Syllabus Outline	<p>This module introduces students to the basics of PR and communication theory in a variety of contexts. The module begins with a historical overview of PR and related forms of communication through which its contemporary relevance can be understood. PR is then analysed through the prism of communication theory, where its significance as a particular mode of communication can be understood.</p>

	<p>The contemporary forms and practices of communication and PR are explicated with the use of examples drawn from differing organisational contexts – from public and governmental organisations to commercial businesses. We consider the distinct needs of different organisations, especially in respect of their clients, and how events impact on the strategies of these organisations. Through these considerations we outline key concepts and theories in communication, PR and marketing.</p>

Reading Strategy	<p><u>Essential reading</u> may be supplied as printed copies or made available electronically via Blackboard. Essential reading may include not just specific articles but set text books.</p> <p>In addition, students will be expected to undertake <u>further reading and viewing</u> from a list of texts and resources chosen especially to support the module, listed in the Handbook and revised annually, or from topical items identified during the run of the module. These will help develop students' understanding of the key topics and we will recommend they explore a selection in whole or in part. Most resources should be available in the campus library or electronically via the web but exceptionally they may not be and this will be indicated in the Module Handbook.</p> <p>Formal opportunities for students to develop their library <u>access and information skills</u> will be provided within the induction period and via the GDP. The portfolio will include examples of PR writing by the students, on which they will produce press releases and reflect on the work that they have produced.-</p> <p>Time will be given over in seminars for students to develop and discuss their essays and non assessed formative feedback from tutors and peers will be given.</p>
