MODULE SPECIFICATION

Part 1: Basic Data					
Module Title	Managing Maternal Critical Care				
Module Code	UZUSU9-15-M	Level	M	Version	1
Owning Faculty	Health and Applied Sciences	Field	Maternal and Child Health		
Contributes towards	MSc Advanced Practice MSc Specialist Practice BSc (Hons) Midwifery				
UWE Credit Rating	15	ECTS Credit Rating	7.5	Module Type	Standard
Pre-requisites	None		Co- requisites	None	
Excluded Combinations	UZUSTJ-15-3 Managing Maternal Critical Care		Module Entry requirements	None	
Valid From	1/9/14		Valid to		

CAP Approval Date	
--------------------------	--

Part 2: Learning and Teaching	
Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ol style="list-style-type: none"> 1. Recognise the need for, planning, implementing and evaluating maternal critical care. (Component A) 2. Demonstrate a critical understanding of the application of human factors to the clinical decision making process. (Component A) 3. Demonstrate knowledge and skills required to care for women requiring high dependency care in the labour ward setting. (Component A) 4. Critically analyse the working of the multi-disciplinary team and the role of the midwife within it. (Component A) 5. Critically discuss relevant legal, ethical and cultural issues and their impact on maternal critical care. (Component A) 6. Demonstrate self-direction and decision-making in complex and unpredictable situations. (Component A)

	7. Demonstrate leadership within maternal critical care. (Component A)
Syllabus Outline	<p>The module syllabus is organised under the following iterative headings:</p> <p>Professional and ethical practice</p> <ul style="list-style-type: none"> • Managing and prioritising maternal critical care • The law and ethics in complex maternal critical care situations <p>Anatomy, physiology and pathophysiology</p> <ul style="list-style-type: none"> • Supporting complex birth • Identifying occult signs in maternal critical care and obstetric emergencies • High dependency maternal care • Identifying rapidly changing clinical conditions <p>Key transferable and clinical skills</p> <ul style="list-style-type: none"> • Clinical reasoning • Human factors and their impact in clinical decision making • Advanced clinical skills required for high dependency maternal care <p>Leadership and Management</p> <ul style="list-style-type: none"> • Management of self and others (leadership, emotional intelligence and resilience) • Leading multi-disciplinary teams
Contact Hours	<p>Contact hours: 36 hrs.</p> <p>Contact time includes lectures, seminars, simulation and workshops.</p>
Teaching and Learning Methods	<p>Learning and teaching methods utilised within this module are student centred. This holistic approach presents the students with complex practice events to unravel and resolve, directly supporting the student to acquire the complex knowledge, skills and values necessary for effective high risk midwifery practice. Students will be able to appraise and apply theory to practice, develop acute clinical reasoning skills as well as assimilate the knowledge and skills necessary for summative assessment activities.</p> <p>Scheduled learning</p> <ul style="list-style-type: none"> • Lectures • Seminars • Workshops and master classes • Presentations • TEL • Group work • Formative peer and self-assessment <p>Independent learning</p> <ul style="list-style-type: none"> • Directed reading • Locating and researching information • TEL activities • Preparation for formative and summative assessment
