	Part 2: Learning and Teaching
Learning Outcomes	<ol> <li>Critically appraise existing knowledge, research, new evidence and innovations in practice to support work-based learning (A).</li> </ol>
	2 Critically analyse complex situations and address current limits of, or contradictions in the knowledge base and / or skills identified for work-based learning (A).
	3 Independently evaluate chosen methodology / tools and report findings and reflect upon on-going creation and summative outcomes for a work-based learning portfolio (A).
	4 Formulate ethical solutions, arguments and strategies in dialogue with peers, clients, mentors and others (A).
	5 Critically reflect on own and / or others' responsibilities and management of learning, which contributes to the goals of the organisation and a negotiated learning plan (A).
Syllabus Outline	This will be determined by the learning contract which has been agreed between the learner, their employer / line manager and an identified academic / programme leader.
	The focus of the learning contract will reflect the learner's or team's developmental needs, which are in line with specific organisational goals, context and governance.
	Please note that the focus of this module must be distinct from any previous or subsequent negotiated learning contract.
Teaching and Learning Methods	<b>Scheduled Learning</b> Teaching and Learning Methods will form an integral part of a negotiated tripartite plan between the learner, the employer-line manager and the programme or module leader. A variety of approaches will be used as student learning skills and needs, and organisational aims, focus and requirements dictate - these may include:

Reading Strategy	<b>Essential Reading</b> Core material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE programme presence. No requirement for the purchase of set text(s) will be made and students will have full access to library services, online applications, and inter-library loans. The input of the module leader will supplement the normal library provision expected at M-level so that research sources and relevant texts will be identified to the student and issues revolving around their access to them resolved.
	<i>Further Reading</i> Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature, wider professional sources and in-house publications of related national accrediting and sports governing bodies – e.g. Sports Coach UK.
	<b>Access and Skills</b> Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.
Indicative Reading List	The following list is offered to provide validation panels / accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms, including the module guide.

	Part 3: Assessment
Assessment Strategy	<ul> <li>Summative assessment centres upon completion of a portfolio based collation of relevant professional, academic and in-house organisational literature, reflective exercises and personal development action planning. This is evidenced via the satisfactory completion of an Evidencing Work-Based Learning Portfolio including:</li> <li>1 Demonstration of postgraduate intellectual skills via evaluation of both personal and professional development and life-long learning needs in light of their on-programme and wider coaching experiences.</li> <li>2 An evaluative commentary detailing the development of portfolio aims, focus, collection and collation methods, editing and emphasising of contents and cognisance of potential audience needs, skills and conventions.</li> <li>3 Content developed and selected in conversation and connection with a scheduled and student-managed mentoring relationship with the module leader and/or programme leader.</li> <li>A tentative but recurrent guide to the learner will be that they address the following components in their work:</li> </ul>
