

### MODULE SPECIFICATION

#### Part 1: Information

Module Title	Physical Assessment and Clinical Reasoning		
Module Code	UZWRWU-20-M	Level	M
For implementation from	June 2018		
UWE Credit Rating	20	ECTS Credit Rating	10
Faculty	Health and Applied Sciences	Field	Acute and Critical Care Adult Nursing
Department	Nursing and Midwifery		
Contributes towards	MSc Advanced Practice (Optional) MSc Specialist Practice (District Nursing) (optional) MSc Advanced Clinical Practice Postgraduate Certificate Health and Social Care (optional) Postgraduate Diploma Advanced Practice (optional) Postgraduate Diploma Specialist Practice ( District Nursing)		
Module type:	Standard		
Pre-requisites	None		
Excluded Combinations	UZWS5F-20-3 Physical Assessment and Clinical Reasoning UZWRH7-20-M Clinical Examination Skills for advanced practice UZWSRR-15-M Physical Assessment and Clinical Reasoning UZWSRQ-15-3 Physical Assessment and Clinical Reasoning		
Co- requisites	None		
Module Entry requirements	CPD or stand alone		

#### Part 2: Description

The module is designed to develop practitioner skills in physical assessment and clinical reasoning using a systems approach.

In this module you will cover

##### Skills

- Systematic history taking
- Use of advanced physical assessment techniques
- Identify red flags, and interpret normal and abnormal findings
- Introduction to use of frameworks for clinical reasoning

##### Scientific Knowledge

Foundations of relevant anatomy and pathophysiology.

Introduction to clinical findings through head to toe physical assessment with application to related disease processes.

- Cardiovascular examination
- Head, Neck, Skin, Ears, Eyes, Nose and throat examination
- Respiratory examination

- Abdominal examination
- Neurological examination
- Musculoskeletal examination
- Rationale for diagnostic investigations and relevance to practice

### Context of physical assessment and clinical reasoning

- Health promotion
- Legal/ethical principles
- Clinical governance
- Evidence based practice and clinical guidelines
- National and local initiatives for changing roles in practice

## Part 3: Assessment: Strategy and Details

### Formative strategy

Formative OSCEs undertaken throughout the module will contribute to use as part of the student learning strategy for physical assessment.

Complete a minimum of 6 clinical examinations (one for each system). The student will only need to submit the log that their case study is based on.

### Summative assessment

#### Component A

The student is required to conduct an advanced clinical examination under exam conditions in the form of an Objective Structured Clinical Examination (OSCE).

#### Component B

The student will provide a 2000 word critical analysis and evaluation of one of their logs (one patient case study) and physical assessment techniques (of one system), which has been undertaken by the student in practice.

Identify final timetabled piece of assessment (component and element)	A	
% weighting between components A and B (Standard modules only)	<b>A:</b>	<b>B:</b>
	<b>50</b>	<b>50</b>

### First Sit

Component A (controlled conditions) Description of each element	Element weighting (as % of component)
1. OSCE	<b>100</b>
Component B Description of each element	Element weighting (as % of component)
1. 2000 word assignment	100

### Resit (further attendance at taught classes is not required)

Component A (controlled conditions) Description of each element	Element weighting (as % of component)
1. OSCE	100
Component B Description of each element	Element weighting (as % of component)
1. 2000 word assignment	100

## Part 4: Learning Outcomes &amp; KIS Data

Learning Outcomes	<p>On successful completion of this module students will be able to:</p> <ol style="list-style-type: none"> <li>1. Demonstrate an in depth knowledge and understanding of the evidence base underpinning physical assessment and clinical reasoning. (Component A and Component B)</li> <li>2. Conduct advanced physical examination and assessment within the practitioners chosen field, according to universally accepted standards, and demonstrate completion of accurate documentation. (Component A and B)</li> <li>3. Critically analyse and interpret findings of the advanced physical assessment. (Component B)</li> <li>4. Exercise clinical judgement to provide a differential diagnosis, and formulate an action plan based on the findings of the assessment. (Component B)</li> </ol>
