

CORPORATE AND ACADEMIC SERVICES

MODULE SPECIFICATION

Part 1: Basic Data						
Module Title	Engaging in Critical Business Enquiry (Accounting, Economics and Finance)					
Module Code	UMCD9M-30-1		Level	1	Version	1.1
Owning Faculty	FBL Field Business and Managemen Disciplinary			gement Cross		
Contributes towards	BA (Hons) Business Studies/Management with Accounting & Finance; BA (Hons) Business Studies/Management with Economics; BA (Hons) Banking & Finance					
UWE Credit Rating	30 Credits	ECTS Credit Rating	15	Module Type	Standard	I
Pre-requisites	none		Co- requisites	none	-	
Excluded	UMCD9K-30-1;	UMCD9L-30-1	Module Entry			
Combinations	UMCDDL-30-1		requirements			
Valid From	September 2012		Valid to			

Part 2: Learning and Teaching				
Learning Outcomes	 On successful completion of this module students will be able to: Understand the role and relevance of business enquiry to student's academic and professional context, including the student's own future professional ambitions (Components A & B1) Demonstrate the ability to identify, analyse and evaluate sources of business information, considering their origins, context and content (Components A ,B1 and B2) Understand the context of business and management research and other sources of business information, and their relative roles in contributing to business knowledge, with respect to their programme of study (Components B1 & B2) Have started to develop critical thinking skills - constructively critiquing the research of others, identifying strengths and weaknesses in technique, analysis and conclusions. (Components B1 & B2) Be able to produce different types of written and oral work appropriate to the programme of study and observing the conventions of academic writing (Components A, B1 and B2) Further develop and demonstrate skills in note-taking, summarising, paraphrasing and referencing (Component B2) In addition the educational experience may explore, develop, and practise <u>but not formally assess</u> the following: 			

	 Time management skills Resource identification and management skills
	 Effective communication using written and verbal media
	Independent and interdependent (group) working
Syllabus Outline	Proposed lecture programme: Lectures will follow address the following broad topic areas, though context and content will be driven by the particular cluster
	 Introduction The importance of research to business and the importance of enquiry & academic skills to students' employability Developing an evidence base for problem solving and decision making in organisatons Understanding business research An introduction to approaches to enquiry - organizational research in its broadest context The literature review role and process Being ethical in business research/ the modern business school Evaluative skills, tools and techniques Planning, researching and presenting information An academic writing master class Evaluating Business Research
	Evaluating Business Research Interpreting and evaluating quantitative research
	 Interpreting and evaluating qualitative research
	 Interpreting and evaluating critical management research approaches <u>Review & Revision</u>
	Underpinning skills sessions will address the following related syllabus:
	1. Demonstrate and develop the ability to identify and evaluate sources of information
	 Use the UWE IT and library systems, communicate electronically and use a variety of computer software packages relevant to the programme of study including an early introduction to research software (SPSS etc.)
	 To identify and access a variety of resources available at UWE both in print and electronically relevant to the programme of study
	 Evaluate information sources and make judgments about their quality. Record information from a variety of sources including lectures, seminars, texts and internet
	 sources Develop a questioning approach in reading texts and be able to take notes, paraphrase, and reference and quote correctly.
	 Interpret published empirical evidence (both qualitative and quantitative) relevant to their programme of study
	 Understand the differences in a variety of contrasting theoretical approaches relevant to the student's programme of study Identify basic strengths and weaknesses in the research of others: in technique,
	analysis and conclusions.
	2. Produce different types of written and oral work appropriate to the programme of study observing the conventions of academic writing
	 Plan for and engage in relevant forms of assessment and be capable of distinguishing between types of assessment
	Write and present ideas clearly and succinctly, in appropriate style
	 Construct coherent arguments and articulate ideas clearly Demonstrate an ability to work effectively in groups on project work.
	 Presenting and defend arguments and ideas orally and in writing.
	Understand the nature of collusion and plagiarism, and the implications of engaging

