### **PART C: Higher Education Achievement Record (HEAR) Synopsis**

Students are challenged in their ability to communicate, analyse and problem-solve, developing their intellectual capacity focusing on practical, enterprising and future-facing application within the legal arena and elsewhere. This course provides a comprehensive business education, equipping students with the business knowledge and skills for a successful career in a complex business world. It offers the broadest range of modules, ensuring a breadth of knowledge to support students in their future career aspirations. Successful completion of the programme requires students to be independent, analytical and critical. It requires them to work effectively within diverse teams and demonstrate strong information literacy, a spirit of enquiry and to be reflective in practice. It will also require a broad theoretical and practical knowledge of a broad range of business functions and the broader international business environment.

Employer interaction and feedback:

Employers and alumni are regularly consulted to ensure the currency and relevance of the programme

QAA subject benchmark statements

The development of the programme used a range of sources and methods in order to evaluate and improve the quality and standards of students' learning:

Initiatives and Groups:

The university, the faculty and the department have procedures and initiatives in place with the aim regularly and frequently to evaluate and improve students learning. These include regular meetings and identification of concrete action points relating to curriculum design at the Faculty's Learning and Teaching Enhancement Group, staff away days and meetings and initiatives led by the Faculty's Academic Success Centre.

The outcomes and findings of these have informed the design of the programme and its modules and will continue to do so.

Research Informed Scholarship:

Staff is encouraged to utilise own research and that of colleagues to inform teaching, both in terms of content and pedagogic approach. To this end, subject specific teaching and learning teams meet to discuss research and teaching and inform curriculum design that way.

**PART D: EXTERNAL REFERENCE POINTS AND BENCHMARKS****Stakeholder Input and Feedback:**

Student feedback was obtained and evaluated on the one hand via the university's governance system including Student Staff Representative Fora, Departmental Committees and Academic Standards and Quality Committee, but also through the National Student Survey and the Annual UWE Student Union Representation Report for the Department of Law.

Employers and alumni are regularly consulted to ensure the currency and relevance of the programme. Their expectations regarding relevant graduate competencies were and are continually taken into account in the curriculum design.

**Mapping of Assessments and of Graduate Skills Teaching:**

The programme team benefited from the recent mapping of LLB assessment practice and the ongoing mapping of graduate skills teaching on the LLB. The tutor leads for these two exercises were closely involved in the design of the programme.

**Consultation with the Professional and Legal Skills team:**

The programme discontinued the previous strand of free standing Professional and Legal Skills modules. The knowledge and experience of those modules' leaders and their teams, and the experience gained through running these modules, significantly informed the design of the programme.
