Part 2: Learning and Teaching	
Learning Outcomes	On successful completion of this module students will be able to: • Identify a range of published sources relevant to the investigation of a specified area of study (Comp A:1/2) • Analyse the key issues raised in a range of studies within a specialised area incorporating theoretical, practice based and policy based sources (Comp A:1/2) • Recognise the competing perspectives apparent in arguments presented within a specified area incorporating theoretical, practice based and policy based sources (Comp A:2) • Identify new concepts within existing frameworks and approaches to a specified area of study (Comp A:2) • Follow a supported process of enquiry and study to pursue an identified goal (Comp A:2) • Take responsibility for their own learning accommodating new principles and understandings (Comp A:1/2)
Syllabus Outline	• Identifying ideas and issues which merit further investigation in a specified area within a programme • Searching for relevant academic and policy related sources in the area of

	study
	• Developing an area of enquiry and specifying questions for investigation
	• Developing a written argument in a specified area
Contact Hours/Scheduled Hours	• Teaching and learning will be managed through a range of strategies including lectures, seminars and tutorials. • Contact time will also be composed of virtual forms of communication using email discussion groups, virtual learning environments (VLEs) and other technology-aided means.
Teaching and Learning Methods	**Scheduled learning** includes lectures, seminars, tutorials, supervision. **Independent learning** includes hours engaged with essential reading, case study preparation, assignment preparation and completion etc. These sessions constitute an average time per level as indicated in the table below. Whole cohort events: 2 hours Seminars (including library workshops): 5 hours Directed study time: 63 hours Tutorials: 2 hours
Reading Strategy*	**Essential Reading** It is essential that students read one of the many texts on research methods available through the Library. Module guides will also reflect the range of reading to be carried out. **Further Reading** Students are expected to identify all other reading relevant to their chosen research topic for themselves. They will be encouraged to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. **Access and Skills** The development of literature searching skills is supported by a Library seminar provided within the first semester and by the Graduate Development Programme at level three. These level three skills will build upon skills gained by the student whilst studying at levels one and two. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library. **Indicative Reading List** The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via the module guide. Students will be encouraged to make full use of opportunities provided by the library to develop their study skills including both face to face training and online learning within the i-skill zone. **http://iskillzone.uwe.ac.uk/RenderPages/RenderRoom.aspx?Context=10&Area=8&Room=47**
Indicative Reading List	Fairbairn, GJ & Winch, C (2011) *Reading, writing and reasoning* 3rd edition Maidenhead: Open University Press Levin, P (2004) *Write great essays! A guide to reading and essay writing for undergraduates and taught postgraduates* Maidenhead: Open University Press Marshall, L & Rowland, S (2006) *A guide to learning independently* 4th edition

	Maidenhead: Open University Press
	Further literature will be provided once the precise area of study has been identified

Part 3: Assessment	
Assessment Strategy	Assessment and feedback are an integral part of learning and teaching and we prepare and encourage students to formatively self and peer assess as well as providing staff-led assessment opportunities. This will enable students to gain insights into their strengths and areas for development and identify areas to prioritise in their independent study. The article review and the literature review are designed to enable students to choose their field of study and to work carefully with a range of literature to support this. Students should address the same or a similar issue in both element A and element B. Students will be assigned a tutor to support them with their work on this module, and must spend at least 1 hour (or equivalent) in tutorials. **Assessment Criteria** A: Conceptual Domain (Core): The assignment demonstrates that the student can use and organise coherently relevant ideas, perspectives or theories to interpret and/or explore issues under study and in addition can critically analyse and/or evaluate those ideas, perspectives or theories. B: Literature Domain: The assignment demonstrates that the student can reference appropriate literature and utilise it in the development of analysis and discussion of ideas.
