

## CORPORATE AND ACADEMIC SERVICES

## MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Evidencing Work Based Learning				
Module Code	UZWRGG-20-3		Level	3	Version 2.1
Owning Faculty	Health and Applied Sciences		Field	Acute and Critical Care Adult Nursing	
Contributes towards	Programmes within the Faculty of Health and Applied Sciences with the agreement of the programme manager				
UWE Credit Rating	20	ECTS Credit Rating	10	Module Type	Project
Pre-requisites	Working in a health and social care role		Co- requisites		
Excluded Combinations			Module Entry requirements	If offered as CPD or stand alone	
Valid From	September 2013		Valid to	September 2019	

## CAP Approval Date 21 November 2013

Part 2: Learning and Teaching				
Learning Outcomes	On successful completion of this module students will be able to:			
	<ul> <li>Appraise relevant knowledge and skills to support the work-based learning</li> <li>Critically analyse situations which informs the development of work-based learning</li> </ul>			
	<ul> <li>Reflect on own responsibilities and management of learning via a personal development plan and agreed learning contract</li> </ul>			
	<ul> <li>Critically review the context of change and the outcomes of a range of solutions or actions taken in the workplace</li> </ul>			
Syllabus Outline	The syllabus is dictated by the nature of the work based learning. The range of work based learning projects that can be undertaken may be linked to professional competencies articulated in professional practice modules, for example; the Standards for Pre-registration Education (Nursing and Midwifery Council) or the Standards of Proficiency (Health and Care Professions Council). Students will be expected to demonstrate that the scope of their project lies within the identified and relevant standards.			
Contact Hours	Self-directed learning			
Teaching and Learning Methods	There is little teaching within this module – the emphasis is very much upon stude learning undertaken in practice and facilitated by an academic supervisor, and who appropriate, a workplace mentor.			
	Students will identify an area of learning need or interest based on their performance in practice. The methods of learning will be identified in an individually negotiated learning contract.

Reading Strategy	There are no set reading about th covering such su	e generic skill	ls required for	Work Based	Learning will	be suggested,

Part 3: Assessment					
Assessment Strategy	The assessment strategy for individual students depends on the learning contract negotiated with the facilitator. The assessment states that it must be equivalent to a project of 4000 words because some options of assessment will not take the form of written work in the form of an orthodox essay or report. Other options include				
	A portfolio of evidence				
	A presentation with associated reflection				
	<ul> <li>Production of a patient/service user information leaflet or video with associated reflection.</li> </ul>				
	• A paper or letter prepared for publication with associated reflection.				
	Clearly where there are different options for assessment there will need to be guidelines so that students and academic staff can have confidence that assessments are comparable. Assessment strategies need to meet three criteria.				
	1. That the negotiated learning outcomes are met				
	2. That the correct academic level is reached				
	3. That the learning, including assessment, represents 200 hours of study, nominally.				

Identify final assessment component and element	Compo	nent A		
% weighting between components A and B (Star	A:	B:		
First Sit				
Component A (controlled conditions) Description of each element			Element weighting (as % of component)	
1. A work based learning report equivalent to 4,000 words		100%		

Resit (further attendance at taught classes is not required)				
Component A (controlled conditions) Description of each element	Element weighting (as % of component)			
1. A work based learning report equivalent to 4,000 words	100%			

If a student is permitted an **EXCEPTIONAL RETAKE** of the module the assessment will be that indicated by the Module Description at the time that retake commences.
