## Part 3: Teaching and learning methods

**Teaching and learning methods:** Contact will be 3 hours per week based on a combination of Lectures and Tutorials.

Significant formal contact between lecturer and students will be achieved through lectures and tutorials each week. The lectures will introduce new material and students will be expected to attempt appropriate practice examples on blackboard. In tutorials supplementary examples will be reviewed and individual student problems will be addressed.

Students will also be expected to regularly record their attempts at exam standard questions in an assessed Portfolio.

Lectures and tutorials = 12 weeks x 3 hours = 36 hours

Independent study (essential reading and tutorial preparation) = 116 hours

Total hours = 150

**Module Learning outcomes:** On successful completion of this module students will achieve the following learning outcomes.

**MO1** Calculate, and evaluate the use of, a company's weighted average cost of capital (WACC) and critically evaluate the impact of its capital structure on that WACC

**MO2** Calculate appropriate measures of risk and evaluate the impact of risk when appraising projects

**MO3** Critically assess the determinants of share values and calculate values in a variety of circumstances

**MO4** Use derivatives to hedge against price risk and evaluate the most suitable hedges under various circumstances

**MO5** Think critically, examining problems and issues from a number of perspectives, challenging viewpoints, ideas and concepts, and making well-reasoned judgements

Hours to be allocated: 150

#### **Contact hours:**

Independent study/self-guided study = 114 hours

Face-to-face learning = 36 hours
