

**STUDENT AND ACADEMIC SERVICES**

**MODULE SPECIFICATION**

Part 1: Basic Data					
Module Title	Masters Dissertation				
Module Code	UZWSUL-45-M	Level	M	Version	3
Owning Faculty	Health and Applied Sciences	Field	Acute and Critical Care Adult Nursing		
Contributes towards	MSc Advanced Practice MSc Specialist Practice MSc Medical Ultrasound MSc Nuclear Medicine MSc Radiotherapy and Oncology (pre-registration) MSc Physician Associate Studies MSc Nursing ( Adult) pre- registration MSc Nursing(Mental Health) pre- registration				
UWE Credit Rating	45	ECTS Credit Rating	22.5	Module Type	Project
Pre-requisites	60 level 3 credits or equivalent Completed and passed one of the following UZWSPX-15-M Health and Social Care Research: Methods and Methodology UZWSRV-15-M Health and Social Care Research: Methods and Methodology( Distance Learning) UZWRGQ-20-M Health and Social Care Research: Methods and Methodology or equivalent	Co-requisites	None		
Excluded Combinations	None	Module Entry requirements			
Valid From	September 2014 January 2017 (v2) September 2017 (v3)	Valid to	September 2020		

<b>CAP Approval Date</b>	20/11/2014 15/11/2016 (v2) 05/04/2017 (v3)
--------------------------	--

Part 2: Learning and Teaching	
Learning Outcomes	On successful completion of this module students will be able to: <ul style="list-style-type: none"> <li>• Produce a comprehensive and critical review of the literature (Component A).</li> <li>• Demonstrate a good understanding of the strengths and weaknesses of an investigation (Component A).</li> </ul>

	<ul style="list-style-type: none"> <li>• Critically evaluate and explore aspects of the research process including issues of reliability, validity, ethical issues and constraints (Component A).</li> <li>• Evaluate and contribute to theoretical and methodological debate in their discipline area (Component A).</li> <li>• Design and execute a well planned research study based on relevant research methodology, within a framework of research governance (Component A).</li> </ul> <p>Mapping of specific learning outcomes for the dissertation will be dependent upon the nature of the study and the methodology employed.</p>																									
Syllabus Outline	<p>workshops are available for</p> <ul style="list-style-type: none"> <li>• supporting students in preparing ethics applications for their projects.</li> <li>• supporting students in understanding the nature of individual investigation,</li> <li>• the value of using supervision appropriately</li> <li>• academic writing for journals.</li> </ul>																									
Contact Hours	<p>8 hours of workshops and 14.5 hours of supervision totalling 22.5 contact hours</p> <p>Students are allocated a supervisor who has the main responsibility for co-ordinating formal support, monitoring progress and project supervision. It is the student's responsibility to initiate and maintain contact with the supervisor.</p> <p>Students undertaking projects requiring NRES applications may require extra support which will be negotiated with the module leader and the supervisor.</p>																									
Teaching and Learning Methods	<p>Independent learning underpins the teaching and learning strategy on the dissertation module. The student has an identified dissertation supervisor and supervision includes contact hours with the supervisor and formative feedback on draft work.</p> <p>8 hours of workshops are available for students</p>																									
Key Information Sets Information	<p>Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.</p> <table border="1" data-bbox="472 1453 1366 1814"> <thead> <tr> <th colspan="5"><b>Key Information Set - Module data</b></th> </tr> <tr> <td colspan="5"><i>Number of credits for this module</i></td> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> <td></td> <td style="border: 2px solid black; text-align: center;">45</td> </tr> <tr> <th>Hours to be allocated</th> <th>Scheduled learning and teaching study hours</th> <th>Independent study hours</th> <th>Placement study hours</th> <th>Allocated Hours</th> </tr> <tr> <td style="text-align: center;">450</td> <td style="text-align: center;">22.5</td> <td style="text-align: center;">427.5</td> <td></td> <td style="text-align: center;">450</td> </tr> </tbody> </table> <p style="text-align: right;"></p> <p>The table below indicates as a percentage the total assessment of the module which constitutes a -</p> <p><b>Coursework:</b> Written dissertation</p>	<b>Key Information Set - Module data</b>					<i>Number of credits for this module</i>									45	Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours	450	22.5	427.5		450

Reading Strategy	<p><b>Core readings</b></p> <p>Any essential reading will be indicated clearly, along with the method for accessing it, e.g. students may be referred to texts that are available electronically or in the Library. Module guides will also reflect the range of reading to be carried out.</p> <p><b>Further readings</b></p> <p>Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library search, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature.</p> <p><b>Access and skills</b></p> <p>The nature of dissertation is independent study in which students will develop their information retrieval and evaluation skills in order to identify such resources effectively. Additional support is available through the Library Services web pages, including interactive tutorials on finding books and journals, evaluating information and referencing. Sign up workshops are also offered by the Library.</p>																														
Indicative Reading List	<p>The following list is offered to provide validation panels/accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, <i>current</i> advice on readings will be available via other more frequently updated mechanisms.</p> <p>Bourgeault, I. Dingwall, R. de Vries, R. <b>Part 3: Assessment</b>	
---------------------------	--

Assessment Strategy	<p>The assessment strategy for this module is in the form of a portfolio of course work.</p> <p>The summative assessment is work that allows the student to present the design and execution of a primary or secondary research and study or service evaluation that they have undertaken. The dissertation portfolio should not exceed a maximum of 10,000 words (excluding reference lists) and consists of:</p> <ol style="list-style-type: none"> <li>1. A journal article prepared for submission to a journal of their choice.</li> <li>2. An explanation and justification of the academic journal the paper is (hypothetically) written for</li> <li>3. A reflection on their research. This will provide students space to justify their decisions in carrying out the research and in evaluation that might not fit well in the journal article</li> </ol> <p>Across the 3 elements of the portfolio all learning outcomes must be demonstrated.</p> <p>Formative assessment occurs throughout the module as the student works with the allocated dissertation supervisor.</p>
---------------------	--

Identify final assessment component and element	<b>Component A</b>		
	<b>A:</b>	<b>B:</b>	

<b>% weighting between components A and B</b> (Standard modules only)	<b>100%</b>	
<b>First Sit</b>		
<b>Component A</b> <b>Description of each element</b>	<b>Element weighting</b>	
Dissertation portfolio (10,000 words)	100%	

<b>Resit (further attendance at taught classes is not required)</b>		
<b>Component A</b> <b>Description of each element</b>	<b>Element weighting</b>	
Resubmission of Dissertation portfolio (10,000 words)	100%	
If a student is permitted an <b>EXCEPTIONAL RETAKE</b> of the module the assessment will be that indicated by the Module Description at the time that retake commences.
