

MODULE SPECIFICATION

Part 1: Information						
Module Title	Entre	ntrepreneurial Decision Making				
Module Code	UMS	CTS-15-M	Level	Μ		
For implementation from	Septe	September 2016				
UWE Credit Rating	15		ECTS Credit Rating	7.5		
Faculty	Business and Law		Field	Strategy and International Business		
Department	BBS:	3S: Business and Management				
Contributes towards	MSc	Sc Marketing				
Module type:	Project					
Pre-requisites		None				
Excluded Combinations		None				
Co- requisites		None				
Module Entry requirements		N/A				

Part 2: Description

This module provides an introduction to entrepreneurship with a focus on the identification, evaluation, and exploitation of opportunities. It examines the processes and behaviours involved with an emphasis on entrepreneurship as means of adding value and achieving competitive advantage in a variety of settings, from new venture creation to the development of an entrepreneurial mind-set in established firms.

The teaching of the module is divided into four themes:

- 1. *Entrepreneurship for Competitive Advantage* provides an introduction to entrepreneurship policy, and the means by which it is encouraged and supported. This theme will acquaint students with the entrepreneurial mind-set as well as examine how entrepreneurs approach the market environment.
- 2. *Identifying Opportunities* examines the development of successful business ideas. You will explore methodologies to develop an effective business model based on recognizing opportunities and generating ideas, carrying out feasibility analysis as well as industry and competitor analysis.
- 3. *Maximising Opportunities* examines the move from concept or idea stage to that of an entrepreneurial firm. This theme involves laying the foundations for a new venture, assessing its financial strength and viability as well as identifying funding options.
- 4. Managing and Growing an Entrepreneurial Firm considers issues such as marketing, intellectual property in the first instance, followed by strategies for growth. Students will also learn how to apply entrepreneurial thinking and behaviours to any business situation. This entails identifying the critical success factors that relate to a given opportunity and the means by which that opportunity can be maximized.

Part 3: Assessment							
Formative assessment is provided from the start of the module though the class exercises, discussion and through the in-class case based analysis. As students will prepare and lead discussion, they will benefit from class-wide debate and commentary and feedback from the tutor.							
Summative assessment takes place at the end of the module through a project on entrepreneurial vision and the critical evaluation – from formation to evaluation stage – of a potential entrepreneurial opportunity

Part 4: Teaching and Learning Methods							
Learning Outcomes	On successful completion of this m	odule students will be able to:					
	 Articulate an entrepreneurial vision and the action required to realise that vision. (Component A) 						
	• Demonstrate a systematic understanding of the role and nature of entrepreneurship in the identification, evaluation and exploitation of opportunities. (Component A)						
	Demonstrate a systematic understanding of the management of an entrepreneurial firm. (Component A)						
Critically evaluate new venture opportunities. (Component A)							
	Teaching and learning methods						
	• Teaching Strategy – As this module examines both the theory and practice of entrepreneurship, the teaching will involve a mix of interactive lectures (focusing on theory, academic insight, and practical business requirements) along side discussion of case studies and entrepreneurs (practical application). In addition students will be expected to contribute using their own research material and experience.						

	 Students will gain the opportunity to interact with leading entrepreneurial practitioners through the Distinguished Executive Address series. 					
	• Learning Strategy – Students will need to complete the necessary preparatory reading and exercises prior to class, along with studying any set case material (Essential Reading). Their learning will be enhanced by class discussion. Students will be expected to put forward, rationalise, substantiate and defend points of view

Reading List	Reading Strates	<u>37</u>				
	 Access and Skills – All students will be encouraged to make full use of the print and electronic resources available to them through membership of the University. These include a large range of journals (both print and electronic) and a wide variety of resources available through web sites and information gateways. The University Library's web pages provide access to subject relevant resources and services, and to the library catalogue. Students will be presented with opportunities within the programme curriculum to develop their information retrieval and evaluation skills, in order to identify appropriate resources effectively. Blackboard – This module is supported by Blackboard, where students will be able to find all necessary module documentation, to include guidance on Further 					
	Reading within the module handbook/outline. Direct links to information resources will also be provided from within Blackboard.					

 Essential Reading – Materials that are deemed Essential Reading (required) for this module will be given to the students. These materials may be in the form of a textbook and/or a module resource pack, the latter of which may be printed or electronically retrievable via Blackboard or from the library directly. This Essential Reading is subject to change – possibly at short notice – but an example of recent Essential Reading is subject to change – possibly at short notice – but an example of recent Essential Reading is subject to change – possibly at short notice – but an example of recent Essential Reading is subject to change – possibly at short notice – but an example of recent Essential Reading is subject to change – possibly at short notice – but an example of recent Essential Reading is to ensure students are familiar with current research, classic works, and other material specific to their interest from the practitioner and academic literature. Suggested Further Reading by topic will be indicted in the module handbook/outline provided at the start of the module. However students are also expected to employ their own initiative and discretion in selecting appropriate Further Reading that will suport their study. It is expected that students will engage with the academic journal literature on this subject, but it is likely that students will find material of particular relevance in some of the more practitioner focused material found in publications such as the <i>Harvard Business Review</i> and <i>MIT Sloan Management Review</i>. Access to all these publications is available through the life span of the module most are available electronically. Indicative Reading List – To supplement the guidance on reading given above, the following list is offered to provide students, potential students, validation panels and accrediting bodies with an indication of the type and level of information that those enrolled on the module may be expected to consult. As such, its currency may wane during the li	
 Macmillan. Further Reading – Further Reading will be required to supplement the set textbook and other provided readings (see above). The purpose of this Further Reading is to ensure students are familiar with current research, classic works, and other material specific to their interests from the practitioner and academic literature. Suggested Further Reading by topic will be indicted in the module handbook/outline provided at the start of the module. However students are also expected to employ their own initiative and discretion in selecting appropriate Further Reading that will support their study.
