Reading Strategy*

Essential reading: Students are expected to read one or more of the wide range of texts related to the issues covered in this module. Key texts will be listed in the module handbook and a copy of each is provided in the Library. Where texts are available as e-books, these will be available on the library website.

Further reading: All students are expected to read widely using the library catalogue, a variety of bibliographic and full text databases and Internet resources. Many resources can be accessed remotely. Guidance to some key authors and journal titles available through the Library will be given in the Module Guide and updated annually. Assignment reference lists are expected to reflect the range of reading carried out.

Access and skills: Students are expected to be able to identify and retrieve appropriate reading. Support is offered at L3 in the form of a library skills surgery to support students' work on methodology and their own research work. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library.

Indicative reading list: The list included as part of the module specification provides an indication of the type and level of texts which students might be expected to refer to as part of the work on this module. Current advice on additional reading will be found in the module handbook and on Blackboard.