	 in these activities To check assignments to ensure that content is properly referenced and ideas are attributed to contributing authors Reflect on, record and demonstrate skills through a range of portfolio activities
	3. Describe aspects of the research process relevant to a chosen field of study
	 Understand the variety of research techniques available and their theoretical underpinnings Identify appropriate analytical techniques and calent techniques appropriate for
	 Identify appropriate analytical techniques and select techniques appropriate for research in a field of study and defend this decision.
	 Identify the nature and sources of information and data needed to write a research literature review
	 Demonstrate awareness of issues relating to the rights of other researchers, of research subjects and of others who may be affected by the research
Contact Hours/Scheduled Hours	Module delivery will be based on 6 hours of scheduled learning and teaching activities per teaching week. This will consist of: - A weekly one hour lecture for the delivery of core syllabus concepts
	- A two hour facilitated enquiry/problem based learning lectorial
	 Two one hour skills development workshops with tutor feedback and support A one hour tutorial (50 students) engaging in debate relevant to their field of study
	Extensive use will be made of Blackboard for weekly guided independent study work; to support students' learning; to facilitate interactions between students e.g. for group project work and to provide feedback with quizzes and forums.
	Students will also be directed towards the University Library online Study Skills resources for the development of skills appropriate to the level and style of the module. In addition a number of e-learning resources will also be used:
	The MySkills Study Skills website at http://www.uwe.ac.uk/library/resources/hub/
	[Of particular interest will be the pages on 'Being a student at level 1'
	http://www.uwe.ac.uk/library/resources/bbs-study-skills/student/level1.htm
	 Skills4study (s4s) as part of the MySkills resource [Academic reading and note making; Critical thinking; Academic writing; Referencing and plagiarism]
	 iSkillzone http://iskillzone.uwe.ac.uk
	[workshops for information retrieval, referencing, evaluation skills and literature
	reviewing <u>http://www1.uwe.ac.uk/library/help.aspx</u>]
	 Learn Higher <u>http://www.learnhigher.ac.uk/Students.html</u> Espresso Maths <u>http://www.cems.uwe.ac.uk/mslc/</u>
	• Espresso mains <u>http://www.cems.uwe.ac.uk/msic/</u>
Teaching and Learning Methods	Overall this module will develop a critical, informed, scholarly and appreciative spirit of enquiry among FBL students that is applicable in both academic and professional contexts. The context for this module focuses on a range of contemporary business issues in both British society and the wider global environment. Through this, students are supported in asking critical questions, and appreciating the academic tools available to address these issues.
	 Key themes covered are contemporary business issues such as: The changing nature of work and employment Sustainability
	Globalisation and internationalisation
	 Political and Social Change Patterns of Inequality and Social Mobility
	 Patterns of inequality and Social Mobility The Knowledge Economy

	These broad themes offer an opportunity for students to engage in current, critical and challenging business debates. At the same time, the module is designed to establish the skills required to perform academically over the course of a university degree.						
	The module will be delivered over 12 weeks with a minimum of 6 hours contact time per week.						
	Scheduled learning						
	Lectures will be 1 hour large group taught sessions. These will be supported by two hour lectorials where students will be supported in developing knowledge and physical materials necessary for subsequent skills sessions.						
	 2 Skills Sessions a week will take the form of: Workshops on specific effective learning topics e.g. Using the internet for research, essay skills, oral presentations, effective reading Seminars involving exercises using material relevant to common core modules. These exercises will allow students to practice such skills as summarising, note-taking, researching, exploring library resources, using secondary sources. Students may review past academic performance, explore ways to deal with barriers to successful learning, plan future academic development. These skills sessions will be directly linked to the portfolio assessment 						
	Independent learning Students will be expected to prepare in their portfolios in advance of each set of skills sessions – they will have the opportunity to complete a total of 24 activities over 12 weeks. Successful completion of 18 of these will represent 100% of their portfolio mark (75% attendance and completion). These activities are likely to involve around $1 - 2$ hours to complete representing 36hrs of structured independent study over 12 weeks.						
	This module has particular considerations to support students with any declared disability in any of its teaching. Particular staff in the group are experienced in providing additional or substitute materials or teaching modes for dyslexic students, if such needs are declared. We will liaise with the Student Disability Service in order to provide specialist support where needed.

chosen programme of study. Suggested Further Reading by topic will be indicated in the module handbook provided at the start of the module and in lectures, but the following books are indicative of recommended texts (all can be found in the UWE library).					
- Burns, T. Sinfield, S. (2008) <i>Essential study skills: the complete guide to success at university</i> , Sage					
 Hart, C. (1998) Doing a Literature Review: Releasing the Social Science Research Imagination. London: Sage Harrison, M. (2005) Introduction to Business & Management Ethics. Palgrave. 					
- Locke, L.F., Silverman, S.J. & Spirduso, W.W. (1998) <i>Reading and Understanding Research.</i> London: Sage.					
 Whitley, R. (2000) The Intellectual and Social Organization of the Sciences (second edition). Oxford: OUP. 					

	Part 3:	Assessment				
Assessment Strategy		The assessment methods are chosen to provide formative feedback and establish skills in the first year that are essential to second and final year progression.				
	A 2,500 word literature review (Component B, element 1) on a focused area of study will be developed as coursework over the module. As a first year project, one strand of skills sessions will focus upon this project, developing the skills required over the course of the module. Here students will be asked to develop their own questions around one of the key themes addressed in the module.					
	progressively over the during, each session. T individual study, interpe	A Personal Development Portfolio (Component B, element 2) will be compiled progressively over the skills sessions, prepared before, and receiving feedback during, each session. This is intended to build information gathering, writing, individual study, interpersonal study, and other essential skills. Reflections on a group project and presentation will be an element of this portfolio.				
	A short end-of-module VIVA VOCE (Component A) will be conducted under controlled conditions to test knowledge of core concepts required for level 2, and provide an opportunity to demonstrate early critical thinking skills under controlled conditions. VIVA will examine students' knowledge of the research process. All VIVA examinations will be undertaken with an examination team of two teaching staff.
