Analyse data using both quantitative and qualitative methods
- C6. Initiate, design, conduct and report an extensive piece of independent empirical research
- C7. Show awareness of ethical principles and approval procedures and act in accordance with these
- C8. Form independent opinion through the reading and discussion of empirical, policy and theoretical material
- C9. Appreciate the applicability of subject knowledge and skills to the world of work

Transferable Skills and other attributes

- D1. Written, oral and visual communication skills, including clear presentation of research procedures, academic debates, and their own arguments
- D2. Computer literacy and ITC skills – competence and confidence in using a variety of software
- D3. Communicate ideas and research findings, both effectively and fluently, by written, oral and visual means
- D4. Comprehend and use numerical, statistical and other forms of data, particularly in the context of presenting and analysing complex data sets
- D5. Be computer literate and confident in using word processing, database and statistical software
- D6. Search for, retrieve and organise information from the full range of printed and online sources
- D7. Solve problems by clarifying questions, considering alternative solutions and evaluating outcomes
- D8. Make evidence-based, informed critical judgements and evaluations
- D9. Engage in effective teamwork, being sensitive to, and reacting appropriately to contextual and interpersonal factors in that influence behaviour in groups and teams
- D10. Undertake self-directed study and project management, in order to meet desired objectives
- D11. Take charge of their own learning, and reflect on and evaluate personal strengths and weaknesses for the purposes of future learning and development
- D12. Engage in academic debate in a professional manner

Part B: Programme Structure**Year 1**

Part time students student must take 60 credits from the modules in Year 1.

Full time and sandwich students must take 120 credits from the modules in Year 1.

Year 1 Compulsory Modules (Full Time and Sandwich)

Full time and sandwich students must take 120 credits from the modules in Compulsory Modules (Full Time and Sandwich).

| Module Code | Module Title | Credit |
|--------------------|--|---------------|
| UZQRUX-30-0 | Essentials of Academic Practice 2023-24 | 30 |

Part C: Higher Education Achievement Record (HEAR) Synopsis

The BSc (Hons) Criminology with Psychology degree is designed to promote a contemporary, multi-faceted and applied approach to the study of Criminology with Psychology. Criminology focuses on definitions and understandings of crime as well as criminal justice from a range of perspectives (victims, offenders, the state, and institutions). Criminology, especially the criminology taught at UWE, focuses on theoretical learning as well as the application of this knowledge to real world situations. Students will learn transferable skills throughout their degree and will experience a range of learning (online/offline), teaching (lectures, seminars, workshops and TEL) and assessment (essays, exams, case studies, presentations) techniques. Consequentially, a Criminology with Psychology degree opens graduates up to a range of graduate level opportunities in the criminal justice system and related charitable sectors.

Part D: External Reference Points and Benchmarks

The QAA subject benchmark statements for Criminology, as well as the Psychology Benchmarks, have informed the design of the programme from the outset. The benchmarks, and the external examiner, were consulted during the planning process and at each stage of the design and development of the programme. They have influenced the selection of the educational aims and learning outcomes against which the teaching, learning and assessment processes have been specified.

The UWE Bristol Strategy 2020 are embedded in the educational aims and learning outcomes of the programme. The University's commitment to promoting a diverse, integrated and flexible learning experience is reflected in the rich range of teaching, learning and assessment methods and strategies in evidence on the programme.

The research, scholarly and knowledge exchange activities and interests of staff have shaped the wide ranging sociological provision at all levels of the programme. In particular the influence is evidenced by the varied and stimulating choice of option modules at levels 2 and 3.

Part E: Regulations

Approved to University Regulations and Procedures.
