

CORPORATE AND ACADEMIC SERVICES

MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Evidencing Work Based Learning				
Module Code	USPK7K-15-1	Level	1	Version	1.1
Owning Faculty	Health and Applied Sciences	Field	Psychology		
Contributes towards	Programmes within the Faculty of Health and Applied Sciences with the agreement of the programme manager				
UWE Credit Rating	15	ECTS Credit Rating	7.5	Module Type	Project
Pre-requisites			Co-requisites		
Excluded Combinations			Module Entry requirements		
Valid From	September 2014		Valid to	September 2020	

CAP Approval Date	29 th May 2014
--------------------------	---------------------------

Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ul style="list-style-type: none"> Identify own personal learning style. Identify and critique relevant information from a range of sources. Reflect on own learning from the work-based activities, which were identified via a personal development plan and agreed learning contract. Recognise alternative solutions to an identified problem or situation. Agree and prioritise work-based activities and manage time effectively. <p>The learning outcomes to be assessed summatively are negotiated between the learner, manager/mentor and the university facilitator and are incorporated into the learning contract</p>
Syllabus Outline	<p>The syllabus is dictated by the nature of the work based learning. The range of work based learning projects that can be undertaken may be linked to professional competencies articulated in professional practice modules, for example; the Standards for Pre-registration Education (Nursing and Midwifery Council) or the Standards of Proficiency (Health and Care Professions Council). Students will be expected to demonstrate that the scope of their project lies within the identified and relevant standards.</p>

Contact Hours	Self-directed learning																				
Teaching and Learning Methods	<p>There is little teaching within this module – the emphasis is very much upon student learning undertaken in practice and facilitated by an academic supervisor, and where appropriate, a workplace mentor.</p> <p>Students will identify an area of learning need or interest based on their performance in practice. The methods of learning will be identified in an individually negotiated learning contract.</p> <p>Student progress towards the learning outcomes will be facilitated and monitored in individual and group tutorials.</p> <p>Scheduled learning will be restricted to introductory explanatory sessions.</p> <p>Independent learning will form the vast majority of the educational activity in the module. This can take as many forms as there are activities at work. Students will be required to demonstrate their learning using academic literature which will also require searching and reading and critical reflection.</p> <p>Professional Practice or Placement learning: Students will identify their learning need or interest during professional practice or practice placements, and most learning will be undertaken in these settings.</p>																				
Key Information Sets Information	<p>Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.</p> <table border="1" data-bbox="464 1160 1362 1570"> <thead> <tr> <th colspan="5">Key Information Set - Module data</th> </tr> </thead> <tbody> <tr> <td colspan="4"><i>Number of credits for this module</i></td> <td style="border: 2px solid black;">15</td> </tr> <tr> <th>Hours to be allocated</th> <th>Scheduled learning and teaching study hours</th> <th>Independent study hours</th> <th>Placement study hours</th> <th>Allocated Hours</th> </tr> <tr> <td>150</td> <td>5</td> <td>45</td> <td>100</td> <td>150</td> </tr> </tbody> </table> <p>The table below indicates as a percentage the total assessment of the module which constitutes a -</p> <p>Written Exam: Unseen written exam, open book written exam, In-class test Coursework: Written assignment or essay, report, dissertation, portfolio, project Practical Exam: Oral Assessment and/or presentation, practical skills assessment, practical exam</p> <p>Please note that this is the total of various types of assessment and will not necessarily reflect the component and module weightings in the Assessment section of this module description:</p>	Key Information Set - Module data					<i>Number of credits for this module</i>				15	Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours	150	5	45	100	150

150	5	45	100	150																	

	Total assessment of the module:			
	Written exam assessment percentage	0%		
	Coursework assessment percentage	100%		
	Practical exam assessment percentage	0%		
				100%
Reading Strategy	There are no set texts because the range of subjects to be studied varies. Some reading about the generic skills required for Work Based Learning will be suggested, covering such subjects as, for example, reflective practice and portfolio building.			

Part 3: Assessment	
Assessment Strategy	<p>The assessment strategy for individual students depends on the learning contract negotiated with the facilitator. The assessment states that it must be equivalent to a project equivalent to 3000 words because some options of assessment will not take the form of written work in the form of an orthodox essay or report. Other options include</p> <ul style="list-style-type: none"> • A portfolio of evidence • A presentation with associated reflection • Production of a patient/service user information leaflet or video with associated reflection. • A paper or letter prepared for publication with associated reflection. <p>Clearly where there are different options for assessment there will need to be guidelines so that students and academic staff can have confidence that assessments are comparable. Assessment strategies need to meet three criteria.</p> <ol style="list-style-type: none"> 1. That the negotiated learning outcomes are met 2. That the correct academic level is reached 3. That the learning, including assessment, represents 150 hours of study, nominally.

Identify final assessment component and element	Component A	
% weighting between components A and B (Standard modules only)	A:	B:
	100	
First Sit		
Component A (controlled conditions) Description of each element	Element weighting (as % of component)	
1. Project equivalent to 3000 words	100%	

Resit (further attendance at taught classes is not required)	
Component A (controlled conditions) Description of each element	Element weighting (as % of component)
1. Project equivalent to 3000 words	100%
<p>If a student is permitted an EXCEPTIONAL RETAKE of the module the assessment will be that indicated by the Module Description at the time that retake commences.</p>
