Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ol style="list-style-type: none"> <li>1. Initiate, research, pitch, develop and prototype ideas for a fictional narrative appropriate for distribution in one or more media platforms (Component A, 1);</li> <li>2. Demonstrate and apply an understanding of specific industry practices, activities and roles through self-directed research, production work, project evaluation and contextual investigations (Component A, 1 &amp; A, 2);</li> <li>3. Understand, apply and evaluate drama, fiction or experience design principles, drawing upon relevant contextual knowledge about aesthetics, practitioners, histories, practices, theories and/or emerging creative industry trends (Component A, 1 &amp; A, 2);</li> <li>4. Demonstrate a clear consideration of the role of audience and experience in the development, construction and dissemination of work (Component A, 1 &amp; A, 2);</li> <li>5. Demonstrate an ability to communicate, negotiate and problem solve in the development of ideas, materials and project work (Component A, 1 &amp; A, 2);</li> <li>6. Support creative development and production effectively through logistical planning, engaging with relevant time management principles, ethical guidelines and health and safety regulations (Component A, 1 &amp; A, 2);</li> <li>7. Demonstrate effective use of online technologies and project management systems to communicate ideas, share resources and manage collaborative work (Component A, 1);</li> <li>8. Make work, which engages with the themes of narrative and experience and makes use of creative and media production techniques (Component A, 1).</li> </ol>

	<p>In addition the educational experience may explore, develop, and practise <u>but not formally discretely assess</u> the following:</p> <ul style="list-style-type: none"> <li>• Evaluate and constructively critique the work of peers with clear reference to a relevant industry practices, histories and creative principles.</li> <li>• Consider the relevance of fiction and multi-platform production as examples of possible areas of research in which they might locate their independently chosen study for the L3 Module <i>Filmmaking and Creative Media Dissertation</i>.</li> </ul>
Syllabus Outline	<p>This module embodies an exploratory approach to the production of fiction, drama and experience design in the contemporary media landscape. The study of narrative and experience design will provide a core underpinning of the module's delivery. It will examine theoretical perspectives of narrative and drama, including its appropriation into new multi platform structures and it will explore the art and craft of scriptwriting as applied to different media forms and within the context of experience design.</p> <p>A period of research will generate the raw materials for the creative development of students' production work across a range of media platforms. This will include a formal process of ideas development, scripting, research (for example, into technologies, locations and cast), proto-typing, pre-production, working on production in crews, production management, editing and audio post-production. This activity will create project work and supporting documentation for assessment in the production Portfolio.</p>
Contact Hours/Scheduled Hours	Module delivery will be based on approximately 114 hours of scheduled contact time.
Teaching and Learning Methods	<p>The module will be delivered through a combination of lectures, seminars, tutorials and technical workshops. Where relevant, seminars also include consideration and discussion of the formation of students' possible proposals for the L3 <i>Filmmaking and Creative Media Dissertation</i>.</p> <p>However, this module will also provide an opportunity to introduce more innovative blended teaching and learning methods to assist the development and production processes, such as online diaries. Teaching and learning materials will be made available through Blackboard and through other networked media where appropriate.</p> <p>Guest lectures from industry practitioners will also make an important contribution to the acquisition of students' understanding and skills.</p> <p>Formative assessment of idea development and media generation will take place via verbal feedback from tutors in script and experience development workshops. Added to this, students will build upon the practice of peer feedback developed within L1 and L2 modules. At key points in the module students will present their work to tutors and peers through informal and formal pitching sessions. Students will here receive formative feedback on both the content and the communication strategies used.</p>
Key Information Sets Information	Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.

**Reading Strategy**

Students will be expected to engage with a range of texts, including books and journals, audio-visual material and work presented in an interactive medium. **Essential reading** will be provided electronically via the Library's Digital Collections or as printed study packs.

In addition, students will be encouraged to explore titles held in the library on this topic. A list of **further reading** will be given in the module handbook and revised annually (see indicative reading list below). It is expected that the assignment bibliographies and reference lists will reflect the range of reading and viewing carried out.

It is important that students can identify, retrieve and evaluate appropriate texts. Building on **access and information skills** introduced at Level 1, students will be presented with opportunities through the curriculum to develop their research skills in order to make effective use of such resources. Additional support is available through UWEonline, including interactive tutorials on search skills and on the use of specific electronic library resources

**Indicative Reading List**

The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. CURRENT advice on additional reading will be available via the module handbooks or Blackboard pages.

**Part 3: Assessment**

**Assessment Strategy**

The summative assessment is as follows:

Component A, 1: Portfolio 70%

The Portfolio will contain the completed project, research, treatments, productions plans and referencing personal journals (equivalent to 3000 words). Detailed guidance as to the Portfolio materials is contained in the Module Handbook.

Component A, 2: Evaluative Statement (1500 words) 20%

The Evaluative Statement should critically contextualising the project and portfolio in relation to the histories, forms and/or futures of fictional narrative and experience.

Assessment Criteria	Relating to Learning Outcomes
1. Ability to initiate, research, pitch, develop and prototype ideas for a fictional narrative appropriate for distribution in one or more media platforms.	1

	2. Demonstrate and apply an understanding of specific industry practices, activities and roles through research, production and ongoing reflexive evaluation of project work.	2
	3. Develop, evaluate and critically contextualise work in relation to key dramatic, fictional and experience design principles, drawing upon relevant contextual knowledge.	3
	4. Clear consideration of the role of experience design and audience expectation in the development, construction, dissemination and evaluation of work.	4
	5. Ability to communicate, negotiate and problem solve in the development of ideas, materials and project work.	5
	6. Evidence of logistical planning, engaging with relevant time management principles, ethical guidelines and health and safety regulations.	6
	7. Effective use of online technologies and project management systems to support creative development and collaborative production;	7
	8. Production of work that engages with the themes of narrative and experience and makes use of creative and media production techniques.	8
