

MODULE SPECIFICATION

Part 1: Information			
Module Title	Digital Signal Processing		
Module Code	UFMFH8-15-3	Level	Level 6
For implementation from	2018-19		
UWE Credit Rating	15	ECTS Credit Rating	7.5
Faculty	Faculty of Environment & Technology	Field	Engineering, Design and Mathematics
Department	FET Dept of Engin Design & Mathematics		
Contributes towards	Electronics and Communications [Sep][FT][Frenchay][3yrs] - Not Running BEng (Hons) 2017-18		
Module type:	Standard		
Pre-requisites	None		
Excluded Combinations	None		
Co- requisites	None		
Module Entry requirements	None		

Part 2: Description
<p>Educational Aims: See Learning Outcomes.</p> <p>In addition, the educational experience may explore, develop, and practise but not formally discretely assess the following:</p> <p>Develop competence in problem identification, analysis, design and implementation</p> <p>Understanding of the need for a high level of professional and ethical conduct</p>

STUDENT AND ACADEMIC SERVICES

Outline Syllabus: The syllabus includes:

Theory:

Introduction and basic definitions.

Time domain analysis: Digital convolution (definition, signal shifting, basic methods).

Frequency domain analysis.

Fourier Theory: Definition, discrete Fourier series, discrete Fourier transform, properties.

Z-transform: Definition, properties, z-transform vs Fourier transform, graphical approach.

Filter design: FIR filter design (inverse Fourier transform and windowing), IIR design (Butterworth, Chebychev, impulse method etc.).

DSP chips.

Practical:

Consists of a series of lab-based exercises using appropriate software and hardware. The programming language adopted is C/C++. Aspects of Matlab programming are also introduced.

Teaching and Learning Methods: The module is presented as a combination of contact, which will include lectures and laboratories, and student directed learning. A study-guide is provided for the student, directing their reading and work. Relevant ethical issues will be highlighted and students will be encouraged to consider these further through directed reading.

Contact Hours:

Activity:

Contact: 36 hours

Assimilation and skill development: 70 hours

Undertaking coursework: 20 hours

Exam preparation: 24 hours

Total: 150 hours

Part 3: Assessment

A formal exam that contributes 50% towards the final mark of the module. The examination is summative and assesses the students' understanding of concepts and techniques, and their ability to apply them in relatively straightforward problems.

A lab based coursework that contributes 50% towards the final mark of the module.

Formative assessment will be provided as oral feedback throughout the laboratory sessions particularly with respect to the lab exercises.

First Sit Components	Final Assessment	Element weighting	Description
Project - Component B		50 %	Small scale project
Examination - Component A	✓	50 %	Exam (2 hours)
Resit Components	Final Assessment	Element weighting	Description
Written Assignment - Component B		50 %	Coursework
Examination - Component A	✓	50 %	Exam (2 hours)

Part 4: Teaching and Learning Methods																			
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <table border="1"> <thead> <tr> <th colspan="2" style="text-align: center;">Module Learning Outcomes</th> </tr> </thead> <tbody> <tr> <td>MO1</td> <td>An understanding of engineering principles as applied to digital systems and the ability to assess their performances</td> </tr> <tr> <td>MO2</td> <td>The ability to use integrated development environments to describe, simulate, implement and verify the correctness of digital designs</td> </tr> <tr> <td>MO3</td> <td>Competence in using specific Electronic Design Automation tools</td> </tr> <tr> <td>MO4</td> <td>Competence in using technical literature and the ability to obtain documentation from various sources</td> </tr> </tbody> </table>	Module Learning Outcomes		MO1	An understanding of engineering principles as applied to digital systems and the ability to assess their performances	MO2	The ability to use integrated development environments to describe, simulate, implement and verify the correctness of digital designs	MO3	Competence in using specific Electronic Design Automation tools	MO4	Competence in using technical literature and the ability to obtain documentation from various sources								
Module Learning Outcomes																			
MO1	An understanding of engineering principles as applied to digital systems and the ability to assess their performances																		
MO2	The ability to use integrated development environments to describe, simulate, implement and verify the correctness of digital designs																		
MO3	Competence in using specific Electronic Design Automation tools																		
MO4	Competence in using technical literature and the ability to obtain documentation from various sources																		
Contact Hours	<table border="1"> <thead> <tr> <th colspan="2" style="text-align: center;">Contact Hours</th> </tr> </thead> <tbody> <tr> <td colspan="2" style="text-align: center;">Independent Study Hours:</td> </tr> <tr> <td style="text-align: center;">Independent study/self-guided study</td> <td style="text-align: center;">114</td> </tr> <tr> <td style="text-align: center;">Total Independent Study Hours:</td> <td style="text-align: center;">114</td> </tr> <tr> <td colspan="2" style="text-align: center;">Scheduled Learning and Teaching Hours:</td> </tr> <tr> <td style="text-align: center;">Face-to-face learning</td> <td style="text-align: center;">36</td> </tr> <tr> <td style="text-align: center;">Total Scheduled Learning and Teaching Hours:</td> <td style="text-align: center;">36</td> </tr> <tr> <td style="text-align: center;">Hours to be allocated</td> <td style="text-align: center;">150</td> </tr> <tr> <td style="text-align: center;">Allocated Hours</td> <td style="text-align: center;">150</td> </tr> </tbody> </table>	Contact Hours		Independent Study Hours:		Independent study/self-guided study	114	Total Independent Study Hours:	114	Scheduled Learning and Teaching Hours:		Face-to-face learning	36	Total Scheduled Learning and Teaching Hours:	36	Hours to be allocated	150	Allocated Hours	150
Contact Hours																			
Independent Study Hours:																			
Independent study/self-guided study	114																		
Total Independent Study Hours:	114																		
Scheduled Learning and Teaching Hours:																			
Face-to-face learning	36																		
Total Scheduled Learning and Teaching Hours:	36																		
Hours to be allocated	150																		
Allocated Hours	150																		
Reading List	<p>The reading list for this module can be accessed via the following link:</p> <p>https://uwe.rl.talis.com/modules/ufmfh8-15-3.html</p>
