Part 4: Assessment

Assessment strategy: Formative assessment opportunities will be provided in workshops enabling students to assess progress and evaluate their achievement of learning objectives throughout the module.

The summative assessment opportunities are designed to assess the full range of student skills and knowledge. Summative assessments comprising:

Component A: Three-hour closed book examination which covers a wide range of subject matter and includes both computational and discursive questions. This will allow students to demonstrate their practical accounting skills for a range of different business activities as well as their ability to discuss and evaluate issues and developments in financial reporting.

Component B: 1500 word (maximum) professional report which addresses and analyses a topical issue in financial reporting. It will require students to research and evaluate the issue and produce a report for a given stakeholder. This is more suited to a discursive assessment method which allows students to discuss a range of issues and demonstrate a critical appreciation of the topic.

The structure of the assessments may be influenced by the requirements of

professional accounting bodies.

If a student is permitted a RETAKE of the module the assessment will be that indicated by the Module Description at the time that retake commences.
